History of Management Accounting Trevor Boyns, J. R. Edwards, 2013 There is growing interest in the history of accounting amongst both accounting practitioners and accounting academics This interest developed steadily from about 1970 and really took off in the 1990s However there is a lack of texts dealing with major aspects of accounting history that can be used in classrooms to inform new researchers and to provide a source of reference for established researchers The great deal of research into cost and management accounting in Britain published in academic journals over the last twenty years including the authors own contributions makes *The History of Cost and Management Accounting* an essential contribution to the field

Handbook of Management Accounting Research Christopher S. Chapman, Anthony G. Hopwood, Michael D. Shields, 2011-09-14 Volume two of the *Handbooks of Management Accounting Research* consists of two groups of chapters The first draw together research that has focussed on particular management accounting practices The second set synthesise contributions to the literature that have been focussed within particular organisational contexts Volume two concludes with a review of research on how management accounting practice and research varies around the world Special pricing available if purchased as a set with Volume 1 Documents the scholarly management accounting literature Publishing both in print and online through Science Direct International in scope **Management Accountants**

Methodological issues in accounting research Zahirul Hoque,2018-03-26 What is my theory How do I choose a theory Why and how should I employ a particular method for collecting the empirical data These basic questions concern everyone involved in research A research study can be a voyage of discovering or choice of theoretical perspective as well as gathering empirics or facts on a problem or situation This book provides a good guideline as to why and how to choose a particular theory or method to study

an organisational phenomenon such as accounting All the chapters provide both retrospective and contemporary views by scholars in the field Each chapter documents the latest developments and research in accounting and control systems and provides valuable insights into methodological perspectives in accounting research This second edition has also introduced a number of new chapters covering strategy management control as practice grounded theory approach institutional logic and rhetoric social interaction theory actor network theory and practice theory The book is primarily intended for research students and academic researchers It can also be used for undergraduate Honours course as well as postgraduate accounting and business methodology courses Research organisations and consulting firms in accounting and business fields may also find this book useful The principal aims of this second edition are 1 to update the chapters previously published in 2006 and 2 to introduce new chapters documenting recent developments in accounting research

Accounting, Accountability and Crisis Management Ericka Costa, Massimo Contrafatto, Lee Parker, 2024-08-01 Conventional economic and accounting systems have been exposed by the limitations of market driven mechanisms where public services education and healthcare have been subordinated to profit exacerbating the inequalities between people and countries Italy was one of the earliest countries to be affected by the COVID 19 pandemic and also one of the hardest hit The successes and failures of the Italian response provides a blueprint for the factors determining the ability of institutions to meet these challenges This book presents a multifaceted analysis and reflection of the challenges that various types of organisations public private and non profit have had to face during the pandemic It contributes to the creation of robust strategies for institutions worldwide to be able to respond promptly and equitably to future emergencies and offers insights for developing policy and practice with respect to global leaders accountability for and management of exceptional events It addresses three main subjects extraordinary events and their challenges for business and organisations the nature and roles of interdisciplinary accounting and accountability in a pandemic environment and how the global pandemic is impacting accounting and accountability in diverse contexts such as public services healthcare education and NGOs With a focus on institutional approaches to establishing maintaining and discharging accountability throughout the pandemic the insights of this book are invaluable to both students and practitioners seeking to bolster institutional resilience in an increasingly uncertain world Both management and accounting communities can learn from this extraordinary global event to promote the process of transforming how business and societies operate

Responding to Uncertain Conditions Torben Juul Andersen, 2023-03-14 The global business environment is highly uncertain fractured by unforeseen events and making decisions that deal with a largely unknown future organizations must improve their ability to respond This volume of articles presents a new set of studies that attempt to better understand and address this very need

A New Approach to Management Accounting History (RLE Accounting) H. Johnson, 2013-11-26 The articles and papers reprinted in this volume all written after 1970 represent a departure from the earlier conventional notion of accounting history research They approach the study of

management accounting history by regarding the accounting and business records of actual organizations as indispensable source materials for historical analysis Analysis of these records has yielded a new conception of management accounting These studies suggest that the forces contributing to management accounting's development are more numerous and complex than historians had realized The case studies in the first part of the book trace the historical development of virtually all the internal accounting practices associated today with management accounting Those in the second section consist of articles which interpret the case material

Strategic Management Accounting in a Network Economy Wingsun Li, 2023-08-26 This book continues from author's first SMA publication in 2018 also by Springer and discusses the new roles of SMA in the new network economy Emerging digital technologies have revolutionized the business world with groundbreaking rules and innovative business models New knowledge and information technologies have inspired new business ideas and created more information platforms at a lower cost yet highly efficient in the market The new business transformation also encourages more inter organizational cooperation to cope with rapid changes All these novelties add challenges to corporate individuals in managing businesses beyond their organizations in particular financial professionals e.g. CFO who are experts in the team Therefore SMA is assigned a new role in the new network economy Similarly SMA calls for major updates and revisions This urges author to write this book to meet the new demand The author has selected important topics that are particularly pertinent to the new Internet economy These topics include how to make decisions under business uncertainty how to value businesses in general Internet stocks and intangible assets in particular Business collaboration and integration are usual means to acquire synergy value How does SMA help deliver the best results How are business models and information platforms built as sense making revenue models even though these platforms never charge for services How is market power and brand value measured How does trust supplement control in new network organizations Finally how is value created captured and allocated in a fair manner The book goes through detailed examinations of each topic with cases examples and illustrations as required

