Immigration Thomas Cieslik, David Felsen, Akis Kalaitzidis, 2008-11-30 The uncomfortable contemporary realities of immigration enmeshed as they are in economic human rights and national security issues have once again propelled foreign immigration to the United States toward the top of the list of U S domestic policy concerns Three respected authorities on immigration and international affairs here present a carefully calibrated history of U S immigration in primary source documents tracing the roots of the current debate in the history of our profoundly divided and surprisingly cyclical response to foreign immigration This book documents this national ambivalence identifying the major waves of immigration and clarifying the ways in which the existing social and political fabric conditioned both the response to the newcomers and their prospects of eventual integration into American society Part I introduces the historical record The early days of the Republic when most immigrants arrived from northern Europe The most important wave of immigration to the United States in the country's history over 1880 1920 when most immigrants arrived from Asia or from southern and eastern Europe Virulent post World War I anti immigration sentiment The World War II era absorption of huge numbers of displaced persons fleeing the misery and devastation of Europe Transition from a quota system to a preference system Heightened debate in the 1980s and 1990s The immigration policy repercussions of the terrorist attacks of September 11 2001 Part II takes up special issues in the contemporary immigration debate including the security debate and immigration immigration and the U S judiciary the immigration debate and the economy and the spectrum of public opinion on immigration revealed during the 2008 presidential election campaign The authors demonstrate that today's highly polarized immigration reform debate in many respects recapitulates the antagonisms and chaotic policies of the 1980s and 1990s when Ronald Reagan's Republican administration implemented an amnesty program while the state of California adopted the punitive Proposition 187 Paramount in today's immigration debate however are the homeland security concerns rendered acute by the 2001 bombing of the World Trade Center in New York City The controversial USA PATRIOT Act of 2001 and the Homeland Security Act of 2002 are among the documents surveyed in relation to the contemporary immigration debate

Paper Families Estelle T. Lau, 2006 A look at how the Chinese Exclusion Act and later legislation affected Chinese American communities who created fictitious paper families to subvert immigration policies *Race, Radicalism, Religion, and Restriction* Kristofer Allfeldt, 2003-03-30 In 1924 America passed legislation that effectively outlined which immigrants were to be considered beneficial to the national body and which were not Albert Johnson a Washington State Congressman

sponsored the Act This study examines the role of the Pacific Northwest in the change of national sentiment that led up to this legislation Throughout the period this region experienced massive growth in its immigrant population Its forests and small towns were the scenes of many clashes with the alien radicals resulting in the creation of anti Catholic legislation and the laws against land ownership by the Japanese Analyzing issues of race religion and political radicalism Allerfeldt determines that the region was highly influential in the national debate Most immigration studies of this era focus on the East Coast or on California but Allerfeldt finds that Northwestern politicians and populists responding to regional events as much as national sentiments often set the national immigration agenda Diverse organizations such as the APA the Ku Klux Klan and the IWW gained powerful local support and had significant influence on the region s attitudes towards immigrants Rather than following California s lead in the opposition to Asian immigration the Northwest actually set the path for its southern neighbor in many important aspects
