

THE ANATOMY OF PASSIONATE PERFORMANCE

Passionate Performance

Passionate Performance is achieved when employees are fully engaged – when they demonstrate a **strong, sustained intellectual and emotional attachment to their work.**

You will know when employees are demonstrating Passionate Performance because you will feel the enthusiasm and see the results. Your team will have more fun creating better outcomes. They will be fully present at work, in the moment, in the flow. They will perform at higher levels and be motivated to do more. They will feel like kids again – a time when they had fun doing their very best at whatever they were engaged in. In short, **their work will feel like play.**

Can you remember a situation where you felt like this? Maybe it was a special project where everything came together perfectly. Or a team you were on where everyone did what was best for the team, creating a rare synergy. Or a certain cause you volunteered for where you felt like the best of your skills and talents flowed naturally to make a real difference. Most of us can remember a situation like this because it was such a unique experience and left us with such a special feeling. It may have been a lot of work, but we most frequently describe it as “fun.” That’s because our minds and hearts were fully engaged.

Leading with Care in a Tough World Bob DeKoch, Phillip G. Clampitt, 2022-11-04 A simple yet powerful promise caring leaders can produce extraordinary outcomes Daniel H Pink 1 New York Times bestselling author of The Power of Regret Breaking new ground in the exploration of servant leadership Bob DeKoch and Phil Clampitt draw on their years of experience and research to describe with vivid real world examples how leading with care enriches people and transforms organizations in our challenging times Gallup recently reported that only 15% of employees in the United States are truly engaged in their workplace Yet nearly 70% say they would work harder if they felt more appreciated Over 90% of those surveyed believed their leaders lacked communication skills to lead The gloomy stories behind sobering statistics reveal employees disappointment with current leadership approaches Leaders can do better That s why the authors sought to go beyond the laudable sentiments of the servant leadership movement by envisioning creating and testing a new leadership platform based on a set of guiding beliefs and actual day to day practices Their unique perspective transforms traditional practices like employee coaching and collaboration into dynamic self actualizing workplaces They also share insights about

Curtright,2016-12-05 In *Shakespeare's Dramatic Persons* Travis Curtright examines the influence of the classical rhetorical tradition on early modern theories of acting in a careful study of and selection from Shakespeare's most famous characters and successful plays Curtright demonstrates that personation the early modern term for playing a role is a rhetorical acting style that could provide audiences with lifelike characters and action including the theatrical illusion that dramatic persons possess interiority or inwardness *Shakespeare's Dramatic Persons* focuses on major characters such as Richard III Katherina

Benedick and Iago and ranges from Shakespeare's early to late work exploring particular rhetorical forms and how they function in five different plays At the end of this study Curtright envisions how Richard Burbage Shakespeare's best actor might have employed the theatrical convention of directly addressing audience members Though personation clearly differs from the realism aspired to in modern approaches to the stage Curtright reveals how Shakespeare's sophisticated use and development of persuasion's arts would have provided early modern actors with their own means and sense of performing lifelike dramatic persons
