

Sharp End

Sharp End Of War

Lisa Sheryl Jacobson

Sharp End Of War:

The Sharp End of War John Ellis, 1980 De Allierede H re Fronttjeneste soldaterliv **The Nature of War in the Information Age** David J. Lonsdale, 2004-06 Much of today's Revolution in Military Affairs RMA literature subscribes to the idea that the information age will witness a transformation in the very nature of war In this book David Lonsdale puts that notion to the test **Canada's Great War, 1914-1918** Brian Douglas Tennyson, 2014-11-25 Canada's Great War 1914 1918 How Canada Helped Save the British Empire and Became a North American Nation describes the major role that Canada played in helping the British Empire win the greatest war in history and somewhat surprisingly resulted in Canada's closer integration not with the British Empire but with its continental neighbor the United States When Britain declared war against Germany and Austria Hungary in August 1914 Canada was automatically committed as well because of its status as a Dominion in the British Empire Despite not having a say in the matter most Canadians enthusiastically embraced the war effort in order to defend the Empire and its values In Canada's Great War 1914 1918 historian Brian Douglas Tennyson argues that Canada's participation in the war weakened its relationship with Britain by stimulating a greater sense of Canadian identity while at the same time bringing it much closer to the United States especially after the latter entered the war Their wartime cooperation strengthened their relationship which had been delicate and often strained in the nineteenth century This was reflected in the greater integration of their economies and the greater acceptance in Canada of American cultural products such as books magazines radio broadcasting and movies and was symbolized by the astonishing American response to the Halifax explosion in December 1917 By the end of the war Canadians were emerging as a North American people no longer fearing close ties to the United States even as they maintained their ties to the British Commonwealth Canada's Great War 1914 1918 will interest not only Canadians unaware of how greatly their nation's participation in the First World War reshaped its relationship with Britain and the United States but also Americans unacquainted with the magnitude of Canada's involvement in the war and how that contribution drew the two nations closer together **Taste of War** Lizzie Collingham, 2012-03-29 A New York Times Notable Book of 2012 Food and in particular the lack of it was central to the experience of World War II In this richly detailed and engaging history Lizzie Collingham establishes how control of food and its production is crucial to total war How were the imperial ambitions of Germany and Japan ambitions which sowed the seeds of war informed by a desire for self sufficiency in food production How was the outcome of the war affected by the decisions that the Allies and the Axis took over how to feed their troops And how did the distinctive ideologies of the different combatant countries determine their attitudes towards those they had to feed Tracing the interaction between food and strategy on both the military and home fronts this gripping original account demonstrates how the issue of access to food was a driving force within Nazi policy and contributed to the decision to murder hundreds of thousands of useless eaters in Europe Focusing on both the winners and losers in the battle for food The Taste of War brings to light the striking fact that

war related hunger and famine was not only caused by Nazi Germany and Imperial Japan but was also the result of Allied mismanagement and neglect particularly in India Africa and China American dominance both during and after the war was not only a result of the United States immense industrial production but also of its abundance of food This book traces the establishment of a global pattern of food production and distribution and shows how the war subsequently promoted the pervasive influence of American food habits and tastes in the post war world A work of great scope *The Taste of War* connects the broad sweep of history to its intimate impact upon the lives of individuals

Military Adaptation In War: With Fear Of Change Professor Williamson Murray, 2015-11-06 *Military Adaptation in War* addresses one of the most persistent problems that military organizations confront namely the problem of how to adapt under the trying terrifying conditions of war This work builds on the volume that Professor Williamson Murray edited with Allan Millett on military innovation a quite different issue though similar in some respects In Clausewitzian terms war is a contest an interactive duel which is of indeterminate length and presents a series of intractable problems at every level from policy and strategy down to the tactical Moreover the fact that the enemy is adapting at the same time presents military organizations with an ever changing set of conundrums that offer up no easy solutions As the British general James Wolfe suggested before Quebec War is an option of difficulties Dr Murray provides an in depth analysis of the problems that military forces confront in adapting to these difficulties

The Cost of War Professor Stephen Garton, 2020-04-01 War has shaped Australian society profoundly When we commemorate the sacrifices of the Anzacs we rightly celebrate their bravery but we do not always acknowledge the complex aftermath of combat In *The Cost of War* Stephen Garton traces the experiences of Australia's veterans and asks what we can learn from their stories He considers the long term effects of war on returned servicemen and women on their families and communities and on Australian public life He describes attempts to respond to the physical and psychological wounds of combat from the first victims of shellshock during WWI to more recent understandings of post traumatic stress disorder And he examines the political and social repercussions of war including debates over how we should commemorate conflict and how society should respond to the needs of veterans When the first edition of *The Cost of War* appeared in 1996 it offered a ground breaking new perspective on the Anzac experience In this new edition Garton again makes a compelling case for a more nuanced understanding of the individual and collective costs of war

