Metropolis Now Urban Cultures In Our Global Cities:

Metropolis Now! Ramesh Kumar Biswas, 2000 This critical interdisciplinary look at life in metropolitan centers portrays seventeen cities on four different continents Contributors analyze both their economic and social realities as well as their identity recent history and immediate future and the radical transformation in their physical forms The Cambridge Companion to the Literature of London Lawrence Manley, 2011-08-18 This book offers a variety of approaches to the topic of London in English literature from the Middle Ages to the present *Cities And Urban Cultures* Stevenson, Deborah, 2003-04-01 Explores cities and urban life from the perspectives of both sociology and cultural theory Through an interdisciplinary approach the book demonstrates that the real city of physicality and struggle and the imagined city of representations are entwined in the construction of urban cultures **The Creative Capital of Cities** Stefan Krätke, 2012-05-03 This book challenges the new urban growth concepts of the creative class and creative industries from a critical urban theory perspective Critiques Richard Florida's popular books about cities and the creative class Presents an alternative approach based on analyses of empirical research data concerning the German urban system and the case study regions Hanover and Berlin Underscores that the culture industry takes a leading role in conforming with neoliberal conceptions of labor markets **Mega-event Cities: Urban Legacies of Global Sports Events** Valerie Viehoff, Gavin Poynter, 2016-03-02 Mega events represent an important moment in the life of a city providing a useful lens through which we may analyse their cultural social political and economic development In the wake of the International Olympic Committee's IOC's concerns about gigantism and wider public concerns about rising costs it was imperative in the C21st to demonstrate the long term benefits that arose for the city and nations from hosting premier sporting events London 2012 was the first to integrate the concept of legacy from the moment a bid to host the Olympic and Paralympic Games was being considered London proposed an ambitious programme of urban renewal for East London Subsequent host city bids have adopted the legacy narrative and as this book demonstrates aligned this to major schemes of urban development and renewal Bringing together scholars practitioners and policy makers this book focuses upon the legacies sought by cities that host major sports events It analyses how governments the IOC and others define and measure legacy It also focuses upon the challenges and opportunities facing future host cities of mega events looking at their aspirations and the intended impact upon their domestic and international development It questions what the global shift in geographical location of mega events means for sports development and the business of sport what the attractions are for cities seeking to harness the hosting of a mega event and whether there may be longer term consequences for the bidding and hosting major sporting events in the wake of the widespread social unrest that accompanied the preparations in Brazil for hosting the FIFA World Cup 2014 and the summer Olympics 2016 and in Turkey where there was significant opposition to bid for the 2020 summer Olympiad

Kyrgyzstan beyond "Democracy Island" and "Failing State" Johan Engvall, Marlene Laruelle, 2015-12-03 Kyrgyzstan

is probably the best known of any central Asian country the one that has elicited the most academic publications reports by NGOs or advocacy groups and op eds in the media The country opened up massively to Western influence through development aid for civil society and for economic reforms faced two revolutions in 2005 and 2010 and experienced bloody interethnic conflict in 2010 Kyrgyzstan is therefore commonly studied as a twin case that of having been for more than two decades both an island of democracy in Central Asia and the only country of the region to have made the transition to a parliamentary regime and the archetypical example of a failing state one marked by endemic corruption criminalization of the state apparatus and collapse of public services This volume goes beyond these two clichés and provides a research based and unideological narrative on the country It identifies political dynamics their powerbrokers and the role of international organizations investigates the profound social transformations of both the rural and the urban worlds and examines the broad feeling by local actors that Kyrgyzstan's fragile state identity should be consolidated This book gives the floor to the new generation of scholars whose long term vernacular language field research made it possible to provide new interpretative prisms for the complex evolution of Kyrgyzstan *The Making of Hong Kong* Barrie Shelton, Justyna Karakiewicz, Thomas Kvan, 2013-03-01 This book investigates what the history of Hong Kong's urban development has to teach other cities as they face environmental challenges social and demographic change and the need for new models of dense urbanism The authors describe how the high rise intensity of Hong Kong came about how the forest of towers are in fact vertical culs de sac and how the city might become truly volumetric with mixed activities through multiple levels and 3D movement networks incorporating town cubes rather than town squares For more information visit the authors website <http://www.makingofhk.com> [makingofhk.com](http://www.makingofhk.com) [makingofhk.com](http://www.makingofhk.com) *The State of the World's Cities 2004/2005*, 2004 As towns and cities expand at unprecedented rates sustainable urban development is one of the most pressing challenges facing the international community in the 21st century This publication examines the realities faced by urban populations around the world focusing on the impact of globalisation and the way cities are governed and planned on the make up and density of their population and on their cultures and economies Issues considered include the impact of globalisation on urban culture urban renewal and cultural strategies the concept of metropolitanization socio economic and cultural impacts of international migration urban poverty and homelessness social inequality and exclusion urban governance safety and crime trends contemporary planning strategies and the role of civil society progress towards attainment of the Millennium Development Goals targets for sanitation and housing The report highlights the need for a new culture of planning to establish multicultural and inclusive cities involving civil society as well as public authorities *Flagship Marketing* Tony Kent, Reva Brown, 2009-03-14 Flagships are the physical apogee of consumerism places where brand experiences are most defined and interactions with consumers are highly refined This book marks the first comprehensive study of the concept of the flagship bringing together a range of scholarly insights from the field covering issues such as consumerism areas of consumption and experimental marketing

