## **Safe Sex In The Age Of Aids For Men And Women:**

**Birth in the Age of AIDS** Cecilia Van Hollen, 2013-04-03 Birth in the Age of AIDS is a vivid and poignant portrayal of the experiences of HIV positive women in India during pregnancy birth and motherhood at the beginning of the 21st century The government of India together with global health organizations established an important public health initiative to prevent HIV transmission from mother to child While this program which targets poor women attending public maternity hospitals has improved health outcomes for infants it has resulted in sometimes devastatingly negative consequences for poor young mothers because these women are being tested for HIV in far greater numbers than their male spouses and are often blamed for bringing this highly stigmatized disease into the family Based on research conducted by the author in India this book chronicles the experiences of women from the point of their decisions about whether to accept HIV testing through their decisions about whether or not to continue with the birth if they test HIV positive their birthing experiences in hospitals decisions and practices surrounding breast feeding vs bottle feeding and their hopes and fears for the future of their children

**Safe Sex in the Age of AIDS**, 1986 **The Gender Politics of HIV/AIDS in Women** Nancy Goldstein, Jennifer L Manlowe, 1997-06 From their posts at the center of the pandemic in the laboratory the academy clinics and community based organizations experts such as Evelyn Hammonds Risa Denenberg Michelle Murrain and Paul Farmer criticize blind spots in the recognition and treatment of HIV in women and articulate accessible and practical solutions to specific areas of difficulty

**AIDS and the Body Politic** Catherine Waldby, 2003-09-02 Catherine Waldby's informative study draws on feminist theory cultural studies the philosophy of science and gay and lesbian studies to problematise the factual scientific discourse about AIDS and interpret it as a political discourse Waldby argues that much AIDS discourse relies on an implicit and unconscious equation between sexual health and heterosexual masculinity In this equation between women bisexual and gay men are the targets of preventative programmes while heterosexual men tend to remain unaddressed by such programmes *The Link between Masculinity, Alcohol and HIV/Aids in Malawi* Norwegian Church Aid, 2016-04-30 It is common knowledge that HIV is widespread in Malawi as it is in many other countries of Southern Africa It is also a well known fact that women suffer most and frequently are blamed the most Many attempts are being made to address the pandemic and reduce the suffering and often women are the focus This book differs in that it looks at the other side men It contends that men have to play a major role in the fight not only by changing behaviour but also by understanding concepts of masculinity and that women may also profit from that **AIDS in the World II** Global AIDS Policy Coalition, 1996 AIDS in the World Vol 1 published in 1992 was the first full analysis of mankind's global confrontation with this disease The AIDS scene however has been changing so rapidly that the need for a second volume was felt much earlier than expected In AIDS in the World II the authors extend the international comparisons from 38 countries to the entire world and show that the AIDS pandemic has become increasingly fragmented within the world population They present data that takes the discussion beyond the current understanding of the

vulnerability of nations and communities to the worldwide spread of HIV engaging in a detailed exploration of the social strategies that have enabled individuals to avoid infection Mann and Tarantola chart a course into the future based on an incisive investigation of the global pandemic and response the crucial lessons learned from the first decade and their expert understanding of the scientific and social dimensions of the HIV challenge The authors explain how the variety of reactions to the pandemic has contributed to a more advanced awareness of our vulnerability to HIV AIDS and offer a blueprint for an expanded global prevention effort Intended to serve the information needs of all professionals involved in AIDS research and care this volume s accessibility and clarity of writing make it highly suitable for the general reader as well AIDS

**Women and HIV/AIDS** Dorie J. Gilbert, Ednita M. Wright, 2003-03-30 AIDS is the second leading cause of death among African American women between the ages of 18 and 44 African American women constitute 63% of all cases of AIDS among women in the United States This volume brings together the collective wisdom of scholars researchers and social work professionals dealing with these concerns Focusing attention on the primary population of women impacted by AIDS this book presents culturally sensitive responses that meet the specific needs of African American women An historical and current overview of the alarming HIV infection rate among African Americans in particular women introduces the crisis Subsequent chapters highlight HIV AIDS prevention and intervention strategies that are successfully impacting the African American population Guided by a feminist perspective and grounded in social construction theory social work theory and social work practice this volume privileges the voice of African American women the group that is the most disenfranchised and least accurately represented in AIDS related research and writing This essential guide sheds light on a calamity too often overlooked making it especially valuable for scholars students researchers and practitioners involved with HIV AIDS issues in the African American community and with women s and black studies The Macroeconomics of HIV/AIDS Mr. Markus

Haacker, 2004-11-19 This paper analyzes the macroeconomics of HIV AIDS The paper highlights that the mortality and morbidity associated with AIDS make it unlike most other types of sickness and disease The paper describes the most common approaches used in accounting for growth in the context of an HIV AIDS epidemic The impact of HIV AIDS on

education and the accumulation of human capital is discussed The paper also discusses the impact of HIV AIDS on the public sector and elaborates certain demographic events specific to the HIV AIDS pandemic

**The Politics of AIDS** Håkan Thörn,2008-04-01 HIV AIDS is the major political challenge of our time Based on empirical observations from all over the world this book examines how HIV AIDS has become increasingly transnational as nation states have extended their programmes across borders and transnational networks have increased their activities

**AIDS in Maine** Maine. Dept. of Human Services,1990

The Other Half of Gender Ian Bannon,Maria Correia,2006-01-01 This book is an attempt to bring the gender and development debate full circle from a much needed focus on empowering women to a more comprehensive gender framework that considers gender as a system that affects both women and men The chapters in this book explore definitions of masculinity and male identities in a variety of social contexts drawing from experiences in Latin America the Caribbean and sub Saharan Africa It draws on a slowly emerging realization that attaining the vision of gender equality will be difficult if not impossible without changing the ways in which masculinities are defined and acted upon Although changing male gender norms will be a difficult and slow process we must begin by understanding how versions of masculinities are defined and acted upon

**Encyclopedia of Lesbian and Gay Histories and Cultures** George Haggerty,Bonnie Zimmerman,2003-09-02 Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology this Encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavours While gays and lesbians have shared many aspects of life their histories and cultures developed in profoundly different ways To reflect this crucial fact the Encyclopedia has been prepared in two separate volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered Written by some of the most famous names in the field as well as new researchers this is intended as a reference for students and scholars in all areas of study as well as the general public

Economics and HIV Deborah Johnston,2013-05-29 This book explains how and why economics has been applied to a terrible pandemic using a range of examples mostly drawn from the region most affected sub Saharan Africa Part I shows that microeconomic approaches have found fertile ground in a public health approach that blames individual choices for HIV transmission Despite their attractiveness however these approaches fail to explain contemporary patterns of HIV prevalence illustrating the importance of factors that are excluded from the standard micro economic approach Part II of the book looks at our problems in understanding the economic impact of AIDS and explains why economists cannot agree if epidemic disease is a good or bad thing for economic development In both sections of the book the potential for alternative approaches is shown and the book ends by arguing that a political economy approach can bring meaningful insights to our understanding of the spread and impact of HIV AIDS