The Embattled General William F. Stewart, 2015-11-01 Lieutenant General Sir Richard Turner 1871-1961 was a capable but controversial Canadian general who played a critical role in the development of the Canadian Corps up to 1917 and contributed significantly to its success thereafter Despite his many accomplishments including being awarded the Victoria Cross Turner is often portrayed as a political appointee and repeated failure representations that ignore minimize or misconstrue his successes as a combat commander and head of Canadian forces in England In *The Embattled General* William Stewart reveals Turner's tactical operational and administrative contributions to the Canadian war effort Uniquely Turner held senior commands in both

combat arms and administration Stewart narrates and analyzes Turner's successes and failures in the Boer War and the First World War's battles of Ypres, Festubert, St. Eloi, and the Somme. He also studies Turner's career after his transfer to command Canadian forces in England in December 1916 where Turner reformed an administration in chaos. After the war, Turner post-war played a key role in the formation of the Royal Canadian Legion. Based on exhaustive research from over 1,200 volumes of material including many previously untouched sources, *The Embattled General* provides a balanced and just re-evaluation of Turner, identifying his merits as well as his flaws. **Ivan's War** Catherine Merridale, 2006 Drawing on previously closed archives, interviews with veterans, and private letters and diaries, Merridale presents the first comprehensive history of the Red Army rank and file. *Parameters*, 1981 *The War Beat, Pacific* Steven Casey, 2021-04-05 The *War Beat Pacific* is the first book to use a wealth of previously untapped documents to provide a comprehensive account of the reporting of the war against Japan from Pearl Harbor and Bataan through Midway and Guadalcanal, Tarawa, and Saipan, Leyte, and Luzon, Iwo Jima, and Okinawa to Hiroshima and Nagasaki. *In the Shadow of War* Michael S. Sherry, 1995-01-01 Prize-winning historian Michael S. Sherry shows how war has defined modern America and argues that militarization has reshaped every facet of American life: its politics, economics, culture, social relations, and place in the world. 17 illustrations. **A Companion to World War I** John Horne, 2012-01-30 A Companion to the First World War brings together an international team of distinguished historians who provide a series of original and thought-provoking essays on one of the most devastating events in modern history. Comprises 38 essays by leading scholars who analyze the current state of historical scholarship on the First World War. Provides extensive coverage spanning the pre-war period, the military conflict, social, economic, political, and cultural developments, and the war's legacy. Offers original perspectives on themes as diverse as strategy and tactics, war crimes, science and technology, and the arts. Selected as a 2011 Outstanding Academic Title by CHOICE. **Intoxicating Pleasures** Lisa Sheryl Jacobson, 2024 In popular memory, the repeal of US Prohibition in 1933 signaled alcohol's decisive triumph in a decades-long culture war. But as Lisa Jacobson reveals, alcohol's respectability and mass-market success were neither sudden nor assured. It took a world war and a battalion of public relations experts and tastemakers to transform wine, beer, and whiskey into emblems of the American good life. Alcohol producers and their allies, a group that included scientists, trade associations, restaurateurs, home economists, cookbook authors, and New Deal planners, powered a publicity machine that linked alcohol to wartime food crusades and new ideas about the place of pleasure in modern American life. In this deeply researched and engagingly written book, Jacobson shows how the yearnings of ordinary consumers and military personnel shaped alcohol's cultural reinvention and put intoxicating pleasures at the center of broader debates about the rights and obligations of citizens. **The Canadian Experience of the Great War** Brian Douglas Tennyson, 2013-05-01 Although the United States did not enter the First World War until April 1917, Canada enlisted the moment Great Britain engaged in the conflict in August 1914. The Canadian contribution was great, as more than 600,000 men and women served in

