Covenant and World Religions Alon Goshen-Gottstein, 2023-06-06 Finalist for The Rabbi Sacks Book Prize 2023 A new paradigm for relations between religions one of acceptance and collaboration requires not only a willingness to move beyond a tradition of hostility and competition but also significant theological rethinking Within Jewish Orthodoxy there have been very few voices that have advanced and justified a vision of other faiths in this light to this day the reigning paradigm is one of practical collaboration while avoiding theologically based engagement or reflection Two of the most important Orthodox Jewish voices advocating change have been those of Irving Yitz Greenberg and Jonathan Sacks This book presents the theological moral and social views of these two leading rabbis It focuses on the significance of covenant for both and how they adapt this concept to enable the development of a Jewish view of other religions In considering how they may have influenced each other it also studies the limitations and internal contradictions that characterize their work as they attempt to point the way forward in a spirit of dialogue to continuing theological reflection on Judaism's approach to world religions

Empowering Memory and Movement Elisabeth Schüssler Fiorenza, 2014 Empowering Memory and Movement Elisabeth Schüssler Fiorenza completes a three volume look across her influential work and career In Transforming Vision 2011 she drew from a career of pioneering scholarship to offer the contours of a critical feminist hermeneutic The chapters in Changing Horizons 2013 sketched a theory of liberation Now the consequences for a liberating praxis are evident in interviews and essays that look back over personal and movement history look around at challenges and potentialities and look ahead to an emancipatory future the critical engagement with scripture always at the center *The Changing World Religion Map* Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions faiths and practices It discusses a broad range of issues and phenomena that are related to religion including nature ethics secularization gender and identity Broadening the context it studies the interrelation between religion and other fields including education business economics and law The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions Beginning with an introduction of the concept of the changing world religion map the book first focuses on nature ethics and the environment It examines humankind's eternal search for the sacred and discusses the emergence of green religion as a theme that cuts across many faiths Next the book turns to the theme of the pilgrimage illustrated by many examples from all parts of the world In its discussion of the interrelation between religion and education it looks at the role of missionary movements It explains the relationship between religion business economics and law by means of a discussion of legal and moral frameworks and the financial and business issues of religious organizations The next part of the book explores the many new faces that are part of the religious landscape and culture of the Global North Europe Russia Australia and New Zealand the U S and Canada and the Global South Latin America Africa and Asia It does so by looking at specific population movements diasporas and the impact of globalization The volume next turns to secularization as both a phenomenon occurring in the Global religious North and as an emerging and distinguishing feature in the metropolitan cosmopolitan and gateway cities and regions in the Global South The final part of the book explores the changing world of religion in regards to gender and identity issues the political religious nexus and the new worlds associated with the virtual technologies and visual media *One Earth, Many Religions* Paul F. Knitter, 1995 One of the world's foremost exponents of the pluralist position as the most adequate Christian theological account of religious diversity turns to a new and urgent issue facing the community of world religions For Paul Knitter the spectre of environmental and

social injustice looms over any serious discussion of humankind's future. As urgent as it is to have peace among the world's believers to achieve peace among nations, it is urgent that these communities unite in understanding and defending of the earth. In *One Earth Many Religions*, Knitter looks back at his own dialogical odyssey and forward to the way that interfaith encounters and dialogue must focus attention on new challenges. Nothing less than enlisting the commitment of the world's religions on the task of saving our common home will do. In making that case, Knitter makes clear the complex structures—political, economic, and social as well as religious—that face those who approach this task. While articulating a this-worldly soteriology necessary to overcome our eco-human plight, Knitter offers practical considerations on actions and projects that have and should have been undertaken to stem the tide of environmental and human suffering. The global crisis is both at the center of *One Earth Many Religions* and a test case for Knitter and others engaged in the dialogue of religions. Can religious differences concerning the nature of the transcendent themselves be transcended in order to promote eco-human well-being? The issue seems basic and clear: if interreligious dialogue cannot effect such a change, then one must question whether religion is of any use whatsoever.

What Men Owe to Women John C. Raines, Daniel C. Maguire, 2001-01-04 Men from a wide range of traditions discuss gender justice in world religions. *The Ends of Philosophy of Religion* T. Knepper, 2013-08-20 Knepper criticizes existing efforts in the philosophy of religion for being out of step with and therefore useless to the academic study of religion, then forwards a new program for philosophy of religion that is in step with and therefore useful to the academic study of religion.

Confucianism and Christianity Xinzhong Yao, 1996-06-01 This volume details the inherent problems in the search for effective ways to enable different religious systems to co-exist peacefully in mutual complementarity. This has emerged as a necessary condition for economic development, social progress, human prosperity, and even survival.

Interreligious Heroes Alon Goshen-Gottstein, 2021-10-04 Over forty premier world religious and scholars of all major faith traditions were asked the following: Who is a figure who inspires your interfaith work? How does this figure inspire you, and what lessons, applications, and concrete expressions has this inspiration taken in your life? The result is a stunning overview of the interfaith movement, its history, role, models, and heroes. Historical presentation complements the personal and experiential voice of the authors, making this not only a work for interfaith education but also a resource for spiritual inspiration.

