Where the Clouds Can Go Conrad Kain,2011-02-15 He brought glamour and imagination into the sport of mountaineering as few guides have done before him Recalling his personality and amusing stories one should not forget that his approach to mountains was first and foremost an aesthetic one he saw a peak first as something beautiful the technical problem was always secondary and nothing counted beside that vision Of all the mountain guides who came to Canada in the late 19th and early 20th centuries Conrad Kain is probably the most respected and well known In this internationally anticipated reissue of *Where the Clouds Can Go* first published in 1935 with subsequent editions in 1954 and 1979 Rocky Mountain Books has accentuated the original text with an expanded selection of over 50 archival images that celebrate the accomplishments of Conrad Kain in the diverse mountain landscapes of North America Europe and New Zealand The new foreword by acclaimed mountaineer and filmmaker Pat Morrow puts Kain s mountaineering adventures numerous explorations and devout appreciation of nature into a contemporary context ensuring that the exploits of this remarkable individual will remain part of international mountain culture for years to come To commemorate the 100th anniversary of Kain s arrival in Canada the Conrad Kain Centennial Society was formed in 2008 to celebrate his many achievements and to develop legacy projects in his memory This expanded edition of Kain s book will help carry his passion for mountaineering to a new generation of readers and adventurers

Conrad Kain Zac Robinson,2021-12-08 Examine the life of the pioneering guide in these 144 letters sharing his thoughts on immigrating to Canada his passion for nature his travels and more Conrad Kain is a titan amongst climbers in Canada and is well known in mountaineering circles all over the world His letters to Amelie Malek a life long friend offer a candid view into the deepest thoughts of the Austrian mountain guide and are a perfect complement to his autobiography *Where the Clouds Can Go* The 144 letters provide a unique and personal view of what it meant to immigrate to Canada in the early part of the twentieth century Kain s letters are ordered chronologically with annotations keeping the sections in English untouched while those in German have been carefully translated Historians and mountain culture enthusiasts worldwide will appreciate Kain s genius for description his passion for nature his opinions and his musings about his life In a culture that enjoys as many romantic figures as there are mountain peaks on the horizon as viewed from a lofty summit Conrad Kain holds a special place in the historical landscape of western Canada s mountains Robinson makes no secret of his affection for Kain and that s a good thing because he handles the letters Kain wrote throughout his adult life

while guiding in Canada and New Zealand to his dear friend in Austria Amelie Malek with the care and reverence they so richly deserve Lynn Martel Alpine Club of Canada Gazette From his letters it s obvious that Kain loved climbing mountains for the physical challenge to meet interesting people to make a living and for opportunities to travel around the world but most especially because of his all consuming love of the natural world Cyndi M Smith The Canadian Field Naturalist Vol 129 No 1

Pilgrims of the Vertical Joseph E. Taylor III,2010-10-15 Few things suggest rugged individualism as powerfully as the solitary mountaineer testing his or her mettle in the rough country Yet the long history of wilderness sport complicates this image In this surprising story of the premier rock climbing venue in the United States Pilgrims of the Vertical offers insight into the nature of wilderness adventure From the founding era of mountain climbing in Victorian Europe to present day climbing gyms Pilgrims of the Vertical shows how ever changing alignments of nature technology gender sport and consumer culture have shaped climbers relations to nature and to each other Even in Yosemite Valley a premier site for sporting and environmental culture since the 1800s elite athletes cannot be entirely disentangled from the many men and women seeking recreation and camaraderie Following these climbers through time Joseph Taylor uncovers lessons about the relationship of individuals to groups sport to society and nature to culture He also shows how social and historical contexts influenced adventurers choices and experiences and why some became leading environmental activists including John Muir David Brower and Yvon Chouinard In a world in which wild nature is increasingly associated with play and virtuous play with environmental values Pilgrims of the Vertical explains when and how these ideas developed and why they became intimately linked to consumerism

Mountain Guru Catherine Moorehead,2023-10-05 Winner of the Kekoo Naoroji Award Doug Scott was a legend among mountaineers His expeditions undertaken over a period of five decades are unparalleled achievements This book describes the extraordinary drama of them all from the Himalaya to New Zealand Patagonia Yosemite and Alaska It includes his famous epic on The Ogre one of the hardest peaks in the world to climb his ascent of Kangchenjunga without supplementary oxygen and his ascent with Dougal Haston of Everest in 1975 Catherine Moorehead also uncovers the elusive man behind the obsessive mountaineer From his rumbustious youth in Nottingham through two tempestuous marriages to a secure third marriage she shows how Scott matured in thought and action as his formidable global reputation increased In doing so she reveals him to be a clash of opposites an infuriating monomaniac who took extraordinary risks yet who developed a deep interest in Buddhism and inspired widespread affection Scott spent almost as long as his climbing career in founding and developing Community Action Nepal providing schools and health posts in remote parts of Nepal where he is still much revered Doug Scott died in 2020

Nature in Translation Shiho Satsuka,2015-08-13 Nature in Translation is an ethnographic exploration in the cultural politics of the translation of knowledge about nature Shiho Satsuka follows the Japanese tour guides who lead hikes nature walks and sightseeing bus tours for Japanese tourists in Canada s Banff National Park and illustrates how they aspired to become local nature interpreters by learning the

ecological knowledge authorized by the National Park The guides assumed the universal appeal of Canada's magnificent nature but their struggle in translating nature reveals that our understanding of nature including scientific knowledge is always shaped by the specific socio cultural concerns of the particular historical context These include the changing meanings of work in a neoliberal economy as well as culturally specific dreams of finding freedom and self actualization in Canada's vast nature Drawing on nearly two years of fieldwork in Banff and a decade of conversations with the guides Satsuka argues that knowing nature is an unending process of cultural translation full of tensions contradictions and frictions Ultimately the translation of nature concerns what counts as human what kind of society is envisioned and who is included and excluded in the society as a legitimate subject

