## **Religion Pluralism And Public Life Abraham Kuypers Legacy For The Twenty First Century:**

*Religion, Pluralism, and Public Life* Luis E. Lugo, 2000 Abraham Kuypers Christian vision of society communicated in the famous Stone Lectures one hundred years ago remains influential worldwide In this volume an international cast of scholars reflects on Kuypers social and political thought and its meaning for contemporary public life These penetrating essays explore from an interdisciplinary perspective how a Christian worldview can help address the most pressing issues of twenty first century civilization religious pluralism civil society and globalization **Abraham Kuypers** James D. Bratt, 2013-05-01

Larson, 2015-09-30 Students of Reformed theology recognize that Abraham Kuypers was one of the premier theologians of the last two centuries He was also a notable politician founding the Antirevolutionary Party and serving as a member of the Dutch Parliament and eventually becoming prime minister of the Netherlands He produced a body of neo Calvinist political thought that has enduring value for the political engagement of the Christian community in our time His political theory stands in continuity with John Calvin s doctrine of the church and social reformation even as the current James Madison s teaching on church and state impacted it While contemporary Kuypersians at times reflect a leftward political orientation Kuypers was a champion of political conservatism who stood in the trajectory of fundamental conservative principles affirmed by Edmund Burke and more recently by Ronald Reagan He believed that the conservative emphasis upon natural law the need for limited government and the importance of freedom was rooted in biblical revelation and was therefore valid for all nations at all times

Abraham Kuypers Richard J. Mouw, 2011-06-11 Richard Mouw was first drawn to Abraham Kuypers writings about public life in the turbulent 1960s As he struggled to find the right Christian stance toward big social issues such as the civil rights movement and the Vietnam War Mouw discovered Kuypers Lectures on Calvinism and with it a robust vision of active Christian involvement in public life that has guided him ever since In this short and personal introduction Mouw sets forth Kuypers main ideas on Christian cultural discipleship including his views on sphere sovereignty the antithesis common grace and more Mouw looks at ways to update and in some places even correct Kuypers thought as he applies it to such twenty first century issues as religious and cultural pluralism technology and the challenge of

Christians and Civil Government J. Peter Hill, 2021-07-27 Civil government is what we often call the state which shares characteristics with other institutions But unlike any other institution the state can encourage or compel people to do certain things It sometimes has the legitimate authority to deprive us of life liberty and property The Bible tells us that it and our human governors are ordained by God The key question this book asks is What has God taught us about the state The author also explores other questions such as Have we uncritically accepted ideas about civil government from our culture Is our political identity adequately characterized as conservative or progressive or should there be something more What does the Old Testament teach us about civil government What can we learn from Jesus's relationship with the political powers of his day This book also highlights the apostles' interaction with local and Roman authorities and how the doctrinal statements of thoughtful Christians of the past should inform our views of civil government Challenge political assumptions and ground your thinking in ways to honor God with the wisdom in *Christians and Civil Government*

Russel Botman Albert Grundlingh, 2017-10-18 This celebratory volume tells the story of the late Russel Hayman Botman who died suddenly early in his second term as Rector and Vice Chancellor of Stellenbosch University Botman's story is told from his earliest childhood years until his last day as rector The nature of tributes and celebratory volumes is that it can never be exhaustive It tells a rich story from limited perspectives It however serves as invitation stimulus and inspiration to others connected to Botman to also tell their stories about his story

**Methods of Ethical Analysis** Nimi Wariboko, 2013-04-16 The book is about showing different ways of doing ethics highlighting a kind of methodological pluralism This book attempts to relate the difference in methodology and perspective to difference in identity focal point of analysis or projects of persuasion Difference matters ultimately because pluralism matters This book is a tutorial in ethical analysis and reasoning Seminarians and graduate students will be brought into the finer points of ethical analysis of mastering the ins and outs of ethical methodology by immersing themselves in critical social ethical analyses of prominent scholars in the American academy Students will be guided toward how to develop their own voice in social issues hone their capability in social analysis and critically engage the social sciences history philosophy and literature as they embark on ethical analyses There is no single way of teaching the methodology of social ethics and no single theory of ethics that satisfies all therefore ethics and its methodology are better understood by enabling students to view the field through multiple windows Simultaneously they will learn to view social reality from different perspectives The seven chapters of this book explore the different ways American ethicists have interrogated their nation's moral systems or crafted methods for understanding them

**Christianity and Civil Society** Jeanne Heffernan Schindler, 2008-01-01 Christianity and Civil Society responds to the crisis of American democracy as perceived by such diverse thinkers as Christopher Lasch Michael Sandel Mary Ann Glendon and Robert Putnam Despite their philosophical differences these thinkers highlight a common

theme a decline in the institutions of civil society once held to be the vital center of the American polity. In place of these institutions such as the family, neighborhood, church, and civic associations, one finds a disturbingly reduced socio-political stage dominated by an abstract triumvirate of the individual, state, and market as prime actors. Whether taking their inspiration from the political theology of St. Thomas Aquinas and papal encyclicals or from John Calvin and his heirs in the Reformed traditions, the authors assembled here find the doctrinal resources of Christianity indispensable to defending the irreducible identity and value of the social institutions that serve as the connective tissue of a political community. By drawing upon a treasury of social thought little known to most Americans, Christianity and Civil Society offers a fresh vantage point from which to assess the crisis of our polity as well as the best prospects for its renewal. **Faith in the Living God, 2nd Edition**

