Passing Through Reflections On Life:

Passing Through the Fire D. C. Kerns, 2011-07-13 The ideas presented within these pages can help the reader focus on improving self and community through imagination and thinking There is hope for change when the inspiration comes from within When it comes to freedom of thought it is easier to change one mind at a time than entire cultures As long as there are individuals who express optimism for such change there is hope for all of us The topics cover common themes that people and society come across while passing through the fire of daily life These themes are about all of us They are about time space matter spirit humanism and universalism They attempt to explain by seeding the complex with the simple There are no endings only beginnings in awareness when its purpose is to unify consciousness on Earth with universal life When this occurs rightly our perceptions will move us into that next stage of being universal inclusiveness and its eternal expansion
