Hair, Headwear, and Orthodox Jewish Women Amy K. Milligan, 2014-09-24 *Hair Headwear and Orthodox Jewish Women* comments on hair covering based on an ethnographic study of the lives of Orthodox Jewish women in a small non metropolitan synagogue It brings the often overlooked stories of these women to the forefront and probes questions as to how their location in a small community affects their behavioral choices particularly regarding the folk practice of hair covering A kallah or bride makes the decision as to whether or not she will cover her hair after marriage In doing so she externally announces her religious affiliation in particular her commitment to maintaining an Orthodox Jewish home Hair covering practices are also unique to women s traditions and point out the importance of examining the women especially because their cultural roles may be marginalized in studies as a result of their lack of a central role in worship This study questions their contribution to Orthodoxy as well as their concept of Jewish identity and the ways in which they negotiate this identity with ritualized and traditional behavior ultimately bringing into question the meaning of tradition in a modern world

Systems Paradigm Luciano L'Abate, 2013-05-30 This monograph owes its origins to the decades old proposal by David Bakan 1968 about the duality of human experience He proposed that community and agency would be two necessary and sufficient constructs to classify and to encompass most human relationships This dichotomy has been found to be valid by a variety of contributions over the last half a century L'Abate 2009 L'Abate Cusinato Maino Colesso Scilletta 2010 Additionally the purpose of this book is to argue and assert that two important fields of psychology family and personality psychology if not already dead are conceptually empirically and practically moribund They are being superseded respectively by perhaps more appropriate perhaps more specific and more likely verifiable concepts and constructs such as intimacy and identity The traditional family still conceived as composed by two parents and two children of different gender is responsible for only one fourth of all domiciles in USA Singles same sex couples and completely different family organization complete the remaining 100% Difficulties in defining what is personality require a change in perspective and advance toward a comprehensive theory of human relationships that can and should fulfill requirements necessary to achieve an undoubtedly grandiose and ambitious universal status *Nurses and Their Patients* Louise Tew, Michael Rafferty, Mary Paget, 2009 Research has shown that a patient's emotional state can definitely affect the physical processes of disease and recovery For patients undergoing hospital treatment their relationships with nursing staff may have a major influence on their emotions and thus affect their ability to cope with their condition This book explores the importance of the nurse-patient relationship in the light of psychoanalytic theory Written by contributors from many different nursing backgrounds ranging from mental health to paediatrics to palliative care *Nurses and Their Patients* also includes a number of practical case studies and a section on research and clinical supervision Anyone involved in caring for patients will find this book helpful inspiring and thought provoking
