Religion And Politics Islam And Muslim Civilisation:

Religion and Politics Jan-Erik Lane, Hamadi Redissi, Riyāḍ Ṣaydāwī, 2009 Offering a timely new appraisal of the political and social impact of Islam this expanded second edition of Religion and Politics has been fully updated in line with new events Jan Erik Lane and Hamadi Redissi look at the underlying social consequences of religious beliefs to account for the political differences between major civilizations of the world against a background of the rise of modern capitalism

Religion and Politics Jan-Erik Lane, Hamadi Redissi, 2020-07-24 Offering a timely new appraisal of the political and social impact of Islam Religion and Politics will be welcomed by political scientists and historians alike In this work Jan Erik Lane and Hamadi Redissi employ a Weberian approach underlining the social consequences of religious beliefs to account for the political differences between the major civilizations of the world against the background of the rise of modern capitalism in the Occidental sphere Compared with Weber and his emphasis upon economic modernization the perspective on religion is broadened to encompass post modernity particular attention is paid to human rights and the rule of law This thought provoking work raises the question of whether the tenets of Islam might be reconciled with the requirements of post modernity

Religion and Politics Professor Hamadi Redissi, Professor Jan-Erik Lane, 2013-03-28 Muslim societies are struggling under the need for modernization and the drift towards Islamic fundamentalism The balance between these two forces is struck differently in the various Muslim societies depending upon the constellation of groups as historical legacies However the tension is real In this work Jan Erik Lane and Hamadi Redissi look at the underlying social consequences of religious beliefs to account for the political differences between major civilizations of the world against a background of the rise of modern capitalism Offering a timely new appraisal of the political and social impact of Islam this expanded second edition of Religion and Politics has been fully updated in line with new events and will be welcomed by political scientists and historians alike In a readable and accessible style this thought provoking work raises the question of whether the tenets of Islam might be reconciled with the requirements of post modernity

War and Law in the Islamic World Matthias Vanhullebusch, 2015-06-05 A three part investigation on the origins and evolving roles that Islamic law and international humanitarian law have played in regulating conflict and violence War and Law in the Islamic World brings to light legal and policy complexities that plague modern day armed conflict in the region

Saudi Clerics and Shi'a Islam Raihan Ismail, 2016-03-07 The Saudi ulama are known for their strong opposition to Shi'a theology Shi'a communities in Saudi Arabia and external Shi'a influences such as Iran and Hezbollah Their potent hostility combined with the influence of the ulama within the Saudi state and the Muslim world has led some commentators to blame the Saudi ulama for what they see as growing sectarian conflict in the Middle East However there is very little understanding of what reasoning lies behind the positions of the ulama and there is a significant gap in the literature dealing with the polemics directed at the Shi'a by the Saudi religious establishment In Saudi Clerics and Shi'a Islam Raihan Ismail looks at the discourse of the Saudi ulama

regarding Shiism and Shi'a communities analysing their sermons lectures publications and religious rulings The book finds that the attitudes of the ulama are not only governed by their theological convictions regarding Shiism but are motivated by political events involving the Shi'a within the Saudi state and abroad It also discovers that political events affect the intensity and frequency of the rhetoric of the ulama at any given time *The Routledge Handbook to Religion and Political Parties* Jeffrey Haynes, 2019-11-28 As religion and politics become ever more intertwined relationships between religion and political parties are of increasing global political significance This handbook responds to that development providing important results of current research involving religion and politics focusing on democratisation democracy party platform formation party moderation and secularisation social constituency representation and interest articulation Covering core issues new debates and country case studies the handbook provides a comprehensive overview of fundamentals and new directions in the subject Adopting a comparative approach it examines the relationships between religion and political parties in a variety of contexts regions and countries with a focus on Christianity Islam Buddhism Judaism and Hinduism Contributions cover such topics as religion secularisation and modernisation religious fundamentalism and terrorism the role of religion in conflict resolution and peacebuilding religion and its connection to state democratisation and democracy and regional case studies covering Asia the Americas Europe Sub Saharan Africa the Middle East and North Africa This comprehensive handbook provides crucial information for students researchers and professionals researching the topics of politics religion comparative politics secularism religious movements political parties and interest groups and religion and sociology *The Routledge Handbook of Terrorism Research* Alex Schmid, 2011-02-25 This major new Handbook synthesises more than two decades of scholarly research and provides a comprehensive overview of the field of terrorism studies The content of the Handbook is based on the responses to a questionnaire by nearly 100 experts from more than 20 countries as well as the specific expertise and experience of the volume editor and the various contributors Together they guide the reader through the voluminous literature on terrorism and propose a new consensus definition of terrorism based on an extensive review of existing conceptualisations The work also features a large collection of typologies and surveys a wide range of theories of terrorism Additional chapters survey terrorist databases and provide a guide to available resources on terrorism in libraries and on the Internet It also includes the most comprehensive World Directory of Extremist Terrorist and other Organizations associated with Guerrilla Warfare Political Violence Protest and Organized and Cyber Crime The Routledge Handbook of Terrorism Research will be an essential work of reference for students and researchers of terrorism and political violence security studies criminology political science and international relations and of great interest to policymakers and professionals in the field of counter terrorism *The Routledge Handbook of Terrorism Research* Alex Peter Schmid, 2011 This volume is a monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources which is now being revised and updated as a resource for the expanding community of researchers on the subject of

terrorism Religious Liberty in Western and Islamic Law Kristine Kalanges, 2012-04-19 Weaves together international and comparative law religion international relations comparative politics and legal history to illuminate and address the theoretical and practical dimensions of a significant human rights problem **Inside Jihadism** Farhad Khosrokhavar, 2015-12-03 Jihad is the most organized force against Western capitalism since the Soviet era Yet jihadism is multifaceted and complex much broader than Al Qaeda alone In the first wide ranging introduction to today s rapidly growing jihadism Khosrokhavar explains how two key movements variously influence jihadi activists One based in the Middle East is more heavily influenced by Islamic religion and political thought The other composed of individuals growing up or living mostly in Europe and Western democracies including the United States is motivated by secular as well as religious influences Khosrokhavar interprets religious and lesser known Arabic texts and the real world economic and political dynamics that make jihadism a growing threat to Western democracies Interviews with imprisoned jihadists on what motivated their plots and actions help the readers understand reality as seen by jihadists The author concludes with recommendations to safeguard democracies from future jihadism