Meltdown Sarah Boon, 2025-06-17 Meltdown tells the story of Sarah Boon's field adventures in snow and ice the struggles of choosing an academic career over that of a writer and the challenges of being a woman in science An undergraduate field trip to Hilda Glacier in the Canadian Rockies ignites Boon's scientific passion leading her to pursue a PhD in cold regions hydrology in the High Arctic while writing on the side Her narrative blends adventure and academia featuring experiences like traversing John Evans Glacier on Ellesmere Island building weather stations in northern British Columbia sampling proglacial rivers and scaring away grizzlies with helicopters Interwoven with tales of historic female explorers like Mary Schaffer Warren and Phyllis Munday Meltdown celebrates the indomitable spirit of women in exploration However amid the rigours of fieldwork Boon faces gender bias department politics and imposter syndrome Her journey is marked by injury mental health struggles and job insecurity in the academic workplace When a severe mental health diagnosis threatens her position Boon must decide if leaving science is the only way to manage her illness As the landscapes she studies undergo profound transformations Boon's personal journey mirrors the evolving contours of her research Meltdown is a candid narrative of developing identities the need for open dialogue about scientific research and mental health and one woman's search for work life balance

Spirits of the Rockies Courtney W. Mason, 2014-09-24 The Banff Bow Valley in western Alberta is the heart of spiritual and economic life for the Nakoda peoples While they were displaced from the region by the reserve system and the creation of Canada's first national park in the twentieth century the Nakoda reasserted their presence in the valley through involvement in regional tourism economies and the Banff Indian Days sporting festivals Drawing on extensive oral testimony from the Nakoda supplemented by detailed analysis of archival and visual records Spirits of the Rockies is a sophisticated account of the situation that these Indigenous communities encountered when they were denied access to the Banff National Park Courtney W Mason examines the power relations and racial discourses that dominated the eastern slopes of the Canadian Rocky Mountains and shows how the Nakoda strategically used the Banff Indian Days festivals to gain access to sacred lands and respond to colonial policies designed to repress their cultures

Continental Divide Maurice Isserman, 2016-04-21 This magisterial and thrilling history argues that the story of American mountaineering is the story of America itself In Continental Divide Maurice Isserman tells

the history of American mountaineering through four centuries of landmark climbs and first ascents Mountains were originally seen as obstacles to civilization over time they came to be viewed as places of redemption and renewal The White Mountains stirred the transcendentalists the Rockies and Sierras pulled explorers westward toward Manifest Destiny Yosemite inspired the early environmental conservationists Climbing began in North America as a pursuit for lone eccentrics but grew to become a mass participation sport Beginning with Darby Field in 1642 the first person to climb a mountain in North America Isserman describes the exploration and first ascents of the major American mountain ranges from the Appalachians to Alaska He also profiles the most important American mountaineers including such figures as John C Fremont John Muir Annie Peck Bradford Washburn Charlie Houston and Bob Bates relating their exploits both at home and abroad Isserman traces the evolving social cultural and political roles mountains played in shaping the country He describes how American mountaineers forged a brotherhood of the rope modeled on America's unique democratic self image that characterized climbing in the years leading up to and immediately following World War II And he underscores the impact of the postwar rucksack revolution including the advances in technique and style made by pioneering dirtbag rock climbers A magnificent deeply researched history Continental Divide tells a story of adventure and aspiration in the high peaks that makes a vivid case for the importance of mountains to American national identity *International Sport: A Bibliography*, 2000 Richard William Cox, 2013-10-23 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new **2001** **American Alpine Journal** , Articles on all significant climbs of 2000 Authors include some of the finest climbers of our time such as Scott Backes Marko Prezelj Valeri Babanov and Thomas Huber as well as virtuoso newcomers Jonathon Copp and Ian Parnell More than 150 photos maps and topos This latest volume of climbing's journal of record offers the most complete picture available of who did what in 2000 Jonathon Copp relates the stunning accomplishments of his light and fast Karakoram expedition with Michael Pennings while Steve House and Rolando Garibotti discuss the state of the art in Alaskan and Patagonian alpinism If it happened in the world of climbing it's in the AAJ Founded in 1902 the American Alpine Club AAC is the leading national organization devoted to mountaineering and rock climbing to the conservation and study of mountainous regions and to representing the interests of the American climbing community The AAC is based in Golden Colorado *John Clarke* Lisa Baile, 2015-06-15 Clarke had no interest in trophy climbs and never did ascend many of BC's

highest peaks On the other hand he explored more virgin territory and racked up more first ascents than any other climber perhaps more than any climber who ever lived Although he came to be honoured far and wide and is one of the few mountaineers to be awarded the Order of Canada he was a modest man who pursued his passion without fanfare frequently embarking on gruelling expeditions into unknown territory by himself His reputation spread and grew to legendary proportions not just owing to the prodigious scale of his achievements but because of the way he carried them out he travelled light and scorned technology wearing cotton long johns and eating homemade granola He dedicated his life to exploring the numberless nameless peaks of the Coast Range and worked at odd jobs just long enough to pay for the next season s climbing He was charismatic and famously attractive to women but none were able to compete with his first love and he didn t marry until he was almost fifty Always a popular lecturer in his later years he devoted his considerable energies to the cause of environmental education After he succumbed to cancer in 2003 the BC government named Mount John Clarke in his honour fitting recognition for the man who had himself named many BC mountains John Clarke Explorer of the Coast Mountains covers this remarkable life from beginning to end examining Clarke through his own words and pictures as well as through the words of his many friends All agree it was an honour to have known him and readers will find it equally inspiring to meet him through these pages
