**There's a Double Tongue** Dirk Delabastita, 2021-11-15 The pun is as old as Babel and inveterate punsters like Shakespeare clearly never lacked translators This book critically examines the evergreen cliché that wordplay defies translation replacing it by a theory and a case study that aim to come to grips with the reality of wordplay and its translation What are the possible modes of wordplay translation What are the various sometimes conflicting constraints prompting translators in certain situations to go for one strategy rather than another Ample illustration is provided from *Hamlet* and other Shakespearean texts and several Dutch French and German renderings The study exemplifies how theory can usefully be integrated into a description oriented approach to translation Much of the argument also rests on the definition of wordplay as an open ended and historically variable category The book's concerns range from the linguistic and textual properties of Shakespeare's punning and its translation to matters of historical poetics and ideology Its straightforward approach shows that discourse about wordplay doesn't need to rely on stylistic bravura or abstract speculation The book is concluded by an anthology of the puns in *Hamlet* including a brief semantic analysis of each and a generous selection of diverse translations

**Nothingness, Negativity, and Nominalism in Shakespeare and Petrarch** Benjamin Boysen, 2020-11-09 Being exposed to the Nominalist expansion in early modernity Petrarch and Shakespeare are highly preoccupied with a Nominalist dimension of language and representation Against this background the study shows how these Renaissance poets advanced a special notion of subjectivity and identity as rooted in negativity otherness and representation The book thus argues for a new understanding of negative modes of subjectivity in Petrarch and Shakespeare A new and sharpened understanding emerging from an interpretation of Francesco Petrarch's notion of exile and of love in his great poetical cycle *Rerum vulgarium fragmenta* as well as a meticulous examination of the concept of nothingness in William Shakespeare's works Petrarch and Shakespeare poetically show how identity is alien and decentred yet also free and expanding In other words these poets illustrate how subjectivity is constituted by heterogeneity Moreover pointing to other examples of this negative subjectivity in Renaissance philosophy and poetry the study suggests that these models for subjectivity could be extended to other early modern writers

**Acts and Texts**, 2007-01-01 For the Middle Ages and Renaissance meaning and power were created and propagated through public performance Processions coronations speeches trials and executions are all types of public performance that were both acts and texts acts that originated in the texts that gave them their ideological grounding texts that bring to us today a trace of their actual performance Literature as well was for the pre modern public a type of performance throughout the medieval and early modern periods we see a constant tension and negotiation between the oral aural delivery of the literary work and the eventual silent read reception of its written text The current volume of essays examines the plurality of forms and meanings given to performance in the Middle Ages and Renaissance through discussion of the essential performance text relationship The authors of the essays

represent a variety of scholarly disciplines and subject matter from the performed life of the Dominican preacher to coronation processions to book presentations from satirical music speeches to the rendering of widow portraits to the performance of romance and pious narrative. Diverse in their objects of study, the essays in this volume all examine the links between the actual events of public performance and the textual origins and subsequent representation of those performances.