John Polkinghorne, Michael Welker, 2019-04-12 In this book John Polkinghorne and Michael Welker explain how they understand faith in the living God. Between them they offer a binocular vision from their twin perspectives to yield helpful insight in relation to the important issues. Part of the fascination of this book is how two people with such different backgrounds approach central theological questions relating to the faith they both share. Their concerns are truth rather than polemics, reliability rather than simple certainty. They seek to anchor their thought in concrete particulars rather than abstract generalizations. They ask the questions that trouble the inquiring mind and meet head-on the challenge as well as the reassurances of belief. This second edition provides a new Preface and updated bibliographies. **Herman Dooyeweerd**

Jonathan Chaplin, 2016-02-15 The twentieth-century Dutch philosopher Herman Dooyeweerd (1894-1977) left behind an impressive canon of philosophical works and has continued to influence a scholarly community in Europe and North America which has extended, critiqued, and applied his thought in many academic fields. Jonathan Chaplin introduces Dooyeweerd for the first time to many English readers by critically expounding Dooyeweerd's social and political thought and by exhibiting its pertinence to contemporary civil society debates. Chaplin begins by contextualizing Dooyeweerd's thought first in relation to present-day debates and then in relation to the work of the Dutch philosopher Abraham Kuyper (1837-1920). Chaplin outlines the distinctive theory of historical and cultural development that serves as an essential backdrop to Dooyeweerd's substantive social philosophy, examines Dooyeweerd's notion of societal structural principles, and sets forth his complex classification of particular types of social structure and their various interrelationships. Chaplin provides a detailed examination of Dooyeweerd's theory of the state, its definitive nature, and its proper role vis-à-vis other elements of society. Dooyeweerd's contributions, Chaplin concludes, assist us in mapping the ways in which state and civil society should be related to achieve justice and the public good. *The Challenges of Cultural Discipleship* Richard J. Mouw, 2011-11-21

Richard J. Mouw is well known for his incisive views on the intersection of culture and Christianity and for his efforts to make the thought of major Dutch theologian Abraham Kuyper accessible to average Christians. In this volume, Mouw provides the scholarly backstory to his popular books as he interprets, applies, expands on, and at times even corrects Kuyper's remarkable

vision for faith and public life In thirteen essays Mouw explores and develops the Kuyperian perspective on key topics in Christian cultural discipleship including public theology sphere sovereignty education creation and more He deftly articulates an ecumenically enriched neo Calvinist or neo Kuyperian perspective that appropriates and contextualizes the ideas and insights of this important theologian and statesman for new challenges in Christian thought and service [Saving the Protestant Ethic](#) Andrew Lynn,2023 Andrew Lynn draws on archival research and interviews with movement leaders to survey and assess the surging number of new organizations books conferences worship songs seminary classes vocational programming and study groups promoting classically Protestant and Calvinist ideas of work and vocation with American Evangelicalism

**God and Humanity** Nathaniel Gray Sutanto,2024-07-11 This is the first book to apply Bavinck s theological anthropology to contemporary theological issues Sutanto provides a sustained close reading of Herman Bavinck s contributions to theological anthropology and positions him in conversation with current and historical dialogues on embodiment revelation affect theory phenomenology the cognitive science of religion ethics race covenant and the beatific vision Sutanto explores the holistic character of Bavinck s vision of humanity suggesting ways in which his theological anthropology cuts across several potential binaries in contemporary discourse between affect and reason body and soul animality and religiosity unity and diversity and between a this worldly or other worldly eschatology

**Christianity and Family Law** John Witte, Jr,Gary S. Hauk,2017-10-12 The Western tradition has always cherished the family as an essential foundation of a just and orderly society and thus accorded it special legal and religious protection Christianity embraced this teaching from the start and many of the basics of Western family law were shaped by the Christian theologies of nature sacrament and covenant This volume introduces readers to the enduring and evolving Christian norms and teachings on betrothals and weddings marriage and divorce women s and children s rights marital property and inheritance and human sexuality and intimate relationships The chapters are authoritatively written but accessible to college and graduate students and scholars as well as clergy and laity While alert to the hot button issues of sexual liberty today the contributing authors let the historical figures speak for themselves about what Christianity has and can contribute to the protection and guidance of our most intimate association

