Every Season Anne Love Woodhull, 2007-04-17 Presents a portrait of nature through the seasons of the year **The Seasons** James Thomson, Patrick Murdoch, 1842 **The Seasons** James Thomson (poète), 1842 Literary and Cultural Intersections during the Long Eighteenth Century Marianna D'Ezio, 2009-10-02 Culture and literature indeed intellectual life as a whole in eighteenth century Britain were characterized by complex internal tensions as well as influenced by the unprecedented atmosphere of major political cultural and social change which led to the revolutions at end of the century Furthermore the diffusion of periodicals and newspapers which formed the basis of public conversation in urban coffee houses functioned as a vehicle for the dispersion of works which publicly mirrored a private society in the process of transformation The focus on this change and the circulation of new ideas on taste and polite society as well as on culture and literature can be found in the continual intertwining between the public and the private spheres of society The aim of the first part of this collection of original unpublished essays by young international scholars is to investigate the dynamics of these overlapping spheres through new readings of eighteenth century literary works which not only analysed the mechanisms of the private and public spheres but also highlighted some remarkable cultural features such as clothing and fashion gossip and gender issues As suggested by the title the second part of the collection will expand on the principal idea of intersections in eighteenth century English literature from the intersections linking the private and public spheres of British society to those between eighteenth century works within the British literary canon taking into account the influence of European thought The purpose of the second group of essays is thus that of offering fresh perspectives and a re evaluation of literary and cultural reciprocal exchanges in order to better locate or re locate canonical works and authors within the eighteenth century literary tradition **The Genres of Thomson's The Seasons** Sandro Jung, Kwinten Van De Walle, 2018-09-01 Critics since the eighteenth century have puzzled over the form of James Thomson's composite long poem The Seasons 1730 1744 1746 its generically hybrid make up and its relationship to established genres both Classical and modern The textual condition of the work is complicated by the fact that it started as a stand alone poem Winter 1726 but

was subsequently expanded as part of a revision process that lasted almost two decades through the addition of three further seasons poems Transforming from primarily devotional poem to georgic account of the role of man s laboring role in the creation the meaning of The Seasons shifted with each addition of new material Each revision introduced diverse subject matter while existing material was reorganized and occasionally moved from one season installment to another The Genres of Thomson s The Seasons is the first collection of essays exclusively devoted to the study of the work s formal heterogeneity polyvocality and polygeneric character All contributions examine the different modes descriptive reflective pastoral hymnal amatory epic georgic dramatic discourses political sentimental scientific and kinds that cooperate to make up the different installments and variants of The Seasons They probe the multifarious interactions between different genres and modes and how a renewed focus on the form of Thomson s long poem will result in an understanding of the processual character of The Seasons as a synthesizing simulacrum of various discourses and theories of composition The volume s essays map the generic anatomy of the poem in its different incarnations They shed light on the poet s conception of the descriptive long poem and his engaging with formal traditions that would have enabled contemporaneous readers to conceive of The Seasons as an assimilating and learned work to be read through both the works of the Classics and moderns Contributions revisit models explaining the structural complexity of The Seasons proposing others in their stead and consider Thomson as the author of a long poem in relation to other poets both English and in a transnational study Swedish The poem is furthermore contextualized in terms of sexuality and animal studies Catalogues of Items for Auction by Messrs. Sotheby, Wilkinson & Hodge, 1850-1880 ,1850 **Mating Season** Jon Loomis,2010-04-27 Jon Loomis s sharp and witty debut High Season starring Detective Frank Coffin a onetime Baltimore homicide detective who came back to his hometown after one too many grisly crime scenes started to take their toll was one of The Washington Post s best mysteries of the year and an editor s choice title for The New York Times Book Review Coffin had hoped that the move to Provincetown Massachusetts would put an end to his panic attacks but so far the quirky Cape Cod tourist town has been every bit as brutal as the big city Now in Loomis s winning follow up Coffin has to get a grip in order to investigate the murder of one of the town s most popular women Beautiful and the heir to a tremendous fortune Kenji Sole had an active love life a very active love life When she s found stabbed to death on the floor of her bedroom dressed only in a negligee it s clear someone very close to her is probably responsible Since she didn t care about her many lovers marital status Frank and his partner Officer Lola Winters have their work cut out for them interviewing all of her lovers not to mention their jealous wives to find out who killed the much sought after Ms Sole With Mating Season another wry and wickedly suspenseful mystery Loomis continues to be one of crime fiction s most promising stars **Season of the 76ers** Wayne Lynch,2002-02-21 Featuring exclusive interviews with the coach and the Philadelphia 76ers who rewrote the league s record book in 1966 1967 this is the story of Wilt Chamberlain and one of the greatest seasons in NBA history 16 page photo insert *The Art of Discrimination* Ralph Cohen, **The Seasons ...**

, 1914 **The Killing Season** Robert Cowley, 2025-09-02 An in depth authoritative account of the fall of 1914 on the Western Front and the First Battle of Ypres a true turning point in World War I and in modern warfare by the founding editor of MHQ The Quarterly Journal of Military History A masterful and heartbreaking book If you want to know how modern warfare began The Killing Season is for you Geoffrey C Ward co author of The Civil War The War and The Vietnam War The Marne may have saved Paris and prevented a devastating setback for the Allies but it did not spell eventual defeat for Germany Ypres did The final months of 1914 were the bloodiest interval in a famously bloody war a killing season They ended with the First Battle of Ypres a struggle in West Flanders Belgium whose importance has been too long overlooked until now Robert Cowley s fresh novelistic account of this crucial period describes how German armies in France were poised to sweep north to capture the Channel ports and knock England out of the war and were only held back by a brilliant improvisation from a cobbled together handful of desperate British French and Belgian troops In a re examination of events that have too long seemed set in stone Cowley combines a wide array of source materials with sharp portrayals both of military leaders and of the men they led We follow Albert of Belgium the world s last warrior king French General Ferdinand Foch a former professor of military science and Hendrik Geeraert an alcoholic barge keeper who pulled off Albert s literal last ditch effort Many other memorable characters emerge including Sir John French a British commander who displayed his greatest talent for maneuver in the bedroom along with both a young Adolf Hitler and Winston Churchill The vast brawl of four armies in Flanders was a turning point that irrevocably changed the nature of modern warfare In this visceral account based on thirty years of research and picking up where Barbara Tuchman s The Guns of August left off Cowley details the crucial decisions that determined the outcome of the Great War which may have been decided by a single extraordinary afternoon