Guide to Strategic Management Accounting for managers Shigeaki Takai, 2021-06-21 Management accounting that creates change resilience and enhances financial strength and profitability It has been one year and three months since WHO recognized the new coronavirus as a pandemic on March 11 2020 The infection of the new coronavirus has spread all over the world and the social and economic conditions of the globalized world have been severely damaged and its vulnerabilities have been highlighted Deterioration of break even point due to decrease in sales Expanding the gap between management and on site awareness due to the impact of the COVID 19 Increasing number of internal frauds fraudulent accounting of overseas subsidiaries and inadequate internal control Roadmap goal setting and concrete measures for the realization of a carbon free society Under these circumstances what is most needed is the ability to respond to change by making use of hypotheses and verifications in addition to the wisdom accumulated in the past such as failure experiences and success experiences In order to build a corporate structure

that responds to change it is necessary to manage change points by narrowing the pitch rather than managing goals To that end it is urgent to align the common operation cycle weekly chain conventional management indicators financial indicators and non financial indicators and manage the cockpit with the idea of the Balanced Scorecard As an inventory centric management consultant I advocate management accounting that can be used as an immediate force by connecting the management team and the field In particular as an evangelist of CCC cash conversion cycle and IFC inventory freshness management based on the latest case studies of more than 100 Japanese American and European companies we explain to executives business managers practitioners and students in an easy to understand manner in this book In addition to the decarbonized society this book also mentions food issues marine plastic issues and clothing disposal issues as non financial information Table of contents Chapter 1 Management Accounting and Corporate value creation index 1 Management Accounting and Financial Accounting 2 Fixed costs Variable costs and Break even point management 3 Corporate value management indicators especially ROE ROIC and case studies Chapter 2 Working capital and Cash Conversion Cycle CCC 1 Positioning of CCC 2 CCC comparison between Japan and U S and case studies 3 Inventory turnover days as key SCM management indicator 4 Change responsive company under COVID 19 Chapter 3 The relation between Inventory and finance 1 What is inventory management 2 Inventory from financial perspectives Profit and Loss statement and Inventory Balance sheet statement and Inventory Cash Flow statement and Inventory 3 Stock out rate Appropriate inventory level and Inventory evaluation Chapter 4 Non Financial Information 1 ESG and SDGs 2 Food problem Ocean plastic problem 3 Paris Agreement greenhouse gas emissions 4 Decarbonized society World trends and the position of the Japanese government 5 International organizations related to the environment TCFD SBT Initiative RE100 Chapter 5 Reduction of accounting fraud risks 1 Increasing accounting fraud risks and countermeasures 2 Fraud triangle opportunity motivation justification 3 Kanebo s accounting fraud and Toshiba s accounting fraud 4 Accounting fraud of overseas subsidiaries 5 Prevention measures for accounting fraud Chapter 6 Effective Measures 1 PSI production sales and inventory management 2 Freshness management of inventory and cash inventory accounts receivable accounts payable 3 Inventory dollar control and Inventory unit control 4 Weekly operation cycle 5 Measures to improve CCC 6 Physical inventory event involving management staffs 7 Inventory diagnosis clinic 8 Chain of visualization of management and visualization of autonomy Chapter 7 Effective management methods 1 Kyocera s Amoeba Management 2 IDC Inventory Driven Costs and RONA Return on net assets management 3 Balanced scorecard 4 Six Sigma method 5 ABC analysis activity based costing and ABM activity based cost management 6 Effective IT solution and promotion system Chapter 8 Key issues in Japanese commercial practices and accounting system 1 Month end closing and next month end payment 2 Monthly accounting system Corporate Carbon and Climate Accounting Stefan Schaltegger,Dimitar Zvezdov,Igor Alvarez Etxeberrria,Maria Csutora,Edeltraud Günther,2016-01-21 This volume is devoted to management accounting approaches for analyzing business benefits and costs of climate change It discusses

future directions on carbon accounting performance measurement and reporting as well as links between climate accounting and business processes product and service development supply chain innovation economic successes and stakeholder relations Companies are increasingly called on to contribute to combatting climate change and also face the challenges presented by climate change related costs risks and benefits Risks can result from unpredictable weather conditions and government regulations such as the EU emission trading system and new building codes Climate change also offers numerous opportunities such as energy efficiency innovations and carbon neutral products and production Good management requires that carbon emissions are tracked and climate related costs risks and benefits are identified measured and assessed As such research addressing corporate accounting frameworks and tools is of increasing importance when it comes to managing these carbon and climate related issues
