## **Magic White And Black The Science Of Finite And Infinite Life:**

**Magic** Franz Hartmann, 2010-09 Thank you for checking out this book by Theophania Publishing We appreciate your business and look forward to serving you soon We have thousands of titles available and we invite you to search for us by name contact us via our website or download our most recent catalogues This book was originally written for the purpose of disenchanting certain credulous inquirers who fancied that the exercise of spiritual powers could be taught by teaching them certain incantations and formulas It was to prove that spiritual powers must be developed before they can be exercised and to explain the conditions necessary for their development Since the appearance of the previous edition a little additional knowledge gained by the experiences of my own inner life has enabled me to make certain corrections to sift out much of what was irrelevant and to remodel a great deal of what was incorrectly expressed Moreover in this edition an attempt has been made to answer the numerous questions which have been addressed to me by the readers of Magic The most serious objection which has been made against this book has been on account of its title but the causes which induced me to select such a title were suggested by the purpose for which the book was intended nor would I at present be able to find one more appropriate for it for Magic means that divine art or exercise of spiritual power by which the awakened spirit in man controls the invisible living elements in the soul substance of the universe but above all those in his own soul which are the ones nearest to him

*Infinite Life* Franz Hartmann M. D., 2019-02-10 From Magic White and Black The only true religion is the religion of Love and Love does not quarrel If you wish to progress on the road to perfection take lessons in Love There is nothing higher than Man obtaining a perfect knowledge of Self The beginning of all real knowledge is the knowledge of Self The renunciation of self is necessarily followed by spiritual growth The true religion of universal Love knows of no self The greatest of all illusions is the illusion of self Man s only true friend and redeemer is the God he carries within himself Belief in external gods strengthens the illusions of self God is good or evil according to the conditions under which he acts for if God did not include evil as well as good he would not be universal Nothing is permanent but the real ideal the Truth To know Truth in its fullness is to become alive and immortal The highest state of spiritual consciousness is the full and complete realization of Divine Truth Thought is the creative power in the universe Thought is the great power by which forms are called into existence Concentration of thought gives shape to ideas and condenses the formless into forms To give pure and perfect expression to thought is White Magic The knowledge of God and the knowledge of Man are ultimately identical He who knows himself knows God To learn to know God means to learn to know your own Divine Self All during his life man creates the condition wherein he will live in the hereafter Physical death is no gain It cannot give us that which we do not already possess We should enter the higher life now instead of waiting for it to come to us in the hereafter