theory and practise The ways in which flagship projects communicate brand values both externally and internally form an important part of this book and provide new perspectives on late twentieth century commercial and cultural policy and practice Kent and Brown offer a truly interdisciplinary approach to the concept offering a variety of perspectives on the debates surrounding flagship function and its role as a place of consumption Chapters focus on the development of prestigious stores hotels and arts and cultural centres as showcases for branded experiences and products and as demonstrations of commercial and public policy Cases and examples include The Eden Project in the UK automotive showrooms in Germany hotels in Dubai and Las Vegas and Vienna s cultural quarter Theoretical discussion explores the tensions between costs and profitability conspicuous consumption and the sustainability of iconic forms The book enables readers to explore the flagship concept from different perspectives and while a marketing approach predominates it provides a disciplinary challenge which will open up new ways of understanding the concept **World Music: A Very Short**

Introduction Philip V. Bohlman,2002-05-30 World music emerged as an invention of the West from encounters with other cultures This book draws readers into a remarkable range of these historical encounters in which music had the power to evoke the exotic and to give voice to the voiceless In the course of the volume s eight chapters the reader witnesses music s involvement in the modern world but also the individual moments and particular histories that are crucial to an understanding of music s diversity World Music is wide ranging in its geographical scope yet individual chapters provide in depth treatments of selected music cultures and regional music histories The book frequently zooms in on repertoires and musicians such as Bob Marley Bartok and Nusrat Fateh Ali Khan and attempts to account for world music s growing presence and popularity at the beginning of the twenty first century ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Urban Planning in a Changing World** Robert

Freestone,2000 Urban planning in today s world is inextricably linked to the processes of mass urbanization and modernization which have transformed our lives over the last hundred years Written by leading experts and commentators from around the world this collection of original essays will form an unprecedented critical survey of the state of urban planning at the end of the millennium *Urban Planning in a Changing World* Freestone,2000-06-22 Urban planning in

today s world is inextricably linked to the processes of mass urbanization and modernization which have transformed our lives over the last hundred years Written by leading experts and commentators from around the world this collection of original essays will form an unprecedented critical survey of the state of urban planning a **The Routledge Handbook on Cities of the Global South** Susan Parnell,Sophie Oldfield,2014-03-26 The renaissance in urban theory draws directly from a fresh focus on the neglected realities of cities beyond the west and embraces the global south as the epicentre of

urbanism This Handbook engages the complex ways in which cities of the global south and the global north are rapidly shifting the imperative for multiple genealogies of knowledge production as well as a diversity of empirical entry points to understand contemporary urban dynamics The Handbook works towards a geographical realignment in urban studies bringing into conversation a wide array of cities across the global south the ordinary mega global and peripheral With interdisciplinary contributions from a range of leading international experts it profiles an emergent and geographically diverse body of work The contributions draw on conflicting and divergent debates to open up discussion on the meaning of the city in or of the global south arguments that are fluid and increasingly contested geographically and conceptually It reflects on critical urbanism the macro and micro scale forces that shape cities including ideological demographic and technological shifts and constantly changing global and regional economic dynamics Working with southern reference points the chapters present themes in urban politics identity and environment in ways that re frame our thinking about cities The Handbook engages the twenty first century city through a southern urban lens to stimulate scholarly professional and activist engagements with the city