the war effort 400 000 of them overseas out of a population of 8 million More than 150 000 were wounded and nearly 67 000 gave their lives The war was a pivotal turning point in the history of the modern world and its mindless slaughter shattered a generation and destroyed seemingly secure values The literature that the First World War generated and continues to generate so many years later is enormous and addresses a multitude of cultural and social matters in the history of Canada and the war itself Although many scholars have brilliantly analyzed the literature of the war little has been done to catalog the writings of ordinary participants men and women who served in the war and wrote about it but are not included among well known poets novelists and memoirists Indeed we don't even know how many titles these people published nor do we know how many more titles were added later by relatives who considered the recollections or collected letters worthy of publication Brian Douglas Tennyson's *The Canadian Experience of the Great War A Guide to Memoirs* is the first attempt to identify all of the published accounts of First World War experiences by Canadian veterans **Military in America** Peter M. Karsten, 1986-08-27 In *The American Military Tradition* historians John M Carroll and Colin F Baxter gather an esteemed group of military historians to explore the pivotal issues and themes in American warfare from the Colonial era to the present conflict in Iraq From the reliance on militia and the Minutemen of the American Revolution to the all volunteer specialized troops of today these twelve essays analyze the continuities and changes in the conduct of war over the past three centuries In this completely revised second edition new essays explore Napoleonic warfare the American Civil War the Plains Wars in the West the War against Japan the nuclear arms race and the War on Terror The book while not avoiding the nature of battle goes beyond tactics and strategy to include the enormous social and political impact of America's wars *The Veterans' Tale* Frances Houghton, 2019-01-10 This is a unique account of the ways in which British veterans of the Second World War remembered understood and recounted their experiences of battle throughout the post war period Focusing on themes of landscape weaponry the enemy and comradeship Frances Houghton examines the imagery and language used by war memoirists to reconstruct and review both their experiences of battle and their sense of wartime self Houghton also identifies how veterans memoirs became significant sites of contest as former servicemen sought to challenge what they saw as unsatisfactory official scholarly and cultural representations of the Second World War in Britain Her findings show that these memoirs are equally important both for the new light they shed on the memory and meanings of wartime military experience among British veterans and for what they tell us about the cultural identity of military life writing in post war British society **Arms And Judgment** Sheldon M. Cohen, 2019-03-04 This book examines the justifications of the use of armed force and their limits as well as the law of war It is a moral enquiry and adopts an interdisciplinary approach The divergence between legality and morality and its significance is one of the underlying themes of the book *The War* Geoffrey C. Ward, Ken Burns, 2020-02-04 The vivid voices that speak from these pages are not those of historians or scholars They are the voices of ordinary men and women who experienced and helped to win the most devastating war in history in

which between 50 and 60 million lives were lost Focusing on the citizens of four towns Luverne Minnesota Sacramento California Waterbury Connecticut Mobile Alabama The War follows more than forty people from 1941 to 1945 Woven largely from their memories the compelling unflinching narrative unfolds month by bloody month with the outcome always in doubt All the iconic events are here from Pearl Harbor to the liberation of the concentration camps but we also move among prisoners of war and Japanese American internees defense workers and schoolchildren and families who struggled simply to stay together while their men were shipped off to Europe the Pacific and North Africa Enriched by maps and hundreds of photographs including many never published before this is an intimate profoundly affecting chronicle of the war that shaped our world From the Hardcover edition **Public Schools and the Second World War** David Walsh,Anthony Seldon,2020-09-30 A historical analysis of the contribution of Great Britain s public schools to the conduct of World War II Following their ground breaking book on Public Schools and the Great War David Walsh and Anthony Seldon now examine how those same schools fared in the Second World War They use eye witness testimony to recount stories of resilience and improvisation in 1940 as the likelihood of invasion and the terrors of the Blitz threatened the very survival of public schools They also assess the giant impact that public school alumni contributed to every aspect of the war effort The authors examine how the People s War brought social cohesion with the opportunity to end public school exclusiveness to the fore encouraged by Winston Churchill among others That opportunity was ironically squandered by the otherwise radical Clement Attlee s post war Labour government prolonging the public school problem right through to the present day The public schools shaped twentieth century history profoundly never more so than in the conduct of both its world wars The impact of the schools on both wars was very different as were the legacies Drawing widely on primary source material and personal accounts of inspiring courage and endurance this book is full of profound historical reflection and is essential reading for all who want to understand the history of modern Britain Indigenous Peoples and the Second World War R. Scott Sheffield,Noah Riseman,2019 A transnational history of how Indigenous peoples mobilised en masse to support the war effort on the battlefields and the home fronts

Unveiling the Energy of Verbal Beauty: An Mental Sojourn through **Sharp End Of War**

In a world inundated with displays and the cacophony of quick communication, the profound power and mental resonance of verbal art frequently fade in to obscurity, eclipsed by the continuous assault of sound and distractions. Yet, situated within the lyrical pages of **Sharp End Of War**, a interesting perform of literary elegance that impulses with organic feelings, lies an remarkable trip waiting to be embarked upon. Published by a virtuoso wordsmith, that exciting opus manuals readers on a psychological odyssey, delicately revealing the latent potential and profound impact stuck within the delicate web of language. Within the heart-wrenching expanse of the evocative evaluation, we shall embark upon an introspective exploration of the book is key styles, dissect its fascinating publishing design, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
