SUSAN WENDELL, *The Rejected Body: Feminist Philosophical Reflections on Disability*. New York: Routledge 1996. Pp. viii + 206.

The Rejected Body is both a very human and a very humane book.

The author, Susan Wendell, a person living with disabilities, shines through this book, and invites the reader to engage with the issues in which she is interested. I admire the person who has written, 'I cannot wish that I had never contracted ME [myalgic encephalomyelitis], because it has made me a different person, a person I am glad to be, would not want to have missed being, and could not imagine relinquishing, even if I were "cured"' (83).

The Rejected Body aims at a wider audience than philosophical texts usually do. In fact, Wendell says it is not written primarily for an audience of professional philosophers, although she would like professional philosophers to read it (1). Instead, the book is offered to persons with disabilities and any others who wish to examine some moral and epistemological issues pertaining to disability.

Wendell uses the terms 'rejected body' and 'negative body' 'to refer to those aspects of bodily life (such as illness, disability, weakness, and dying), bodily appearance (usually deviations from the cultural ideals of the body), and bodily experience (including most forms of bodily suffering) that are feared, ignored, despised, and/or rejected in a society and its culture' (85). She draws from her own experiences to illustrate questions raised by disability, to challenge stereotypic assumptions about persons with disabilities, and to critique forms of discrimination and oppression directed at disabled people. The book is an excellent exemplar of the treatment of personal experiences as integral to the doing of feminist philosophy. Through stories about her own illness and disability Wendell shows that the personal can be both political and philosophical.

Rejected Body Feminist Philosophical Reflections On Disability:

The Rejected Body Susan Wendell, 1996 The Rejected Body argues that feminist theorizing has been skewed toward non disabled experience and that the knowledge of people with disabilities must be integrated into feminist ethics discussions of bodily life and criticism of the cognitive and social authority of medicine Among the topics it addresses are who should be identified as disabled whether disability is biomedical social or both what causes disability and what could cure it and whether scientific efforts to eliminate disabling physical conditions are morally justified Wendell provides a remarkable look at how cultural attitudes towards the body contribute to the stigma of disability and to widespread unwillingness to accept and provide for the body's inevitable weakness [God, Suffering, and Disability](#) Mary Schaefer Fast, 2019-05-22 God Suffering and Disability A Trinitarian Theodicy of the Cross utilizes both Christological and pneumatological perspectives of Luther's theology of the cross to address the complexities of suffering and disability Through the lens of the cross the God who suffers enables humans to call a thing what it is by recognizing the suffering that often accompanies disability Rather than asking why the Triune God allows people to suffer this theodicy of disability focuses on where the Father Son and Spirit are in that very human experience As a new theodic construct a Trinitarian theodicy of the cross responds to both the theological concerns of the church and the theoretical apprehensions of society It encourages Christians to live as theologians of the cross empowers the faith community by informing both its theology and praxis and provides a theoretical response to secular society that will enrich the field of disability studies **The Gender Knot** Allan Johnson, 2014-10-19 New Third Edition The Gender Knot Allan Johnson's response to the pain and confusion that men and women experience by living with gender inequality explains what patriarchy is and isn't how it works and what gets in the way of understanding and doing something about it Johnson's simple yet powerful approach avoids the paralyzing trap of guilt blame anger and defensive denial that often results from conversations about gender This edition features Updated references data resources and examples especially in relation to issues of sexual orientation and gender identity e.g. gay marriage transgender cisgender A glossary of terms A new chapter What Changes and What Does Not Manhood and Violence that provides an extended analysis of the causes of men's violence as a patriarchal phenomenon [Communication Yearbooks Vols 6-33 Set](#) Various, 2021-12-02 The Communication Yearbook annuals originally published between 1977 and 2009 publish diverse state of the discipline literature reviews that advance knowledge and understanding of communication systems processes and impacts across the discipline Topics dealt with include Communication as Process Research Methodology in Communication Communication Effects Taxonomy of Communication and European Communication Theory Information Systems Division Mass Communication Research Mapping the Domain of Intercultural Communication Public Relations Feminist Scholarship Communication Law and Policy Visual Communication Communication and Cross Sex Friendships Across the Life Cycle Television Programming and Sex Stereotyping InterCultural Communication Training Leadership and Relationships Media

