Redemptive Dreams Jason S. Sexton, 2023-11-10 An essential piece in California Studies *Redemptive Dreams* Engaging Kevin Starr s California offers the first critical engagement with the vision of California s most ambitious interpreter While Starr s multifaceted and polymathic vision of California offered a unique gaze synthesizing central features big themes and incredible problems with the propitious golden dream his eight volume California Dream series along with several other

books and thousands of published articles and essays often puzzled historians and other scholars. Historians in the contemporary school of critical historiography often found Starr's narrative approach seeking to tell the internal drama of the California story to be less attuned to the most important work happening in the field. Such a perspective fails to acknowledge key developments in historical subfields like Black and African American Studies, Chicana/o Studies, Asian Studies, Native Studies, and others that draw from the narrative in their critical work and how this relates to Starr's contribution. But it also neglects Starr as a theological interpreter. Along with being a major figure in California institutional life with literary output spanning genres from journalism to critical cultural and political commentary to history and memoir, Starr's unique contribution to California Studies as a distinctly Catholic historian has yet to be adequately understood. Through his lived experience as a devout Catholic to the particular theological features of this faith tradition that animated his views, this critical sociological perspective sheds new light on his project. With contributions from sociology, history, and theology akin to investigations appearing in *Theology and California: Theological Refractions on California's Culture* (Routledge), *Redemptive Dreams* offers interdisciplinary perspectives that highlight key features inherent in interdisciplinary theological reflection on place and illuminates these diverse disciplinary discourses as they appear in Starr's articulation of the California Dream. Such a vision remains important for reckoning with California's place in the world.

Ambrose Bierce and the Dance of Death Sharon Talley, 2009-12-15 Ambrose Bierce and the Dance of Death uses psychoanalytic theory in combination with historical cultural and literary contexts to examine the complex motif of death in a full range of Bierce's writings Scholarly interest in Bierce whose work has long been undervalued has grown significantly in recent years This new book contributes to the ongoing reassessment by providing new contexts for joining the texts in his canon in meaningful ways Previous attempts to consider Bierce from a psychological perspective have been superficial often reductive Freudian readings of individual stories such as *An Occurrence at Owl Creek Bridge* and *The Death of Halpin Frayser* This new volume not only updates these interpretations with insights from post Freudian theorists but uses contemporary death theory as a framework to analyze the sources and expressions of Bierce's attitudes about death and dying This approach makes it possible to discern links among texts that resolve some of the still puzzling ambiguities that have until now precluded a fuller understanding of both the man and his writings Lively and engaging *Ambrose Bierce and the Dance of Death* adds valuable new insights not only to the study of

Bierce but to that of nineteenth century American literature in general **McClure's Magazine** ,1913 Cancer Time Bomb: How the BRCA Gene Stole My Tits and Eggs Joelle Burnette,2012-04-03 After finding out she tested positive for the BRCA genetic mutation Cancer Time Bomb is Joelle Burnette s non fiction narrative about her prophylactic journey to becoming a previvor and free from breast and ovarian cancers This powerful story chronicles Joelle s 3 year odyssey as she justifies slicing away healthy parts of her body that have high odds of producing cancer While pressured by surgeons and family to take drastic measures that would remove cancer s potential threat she offers insight into what it feels like to face these significant decisions while not having cancer and knowing there s that miniscule chance the disease may never strike Offering raw honesty she reveals the darker side of choosing TRAM Flap reconstruction after a prophylactic bilateral mastectomy She details the challenging long recovery as she comes to terms with her choices and their impact on her as a daughter woman mother and wife Breast cancer had already impacted or taken the lives of several family members Moreover it was supposed to kill Joelle s sister in 1994 according to the doctors Regardless 32 year old Colette suffered through powerful chemotherapy treatments and a painful bone marrow transplant to beat the odds and become a survivor Thereafter doctors had told the family Colette likely would die if she ever got cancer again When she was diagnosed and survived a second breast cancer more than a decade later Colette s cancer triggered a series of events leading to Joelle s own battle to remain cancer free Colette fought cancer again while the health of these sisters father deteriorated after years of diabetes All the while caring for everyone was Joelle s mother Arlene who played the strongest supportive role Arlene remained by her daughter s side while Joelle carried out the proactive steps to avoid cancer and stay alive for her two young children *The Cosmopolitan* ,1912
