Regulatory Reforms In Italy A Case Study In Europeanisation:

Regulatory Reforms in Italy Dieter Kerwer, 2018-01-18 This title was first published in 2001 The question this thesis attempts to answer is summarized as follows what accounts for the amazing stability of Italian transport policy in the face of European challenges given the fact that as most national and European policy makers readily believe it is not capable of addressing the problem of the sector This study analyzes the transport policy in Italy from the 1990s into the 21st century It looks at how the two sub sectors of surface transport road haulage and railways have been managed by the public and private actors involved In both sectors the policy appears to have failed either by not offering a remedy to problems or by aggravating them further The author believes that studying transport policy in Italy will shed light on the wider question of how national policy making patterns are influenced by developments in the international environment in this case looking closely at the influence of the European Union The Politics of Europeanization Kevin Featherstone, Claudio Maria Radaelli, 2003 In this text the authors trace the influence of the European Union on domestic politics and public policies It looks at different countries one by one and embraces an innovative perspective based on specific concepts indicators and a broad range of thematic issues The Europeanization of Central and Eastern Europe Frank Schimmelfennig, Ulrich Sedelmeier, 2005 This book demonstrates the importance of the credibility and the costs of accession conditionality for the adoption of EU rules in Central and Eastern Europe **Labour Market Deregulation in Japan and Italy** Hiroaki Richard Watanabe, 2014-11-13 Japan and Italy encountered severe economic problems in the early 1990s and the governments had to deal with those issues effectively under the increasing neoliberal pressures of globalisation In this context labour market deregulation was considered an effective tool to cope with those economic problems However the forms and degrees of labour market deregulation in the two countries were quite different This book seeks to explain the differences in labour market deregulation policies between Japan and Italy despite the fact that the two countries shared a number of similar political social and labour market if not cultural characteristics Uniquely it takes a political rather than economic or sociological perspective to provide a theoretical and empirical analysis of the processes of labour market deregulation in the two countries The precarious working conditions of an increasing number of non regular workers has become a prominent social issue in many industrialised countries including Japan and Italy but the level of the protection for these workers depends on a country's labour market policies which are affected by the power resources of labour unions and labour policy making structures This book provides a useful perspective for understanding the root causes of this phenomenon such as the diffusion of neoliberal ideas aimed at promoting labour market flexibility under globalisation and demonstrates that there is still room for politics to decide the extent of deregulation and maintain worker protection from management offensives even in an era of globalisation Labour Market Deregulation in Japan and Italy Worker Protection under Neoliberal Globalisation will appeal to students and scholars of Japanese politics Italian politics political economy and comparative politics *The*

Will of Change Eva-Maria Maggi, 2015-10-13 In this book Eva Maria Maggi argues that the European Union EU had an impact on institutional reform processes in North Africa in cases where major domestic actors agreed She analyzes how political actors in Morocco used EU neighborhood policies to shape economic and environmental policy between 1995 and 2008 Maggi argues that it was not the design of the EU's neighborhood policies but rather the will of change of domestic actors in Morocco that determined the pace direction of reform and the extent to which the EU continues to play a role in them While Moroccan politics were indeed europeanized Maggi highlights the role of domestic actors who so effectively managed to put forth their own policy priorities and essentially moroccanized the ENP

Europeanization and Domestic Policy Change Paolo Graziano, 2013 This book examines the impact of Europeanization on the domestic politics of EU member states focussing on agricultural policy cohesion policy and employment policy with a detailed comparative case study on Italy Though a founding member Italy has often had an uneasy relationship with the EU and found it difficult to be influential in EU politics and to comply effectively with EU policies and institutional pressures The main focus of this book is the analysis of Italy EU relationship from a policy based perspective adopting the conceptual lenses developed by Europeanization research By looking at the evolution of agricultural regional cohesion and employment policy the book shows how the politics of adaptation have brought Italy closer to Europe in the past twenty years and further highlights the impact of the EU Italy relationship on domestic institutions and politics The author explains that even though Italy has increasingly learned to respect EU membership requirements its influence over agenda setting within the EU remains limited

Governing Interests Wolfgang Streeck, Jürgen Grote, Volker Schneider, Jelle Visser, 2006-06-07 In the current period of globalization *Governing Interests* presents new research on the impact of internationalization on the organization and representation of business interests through trade and employer associations By exploring ongoing gradual but nevertheless profound changes in the structures and functions of business interest associations the book develops a precise understanding of the relationship between the national and the international Both conceptual and empirical some

papers included in this significant volume adopt a bird's eye view of the topic whilst others concentrate on individual industries or countries and several through examination and analysis consider the effects on interest representation and the repercussions on effective governance. Contributed to and edited by leading academics, the diversity of research questions and methods used in this volume provide the reader with an excellent understanding of the subject and importantly caution against rash simplifications. Comprehensive and scholarly, this text will be of particular relevance to political scientists and sociologists.

Europeanization, European Integration and Financial Services K. Howell, 2004-05-25. This book deals with the political philosophy that underpins theories of European integration and develops an understanding of Europeanization based on downloading and uploading. Downloading is the means by which EU policy is amalgamated with domestic legislation and institutions. Uploading indicates the use of national governments or sub-national interests in the development of European integration processes. European integration takes place at the supranational level and in general is distinct from Europeanization. Through a study of financial services regulation, these processes are made explicit.
