contexts from the United States of America to Australia and Japan and through several European cities in Italy Portugal Estonia and Greece While some chapters attempt to conceptualize the interconnections between cities and nature others clearly have an empirical focus Efforts such as the use of ornamental helophyte plants in bioretention ponds to reduce and treat stormwater runoff the recovery of a poorly constructed urban waterway or participatory approaches for optimizing the location of green stormwater infrastructure and examining the environmental justice issue of equitable availability and accessibility to public open spaces make these innovations explicit Thus this volume contributes to the sustainable cities goal of the United Nations
