A Contemporary Nursing Process Rozzano C. Locsin, Marguerite Purnell, Marguerite J. Purnell, 2009-04-10 This book speaks against thinking that we can only understand nursing from a traditional logical empirical approach suggesting we need a contemporary process for exploring nursing I can't agree more Journal of Christian Nursing Nurse scholars from across the globe

contribute essays to this unique philosophical exploration of today's nursing. This book presents an emerging view that requires nursing to look at its work through a broader and less structured lens. Challenging the structure of the traditional nursing process, the book considers nursing as reflective and thoughtful. Doody's *A Contemporary Nursing Process* re-envisions the practice of nursing by configuring caring in terms of the person the nurse cares for. Locsin and Purnell stress the importance of knowing the patient and differentiating the person from the disease. This text addresses this highly relevant issue and provides a wealth of insight on how to care for the patient on a personal level while still professionally administering clinical treatment. Chapters discuss how to appreciate persons as participants in their care rather than as objects of care. The ideal of care versus the practical demands of care. Technological advancements shaping human life and nursing. The consequences of not knowing the patient on a personal level.

Applying Nursing Process Rosalinda Alfaro-LeFevre, 2002. This Fifth Edition workbook provides students with a concise reference to facilitate critical thinking in clinical practice settings. Packed with examples, learning exercises, and real-life case scenarios, it offers guidelines and strategies to promote the nursing process, problem solving, and decision-making skills. Its how-to format includes application and theoretical rationale support as it addresses both independent and collaborative nursing roles. New features include expanded content on the development and implementation of critical thinking skills, emphasis on outcome-focused and evidence-based care, leadership and delegation skills, the role of NANDA, NIC, NOC, and NDEC in clinical practice, and more.
