**Mommy Can Do It** Kelly A Smith, 2006-09 As Mommies we can do almost everything that our children need We nurture them feed them bathe them play with them and love them We can do almost anything until it comes to baby proofing As soon as we see the words drill a 1 16 pilot hole most Mommies run screaming for Daddy The idea of using a drill or screwdriver sometimes seems as foreign and daunting as overhauling an engine or building a house from the ground up Would you like to find out the three steps to choosing a baby safety gate Do you know how to protect your child from drowning in your own home This book answers these questions and more Mommy Can Do It A Do It Herself Guide to Baby Proofing helps take away the frustration often associated with creating a child safe home by empowering Mom to do it herself No more does Mom need to wait for Dad to install the baby safety gate or to hire a baby proofer This is the only child safety book available that touches on important child safety risks in the home while focusing on helping Mom create a TotSafe home **The Art of Babyproofing- Keeping Your Little One Safe** Aurora Brooks, 2023-09-11 The Art of Babyproofing Keeping Your Little One Safe Creating a safe environment for your baby is essential and The Art of Babyproofing Keeping Your Little One Safe is your comprehensive guide to ensuring your home is secure and hazard free This short read book offers practical and actionable advice to help you identify potential risks and implement effective safety measures Start with the foundational chapter on Identifying Potential Hazards where you ll learn how to spot common dangers around your home from sharp edges to choking hazards and take steps to eliminate them The book then covers the use of Safety Gates and Playpens guiding you on choosing and installing the right safety gates to restrict access to unsafe areas The section on Securing Furniture and Appliances provides detailed instructions on anchoring furniture and securing appliances to prevent tipping and accidents With Electrical Safety Measures discover essential practices like using outlet covers and managing cords to protect your baby from electrical hazards Kitchens and bathrooms can be particularly hazardous The book offers practical advice in Kitchen Safety Precautions including stove guards and cabinet locks and in Bathroom Safety Measures focusing on bathtub safety non slip mats and toilet locks Addressing Window and Blind Safety you ll find guidance on window locks and cordless blinds to prevent potential accidents The book also covers Securing Bookshelves and Heavy Objects with bookshelf anchors and wall straps to prevent tipping Creating a secure sleeping environment is critical and Creating a Safe Sleeping Environment provides guidelines on crib safety and practices to reduce the risk of Sudden Infant Death Syndrome SIDS The chapter on Preventing Access to Hazardous Substances includes strategies for childproofing cabinets storing hazardous items safely and securing electrical cords Finally Fireplace Safety Measures offer tips on using gates safety screens and hearth cushions to protect your little one from fireplace related accidents The Art of Babyproofing is a vital resource for new parents and caregivers looking to make their homes safer for their babies Secure your copy today and take the first step towards creating a safe and nurturing environment for your child Safe, Secure Baby & Toddler Phyllis A.

Edison,2013-03-16 Safe Secure Baby Toddler Effectively Baby Proof your Home and Car for the Safety of You your Child Why is It Important for My Baby to Have a Baby Proof Home Parents often feel overprotective especially when it comes to their children Because of their protective instincts they often feel scared especially when they are away from the house They often cannot shake the feeling that their children might be in one form of danger or another while they are away For parents the well being of their children is a 24 hour concern No matter how much tasks they have to do they think about their children and their safety This is not unfounded Experts believe that kids over the age of 1 and 4 are more likely to be injured because of being overly curious This heightened curiosity often results in accidental injuries brought about by touching and playing with things they are not supposed to touch or going to places where they are not supposed to Each year over 2 3 million children are injured accidentally and a thousand more are killed due to lack of protection Such statistics can be found in the U S Center of Disease Control or CDC Unsupervised children inside or outside the house are not safe The only way to decrease the possibility of accidents from happening is for moms to baby proof their homes Baby proofing involves several stages that coincide with your baby s age and developmental stage According to Jean Piaget a famous Swiss developmental psychologist and psychoanalysts the first stages of the infant from birth and to 1 year is the child s coordination stages During birth to 6 weeks coordination and sensation are developed by the infant The child learns several primary reflexes such as sucking following movements of items and clenching the hands During the 4th and 8th months the infant already becomes object oriented and he follows repeated actions The infant follows the actions of everyone inside the house and his secondary circular reactions are developed At this stage parents should spend time with their babies and observe whether they are developing as expected The reflexes and actions that they learn will actually help them deal with some of the risks they encounter in their young lives This will also be a good time for the parents to observe and take note of any special areas of safety concern that they need to address both at present and a few weeks or months down the road
