Mystery of 5MR18 at the Narrows on the South Platte River J. Michael Geiger,2023-09-20 Few mysteries are solved without questions remaining This mystery too will leave the reader asking for more information about wagon life during the western migration the draw of gold fields and the lure of business and political ties and much more In all mysteries there is the intrigue and mental gymnastics of uncertainty folklore obscurity of fact Our imagination leads us to travel the pathways provided by betrayal greed inference and conjecture These building

footprints forgotten and left to be covered by sand and time provided the primary evidence of an untold piece of Colorado's story. The footprints have been sitting in the sand unrecognized and unheralded even their birth story was unknown. Are these relics of the past centuries old or merely decades? There was no known current recognition, no known builder, purpose, history, or name identity. Their history and the story they represent covers more than six states and although just footprints, they may have been unique and of major significance for the period. They also could signify something to decorate the pages of infamy and betrayal. As the trail winds through many states, false leads and familiar pioneer names there emerges a sense of historical significance pointing to even more historical associations and questions. There is intrigue regarding those involved with what these building footprints represent: from life on the prairie to those desiring fame and fortune by spinning their influence from Colorado to Washington DC, only to find that today in many aspects this story continues.

Out Where the West Begins Philip F. Anschutz, William J. Convery, Thomas J. Noel, 2017-12-15. Between 1800 and 1920 an extraordinary cast of bold innovators and entrepreneurs, individuals such as Cyrus McCormick, Brigham Young, Henry Wells, and James Fargo, Fred Harvey, Levi Strauss, Adolph Coors, J. P. Morgan, and Buffalo Bill Cody helped lay the groundwork for what we now call the American West. They were people of imagination and courage, adept at maneuvering the rapids of change, alert to opportunity, persistent in their missions. They had big ideas; they were not afraid to test. They stitched the country together with the first transcontinental railroad, invented the Model A, and built the roads it traveled on, raised cities, and supplied them with water and electricity, established banks for immigrant populations, entertained the world with film and showmanship, and created a new form of western hospitality for early travelers. Not all were ideal role models. Most, however, once they had made their fortunes, shared them in the form of cultural institutions, charities, libraries, parks, and other amenities that continue to enrich lives in the West today.

Out Where the West Begins profiles some fifty of these individuals, tracing the arcs of their lives, exploring their backgrounds and motivations, identifying their contributions, and analyzing the strategies they developed to succeed in their chosen fields.
