Paternalistic Capitalism Andreas G. Papandreou,1972-05-17 Paternalistic Capitalism was first published in 1972 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published

unaltered from the original University of Minnesota Press editions The distinguished economist and Greek political leader presents here a powerful critique of American capitalism and its relationship to government and foreign policy Dr Papandreou first examines the orthodox view of the contemporary capitalist economy and the myth of market capitalism which it has engendered He then considers the Neo Marxist view that the economy can best be understood as monopoly capitalism and the technocratic interpretation of society proposed by J K Galbraith Dr Papandreou accepts and rejects various aspects of these two interpretations and moves to define the salient features of what he calls paternalistic capitalism wherein privatized decentralized planning increasingly is carried out by the corporate managerial elite in the interest not of the consumer but of the system The paternalism is that of the autocratic big brother The author then explores the relationship between the managerial elite and the instrumentalities of the State and claims that next to the managerial elite stand the national security managers not by accident for paternalistic capitalism is aggressively expansionist as is reflected in the foreign policy of the capitalist metropolis the United States The global aspect of paternalistic capitalism is further delineated in Dr Papandreou s discussion of the new mercantilism and of the institutional device of the multinational corporation Finally he considers briefly two alternatives the Soviet experiment which he rejects as paternalistic socialism and a vision of a regionally decentralized society in which man will control rather than be at the mercy of his social environment

situation The book has been designed for those practising managers who need more than the planning text book It will tell you Why attempts at planning are foiled by the market the company culture or both How effective strategists don t plan but use organizationally tailored strategy making processes How to design the right process for your company and your market How to know if the strategy you make is strong before you implement it **The Industrial Reorganization Act: The communications industry** United States.