Relocating Global Cities M Mark Amen, M Martin Bosman, Kevin Archer, 2006-04-27 Drawing on eight case studies from key cities on the periphery of global cities literature Relocating Global Cities argues that all cities are globalizing in important ways Case studies of Frankfurt Johannesburg Bangkok Manila Tampa Sydney Brussels and Caracas provide the basis for an alternative theoretical approach to global city formation Reconciling a market based understanding and an agency based understanding of global cities this book proposes that globalization and cities are mutually constituted by the global political economy engaging with transnational and local agents The volume proposes an alternate theoretical approach to the literature of globalization while remaining grounded in concrete discussions of key cities Its expert contributors reconcile the conflicting ways in which two dominant paradigms one emphasizing market forces and the other the unique actions of individuals and groups embody our understanding of global cities This book will be of interest to students and researchers alike and is a perfect complement to texts in Urban Studies and Globalization

Globalization Matters Manfred B. Steger, Paul James, 2019-08-08 By addressing the major contemporary challenges to globalization this study explains why and how the global continues to matter in our unsettled world

Unruly Cities? Chris Brook, Gerry Mooney, Steve Pile, 2006-02 The text argues that cities are open to many forms of order and disorder both from within the city and outside They represent cities potentials as well as their problems It challenges the assumption that cities are threatened by disorder from below and that they might be ruled by order imposed from above

Cities of Whiteness Wendy S. Shaw, 2011-07-18 This groundbreaking book brings the study of whiteness and postcolonial perspectives to bear on debates about urban change A thought provoking contribution to debates about urban change race and cosmopolitan urbanism Brings the study of whiteness to the discipline of geography questioning the notion of white ethnicity Engages with Indigenous peoples experiences of whiteness past and present and with theoretical postcolonial perspectives Uses Sydney as

an example of a city of whiteness considering trends such as Sydney's SoHo Syndrome and the Harlemlisation of the Aboriginal community

Introduction to Cities Xiangming Chen, Anthony M. Orum, Krista E. Paulsen, 2018-02-23 The revised and updated second edition of *Introduction to Cities* explores why cities are such a vital part of the human experience and how they shape our everyday lives. Written in engaging and accessible terms, *Introduction to Cities* examines the study of cities through two central concepts: that cities are places where people live, form communities and establish their own identities; and that they are spaces such as the inner city and the suburb that offer a way to configure and shape the material world and natural environment. *Introduction to Cities* covers the theory of cities from an historical perspective right through to the most recent theoretical developments. The authors offer a balanced account of life in cities and explore both positive and negative themes. In addition, the text takes a global approach with examples ranging from Berlin and Chicago to Shanghai and Mumbai. The book is extensively illustrated with updated maps, charts, tables and photographs. This new edition also includes a new section on urban planning as well as new chapters on cities as contested spaces exploring power and politics in an urban context. It contains information on the status of poor and marginalized groups and the impact of neoliberal policies on gender and sexuality and presents a greater range of geographies with more attention to European, Latin American and African cities. Revised and updated *Introduction to Cities* provides a complete introduction to the history, evolution and future of our modern cities.

American Urban Politics in a Global Age Paul Kantor, Dennis R. Judd, 2015-10-05 Bringing together a selection of readings that represent some of the most important trends and topics in urban scholarship today, *American Urban Politics* provides historical context and contemporary commentaries on the economy, politics, culture and identity of American cities. This seventh edition examines the ability of highly autonomous local governments to grapple with the serious challenges of recent years, challenges such as the stresses of the lingering economic crisis and a series of recent natural disasters. Features: Each chapter is introduced by an editor's essay that places the readings into context and highlights their central ideas and findings. Division into three historical periods emphasizes both the changes and continuities in American urban politics over time. The reader is the perfect complement for Judd Swannstrom's *City Politics: The Political Economy of Urban America*. 7e also available in a new edition ISBN 0 205 03246 X

The New Economy in Transatlantic Perspective Kurt Huebner, 2005-02-03 What's left from the new economy? This book takes an unfashionable perspective and shows that despite all the mistaken ideas and exaggerations, the technological changes of the 1990s still have important effects today. Economic history shows that technological revolutions tend to generate deep economic and social crises before a temporary state of equilibrium is reached. The established modes of accumulations and regimes of regulation of national capitalisms and international capitalism have been undermined by the collapse of the high tech asset bubble. Financial markets are still in disarray. What can be observed, however, is that national economies are better positioned to tackle the crisis than others. Why is this? This and other important questions are tackled by an international team of contributors.

including Daniele Archibugi Harald Hagemann Bruno Amable Martin Heidenreich and David Gibbs This volume should be of great interest to all those working at the intersection of international politics and economics