Judaism for the World Arthur Green, 2020-09-22 An internationally recognized scholar and theologian shares a Jewish mysticism for our times. Judaism, one of the world's great spiritual traditions, is not addressed to Jews alone. In this masterful book, Arthur Green calls out to seekers of all sorts, offering a universal response to the eternal human questions of who we are, why we exist, where we are going, and how to live. Drawing on over half a century as a Jewish seeker and teacher, he shows us a Judaism that cultivates the life of the spirit that inspires an inward journey leading precisely toward self-transcendence to an awareness of the universal Self in whose presence we exist. As a neo-Hasidic seeker, he is both devotional and boldly questioning in his understanding of God and tradition. Engaging with the mystical sources, he

translates the insights of the Hasidic masters into a new religious language accessible to all those eager to build an inner life and a human society that treasures the divine spark in each person and throughout Creation **End of Days** Galadriel Graham, AI, 2025-02-14 End of Days explores the fascinating world of apocalyptic prophecies across major religions revealing shared visions of the end times From Christianity's Book of Revelation to Islam's Day of Judgment Hinduism's Yugas and Norse mythology's Ragnarok the book examines how these narratives shape individual behavior and influence societies It highlights intriguing facts such as the parallel between Ragnarok's destruction and rebirth and similar themes in other traditions without adding new concepts This book offers a unique comparative analysis presenting diverse eschatological landscapes within a single volume It provides the necessary historical and theological context to understand complex prophetic language making it accessible to a broad audience Beginning with an introduction to prophecy and eschatology each chapter explores the specific prophecies of various religions culminating in a comparative analysis of common themes and their psychological and social impacts The book distinguishes itself by revealing both the unique aspects of each tradition and the shared human concerns that underpin them such as justice morality and the ultimate fate of the world

Global Ayahuasca Alex K. Gearin, 2024-08-06 Surveying contemporary networks and practices in Peru Australia and China anthropologist Alex K Gearin explores the visionary marvels wonders and diversity of ayahuasca drinking today Ceremonies of drinking the psychoactive brew ayahuasca have flourished across the planet in recent decades Emerging from Indigenous roots in the Amazon rainforest the brew is now envisaged by many as the spiritual gateway to archaic and primordial worlds with reports of healing spiritual insight and awe inspiring visions placing ayahuasca among the burgeoning field of psychedelic medicines Astonished and allured by descriptions of ayahuasca experiences researchers in psychology anthropology and philosophy have attempted to define the shared properties of the visions In this book Alex Gearin challenges this simplified obsession with universal truth and explores the embodied practices of contemporary ayahuasca drinkers to reveal how the brew has conjured contradictory experiences across the globe These range from urban disenchantment and capitalist mastery to competitive sorcery and ecological harmony wherein the plant induced visions embody different attitudes towards capitalist modernity Based upon ethnographic research among Shipibo healers in remote Peru alternative medicine groups in urban Australia and entrepreneurs and corporate managers in mainland China Global Ayahuasca examines how the wondrous visions of ayahuasca are entangled within the social and economic realities that they illuminate revealing different tensions fears and hopes of everyday modern life Style as Argument Chris Anderson, 1987 Taking the position that style has a value in its own right that language forms a major component of the story a nonfiction writer has to tell Anderson analyzes the work of America's foremost practitioners of New Journalism Tom Wolfe Truman Capote Norman Mailer and Joan Didion Anderson does for nonfiction what insightful critics have long been doing for fiction and poetry His approach is rhetorical and his message is that the rhetoric of Wolfe Capote Mailer and Didion is a direct

response to the problem of trying to convey to a general audience the sublime inexplicable or private and intuitive experiences that conventional rhetoric cannot evoke The emphasis in this book is on style not genre and the analysis characterizes the distinctive styles of four American writers showing how the richness and complexity of their prose discloses an important argument about the value of language itself Their prose is complex nuanced layered affecting always aware of itself as style This self consciousness Anderson contends prepares the reader to regard style as argument a tacit but powerful statement about the value of form as form style as style *The World's Religions after September 11* Arvind

Sharma,2008-11-30 This set is an unprecedented examination of religion s influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Convening on the fifth anniversary of the terrorist attack on the World Trade Center the global congress *The World s Religions after September 11* explored the negative and positive possibilities of the religious dimensions of life The presentations from the congress have been pulled together in this set which addresses religion s intersection with human rights spirituality science healing the media international diplomacy globalization war and peace and more This comprehensive set includes contributions from such well known scholars of religion as Arvind Sharma and a host of others from all the world s religious traditions This set is an unprecedented examination of religion s influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Because of the attack on the World Trade Center on September 11 2001 the very concept of religion underwent a paradigm shift Instead of standing for virtue and piety peace and harmony the word religion also came to be inextricably associated with evil aggression and terror People around the world began to question whether the religious and secular dimensions of modern life can be reconciled whether the different religions of the world can ever coexist in harmony Indeed the very future of religion itself has sometimes seemed to be uncertain or at least suspect *Inventing Catholic Tradition* Terrence W. Tilley,2011-06-07 This creative

argument that traditions are neither found nor made but are invented and reinvented in practice is carried out in dialogue with scholars such as Yves Congar and George Lindbeck Tilley examines the actual practices as the bearers of tradition and argues that vibrant and meaningful traditions must be reinvented or reconstructed in every generation He demonstrates how deliberately invented or imposed traditions are often resisted Tilley applies his analysis to the Catholic Intellectual Tradition and in the last chapter shows how truth revelation and authority can be accommodated by a constructivist practical theology of tradition **Flourishing** Miroslav Volf,Tony Blair,2016-01-12 More than almost anything else globalization and the great world religions are shaping our lives affecting everything from the public policies of political leaders and the economic decisions of industry bosses and employees to university curricula all the way to the inner longings of our hearts Integral to both globalization and religions are compelling overlapping and sometimes competing visions of what it means to live well In

this perceptive deeply personal and beautifully written book a leading theologian sheds light on how religions and globalization have historically interacted and argues for what their relationship ought to be Recounting how these twinned forces have intersected in his own life he shows how world religions despite their malfunctions remain one of our most potent sources of moral motivation and contain within them profoundly evocative accounts of human flourishing Globalization should be judged by how well it serves us for living out our authentic humanity as envisioned within these traditions Through renewal and reform religions might in turn shape globalization so that can be about more than bread alone