Performance Assessment Cognitive Approaches to Communication **Communication Yearbook 27** ,1982 **Disability Politics and Theory** A.J. Withers,2020-06-19T00:00:00Z An accessible introduction to disability studies Disability Politics and Theory provides a concise survey of disability history exploring the concept of disability as it has been conceived from the late 19th century to the present Further A J Withers examines when how and why new categories of disability are created and describes how capitalism benefits from and enforces disabled people s oppression Critiquing the model that currently dominates the discipline the social model of disability this book offers an alternative the radical disability model This model builds on the social model but draws from more recent schools of radical thought particularly feminism and critical race theory to emphasize the role of intersecting oppressions in the marginalization of disabled people and the importance of addressing disability both independently and in conjunction with other oppressions Intertwining theoretical and historical analysis with personal experience this book is a poignant portrayal of disabled people in Canada and the U S and a radical call for social and economic justice Through a Distorted Lens Laura M. Nicosia,Rebecca A. Goldstein,2017-07-20 This volume examines what and how the media teach to and by whom and for what purpose in a rapidly shifting milieu of media content platforms and relations While intimately concerned with education authors move the discussion beyond the setting of formal schooling to uncover the ways in which the media contribute to individual and collective understandings of self and other and their relations to society and communities in which they move In doing so the text encourages readers to transcend exclusionary discussions of citizenship to consider participation in local and global geographies against a neoliberal backdrop that marginalizes those unable to unwilling to and excluded from competing in the free market Contributors extend their deliberations back to formal school settings to reaffirm pedagogies that rediscover the reading of texts broadly defined in the world through multimodalities In this sense the text strives to be transdisciplinary and is appropriate for use in multiple disciplines and fields of study Contagion Alison Bashford,Claire Hooker,2002-11-01 In the age of HIV antibiotic resistant bacteria the Ebola Virus and BSE metaphors and experience of contagion are a central concern of government biomedicine and popular culture Contagion explores cultural responses of infectious diseases and their biomedical management over the nineteenth and twentieth centuries It also investigates the use of contagion as a concept in postmodern reconceptualisations of embodied subjectivity The essays are written from within the fields of cultural studies biomedical history and critical sociology The contributors examine the geographies policies and identities which have been produced in the massive social effort to contain diseases They explore both social responses to infectious diseases in the past and contemporary theoretical and biomedical sites for the study of contagion *Vulnerable Subjects* G. Thomas Couser,2018-08-06 My primary concern is with the ethics of representing vulnerable subjects persons who are liable to exposure by someone with whom they are involved in an intimate or trust based relationship unable to represent themselves in writing or unable to offer meaningful consent to their representation by someone else Of primary importance is intimate life writing that done within families or

couples close relationships or quasi professional relationships that involve trust rather than conventional biography which can be written by a stranger The closer the relationship between writer and subject the greater the vulnerability or dependency of the subject the higher the ethical stakes and the more urgent the need for ethical scrutiny from the Preface

Vulnerable Subjects explores a range of life writing scenarios from the celebrity to the ethnographic and a number of life writing genres from parental memoir to literary case studies by Oliver Sacks G Thomas Couser addresses complex contemporary issues he investigates the role of disability in narratives of euthanasia and explores the implications of the Human Genome Project for life writing practices in any age when many regard DNA as a code that scripts lives and shapes identity Throughout his book is concerned with the ethical implications of the political and economic as well as the mimetic aspects of life writing

Pluralist Politics, Relational Worlds Didier Zúñiga, 2022-12-21 In *Pluralist Politics Relational Worlds* Didier Zúñiga examines the possibility for dialogue and mutual understanding in human and more than human worlds The book responds to the need to find more democratic ways of listening to giving voice to and caring for the variety of beings that inhabit the earth Drawing on ecology and sustainability in democratic theory Zúñiga demonstrates the transformative potential of a relational ethics that is not only concerned with human animals but also with the multiplicity of beings on earth and the relationships in which they are enmeshed The book offers ways of cultivating and fostering the kinds of relations that are needed to maintain human and more than human diversity in order for life to persist It also calls attention to the quality of the relationships that are needed for life to flourish advancing our understanding of the diversity of pluralism

Pluralist Politics Relational Worlds ultimately presses us to question our own condition of human animality so that we may reconsider the relations we entertain with one another and with more than human forms of life on earth
