professionals who migrated to Australia and New Zealand in the late nineteenth century Their attempts to establish and define family in Australasian suburban environments reveal how the Victorian theory of separate spheres could take a variety of forms in the new world setting The attitudes and assumptions that shaped these family experiments may be placed on a continuum that extends from John Ruskin s concept of evangelical motherhood to John Stuart Mill s rational secularism Central to their thinking was a belief in the power of education to produce civilised and humane individuals who as useful citizens would individually and in concert nurture a better society Such ideas pushed them to the forefront of colonial liberalism The pursuit of higher education for their daughters merged with and in some respects influenced first wave colonial feminism They became the first generation of colonial middle class parents to grapple not only with the problem of shaping careers for their sons but also and more frustratingly what graduate daughters might do next

Interpretive Political Science R. A. W. Rhodes, 2017-06-30 Interpretive Political Science is the second of two volumes featuring a selection of key writings by R A W Rhodes Volume II looks forward and explores the interpretive turn and its implications for the craft of political science especially public administration and draws together articles from 2005 onwards on the theme of the interpretive turn in political science Part I provides a summary statement of the interpretive approach and Part II develops the theme of blurring genres and discusses a variety of research methods common in the humanities including ethnographic fieldwork life history and focus groups Part III demonstrates how the genres of thought and presentation found in the humanities can be used in political science It presents four examples of such blurring at work with studies of applied anthropology and civil service reform women s studies and government departments and storytelling and local knowledge The book concludes with a summary of what is edifying about an interpretive approach and why this approach matters and revisits some of the more common criticisms before indulging in plausible conjectures about the future of interpretivism The author seeks new and interesting ways to explore governance high politics public policies and the study of public administration in general Volume I collects in one place for the first time the main articles written by Rhodes on policy networks and governance between 1990 and 2005 and explores a new way of describing British government focusing on policy making and the ways in which policy is put into practice

The State as Cultural Practice Mark Bevir, R. A. W. Rhodes, 2010-04-08 The State as Cultural Practice offers a fully worked out account of the authors distinctive interpretive approach to political science It challenges the new institutionalism probably the most significant present day strand in both American and British political science It moves away from such notions as bringing the state back in path dependency and modernist empiricism Instead Bevir and Rhodes argue for an anti foundational analysis ethnographic and historical methods and a decentred approach that rejects any essentialist definition of the state and espouses the idea of politics as cultural practice The book has three aims to develop an anti foundational theory of the state to develop a new research agenda around the topics of rule rationalities and resistance by exploring empirical shifts and debates about the changing nature of

the state to show how anti foundational theory leads us to see them differently Bevir and Rhodes argue for the idea of the stateless state or the state as meaning in action So the state is neither monolithic nor a causal agent It consists solely of the contingent actions of specific individuals of diverse beliefs about the public sphere about authority and power which are constructed differently in contending traditions Continuity and change are products of people inheriting traditions and modifying them in response to dilemmas A decentred approach explores the limits to the state and seeks to develop a more diverse view of state authority and its exercise In short political scientists need to bring people back in to the study of the state

Historical Dictionary of Australia Norman Abjorensen, James C.
