Philosophy Swami Abhedananda, 2004-10 The visible phenomena of the universe are bound by the universal law of cause and effect The effect is visible or perceptible while the cause is invisible or imperceptible The falling of an apple from a tree is the effect of a certain invisible force called gravitation Although the force cannot be perceived by the senses its expression is visible All perceptible phenomena are but the various expressions of different forces which act as invisible agents upon the subtle and imperceptible forms of matter These invisible agents or forces together with the imperceptible particles of matter make up the subtle states of the phenomenal universe When a subtle force becomes objectified it appears as a gross object Therefore we can say that every gross form is an expression of some subtle force acting upon the subtle particles of matter The minute particles of hydrogen and oxygen when combined by chemical force appear in the gross form of water Water can never be separated from hydrogen and oxygen which are its subtle component parts Its existence depends upon that of its component parts or in other words upon its subtle form If the subtle state changes the gross manifestation will also change The peculiarity in the gross form of a plant depends upon the peculiar nature of its subtle form the seed **Vedānta**

Philosophy Swami Abhedānanda,1907 **Concept of Rebirth** Salila Nayak,2004 Study with reference to Indian religions and philosophy *Vedanta Philosophy; Five Lectures on Reincarnation* Swami Abhedananda,2025-08-15 Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage [Reincarnation in America](#) Lee Irwin,2017-07-31 Reincarnation in America An Esoteric History surveys the complex history of reincarnation theories across multiple fields of discourse in a pre American context ranging from early Greek traditions to Medieval Christian theories Renaissance esotericism and European Kabbalah all of which had adherents that brought those theories to America Rebirth theories are shown in all these groups to be highly complex and often disjunctive with mainstream religions even though members of conventional religions frequently affirm the possibility of rebirth As a history of an idea reincarnation theory is a current vital belief pattern that cuts across a wide spectrum of social cultural and scientific domains in a long complex history not reducible to any specific religious or theoretical explanation This book is cross disciplinary and multicultural linking religious studies perspectives with science based research it draws upon many distinct disciplines and avoids reduction of reincarnation to any specific theory The underlying thesis is to demonstrate the complexity of reincarnation theories what is unique is the historical overview and the gradual shift away from religious theories of rebirth to new theories that are therapeutic and trans traditional **Reincarnation and the Law of Karma: A Study of the Old-New World-Doctrine of Rebirth, and Spiritual Cause and Effect** William Walker Atkinson,2008-01-01 By Reincarnation we mean the repeated incarnation or embodiment in flesh of the soul or immaterial part of man s nature The term Metempsychosis is frequently employed in the same sense the definition of the latter term being The passage of the soul as an immortal essence at the death of the body into another living body The term Transmigration of Souls is sometimes employed the term being used in the sense of passing from one body into another But the term Transmigration is often used in connection with the belief of certain undeveloped races who held that the soul of men sometimes passed into the bodies of the lower animals as a punishment for their sins committed during the human life But this belief is held in disrepute by the adherents of Reincarnation or Metempsychosis and has no connection with their philosophy or beliefs the ideas having sprung from an entirely different source and having nothing in common There are many forms of belief many degrees of doctrine regarding Reincarnation as we shall see as we proceed but there is a fundamental and basic principle underlying all of the various shades of opinion and divisions of the schools This fundamental belief may be expressed as the doctrine that there is in man an immaterial Something called the soul spirit inner self or many other names which does not perish at the death or disintegration of the body but which persists as an entity and after a shorter or longer interval of rest reincarnates or is re born into a new body that of an unborn infant from whence it proceeds to live a new life in the body more or less unconscious of its past existences but containing within itself the essence or results of its past lives which experiences go to

make up its new character or personality It is usually held that the rebirth is governed by the law of attraction under one name or another and which law operates in accordance with strict justice in the direction of attracting the reincarnating soul to a body and conditions in accordance with the tendencies of the past life the parents also attracting to them a soul bound to them by some ties in the past the law being universal uniform and equitable to all concerned in the matter This is a general statement of the doctrine as it is generally held by the most intelligent of its adherents