**God and the EU** Jonathan Chaplin,Gary Wilton,2015-12-14 The current political economic and financial crises facing the EU reveal a deeper cultural indeed spiritual malaise a crisis in the soul of Europe Many observers are concluding that the soul of Europe cannot be restored to health without a new appreciation of the contribution of religion to its past and future and especially that of its hugely important but widely neglected Christian heritage which is alive today even amidst advancing European secularization This book offers a fresh constructive and critical understanding of Christian contributions to the origin and development of the EU from a variety of theological and national perspectives It explains the Christian origins of the EU documents the various ways in which it has been both affirmed and critiqued from diverse theological perspectives offers expert theologically informed assessments of four illustrative policy areas of the EU

trade finance environment science and also reports on the place of religion in the EU including how religious freedom is framed and how contemporary religious including Muslim actors relate to EU institutions and vice versa The book fills a major gap in the current debate about the future of the European project and will be of interest to students and scholars of religion politics and European studies *Christian in Public* L. D. Hansen, 2008-02-01 Higher education has not escaped the imperative of transformation which has marked the post apartheid South African landscape The nature of the changes at universities however is open to critique Fundamental questions concerning the ideological moorings of knowledge and the politics of the curriculum have not yet been satisfactorily addressed During the apartheid era theology faculties played influential roles at traditional universities and were often characterised by unsettling exclusion of non Christian religions non Calvinist denominations and marginalised voices This volume of essays evidences a process at the University of the Free State's Faculty of Theology to reflect seriously about the need for transformation at the fundamental level that is of knowledge The challenge for theology at a public university is framed in terms of epistemological transformation A number of outstanding public intellectuals such as Jonathan Jansen Crain Soudien and Lis Lange have been invited to present papers to clarify the conceptual challenge and what this might entail for theology Well known theologians such as Conrad Wethmar Allan Boesak and Martin Prozesky reflect on the nature of theology and religion at universities amidst social exigencies Two international theologians Harold Attridge from the prestigious Yale Divinity School and Bram van de Beek from the Free University of Amsterdam share their experiences of institutions that exemplify excellence and ecumenical openness Theologians from the Departments of Practical Theology and Systematic Theology at the University of the Free State writing from the inside articulate the challenges they envision for theology in a post apartheid dispensation The essays represent a variety of perspectives but all attest to a commitment to re think the nature and task of theology at a public university accepting the challenge of knowledge and power of plurality and otherness and of restorative intellectual justice These timely essays make a unique contribution to the discourses on transformation and on theology at a public university **Church, State, and Citizen** Sandra Fullerton Joireman, 2009 Christians are often portrayed as sharing the same political opinions and the same theological foundations for their actions Yet from the time of the early church believers have held a variety of perspectives on the relationship between church and state and what constitutes legitimate political behavior for Christian citizens Thoroughly Christian political beliefs run the gamut from disavowal of any political responsibility to a complete endorsement of government policies and the belief that the state has been divinely appointed In *Church State and Citizen* Sandra F Joireman has gathered political scientists to examine the relationship between religion and politics as seen from within seven Christian traditions Catholic Lutheran Reformed Anabaptist Anglican Evangelical and Pentecostal In each chapter the historical and theological foundations of the tradition are described along with the beliefs regarding the appropriate role of the state and citizen While all Christian traditions share certain beliefs about faith e g human sin salvation

Christ's atonement and political life e.g. limited government human rights the incompleteness and partiality of all political action there are also profound differences The authors discuss the contemporary implications of these beliefs both in the United States and in other areas of the world where Christianity is showing increasing vigor **The Power of the Church** Michael R. Wagenman, 2020-11-20 It is fascinating that in all the media reports and discussions of the church's abuse of power in the early years of the twenty first century few if any seemed to notice that the accusation of the church's misuse of power presupposed a shared understanding of the positive use of power within the church that had been violated Rather than an interest in the sociological aspect of this question this book examines the more ontological and normative aspects of it That is it investigates and discerns the foundational theological framework of culture and society and the location and purpose of the church within them As a cultural force and societal institution what does the church constructively bring to the human community *The Pretenses of Loyalty* John Perry, 2011-07-06 In the face of ongoing religious conflicts and unending culture wars what are we to make of liberalism's promise that it alone can arbitrate between church and state In this wide ranging study John Perry examines the roots of our thinking on religion and politics placing the early modern founders of liberalism in conversation with today's theologians and political philosophers From the story of Antigone to debates about homosexuality and bans on religious attire it is clear that liberalism's promise to solve all theopolitical conflict is a false hope The philosophy connecting John Locke to John Rawls seeks a world free of tragic dilemmas where there can be no Antigones Perry rejects this as an illusion Disputes like the culture wars cannot be adequately comprehended as border encroachments presided over by an impartial judge Instead theopolitical conflict must be considered a contest of loyalties within each citizen and believer Drawing on critics of Rawls ranging from Michael Sandel to Stanley Hauerwas Perry identifies what he calls a turn to loyalty by those who recognize the inadequacy of our usual thinking on the public place of religion The Pretenses of Loyalty offers groundbreaking analysis of the overlooked early work of Locke where liberalism's founder himself opposed toleration Perry discovers that Locke made a turn to loyalty analogous to that of today's communitarian critics Liberal toleration is thus more sophisticated more theologically subtle and ultimately more problematic than has been supposed It demands not only governmental neutrality as Rawls believed but also a reworked political theology Yet this must remain under suspicion for Christians because it places religion in the service of the state Perry concludes by suggesting where we might turn next looking beyond our usual boundaries to possibilities obscured by the liberalism we have inherited
