Anglo-Saxon Saints Lives as History Writing in Late Medieval England Cynthia Turner Camp, 2015. A groundbreaking assessment of the use medieval English history writers made of saints' lives. The past was ever present in later medieval England as secular and religious institutions worked to recover or create originary narratives that could guarantee they hoped their political and spiritual legitimacy. Anglo-Saxon England in particular was imagined as a spiritual golden age and a rich source of precedent for kings and for the monasteries that housed early English saints. This book examines the vernacular hagiography produced in a monastic context, demonstrating how writers, illuminators and policy makers used English saints including St Edmund to reenvision the bonds between ancient spiritual purity and contemporary conditions. Treating history and ethical practice as

inseparable poets such as Osborn Bokenham Henry Bradshaw and John Lydgate reconfigured England's history through its saints engaging with contemporary concerns about institutional identity authority and ethics Cynthia Turner Camp is an Assistant Professor of English at the University of Georgia

Communities of Saint Martin Sharon Farmer, 2019-03-15 Sharon Farmer here investigates the ways in which three medieval communities the town of Tours the basilica of Saint Martin there and the abbey of Marmoutier nearby all defined themselves through the cult of Saint Martin She demonstrates how in the early Middle Ages the bishops of Tours used the cult of Martin their fourth-century predecessor to shape an idealized image of Tours as Martin's town As the heirs to Martin's see the bishops projected themselves as the rightful leaders of the community However in the late eleventh century she shows the canons of Saint Martin where the saint's relics resided and the monks of Marmoutier which Martin had founded took control of the cult and produced new legends and rituals to strengthen their corporate interests Since the basilica and the abbey differed in their spiritualities structures and external ties the canons and monks elaborated and manipulated Martin's cult in quite different ways Farmer shows how one saint's cult lent itself to these varying uses and analyzes the strikingly dissimilar Martins that emerged Her skillful inquiry into the relationship between group identity and cultural expression illuminates the degree to which culture is contested territory Farmer's rich blend of social history and hagiography will appeal to a wide range of medievalists cultural anthropologists religious historians and urban historians
