Religion And Imagination:

Religion and Imagination John Coulson, 1981 *Imagining God* Garrett Green, 1989 Studies in Religious Imagination and Symbolism Albert D'Souza, 2005 *Faith and the Play of Imagination* David J. Bryant, 1989 The Religious Imagination and the Sense of God John Bowker, 1978 Oxford Scholarly Classics is a new series that makes available again great academic works from the archives of Oxford University Press Reissued in uniform series design the reissues will enable libraries scholars and students to gain fresh access to some of the finest scholarship of the last century **The Way of Transfiguration** Stanley Romaine Hopper, 1992 Stanley Romaine Hopper developed a religious perspective called theopoiesis that embraced twentieth century cultural revolutions in theology poetry philosophy and psychology In this long awaited book Hopper explores imaginative literature for religious meaning The evocative and transformative power of the poetic makes his approach a revelatory theology that does not refer to a supernatural object but opens the reader to divine mystery in the depths of self and world Hopper investigates texts of poets philosophers theologians and psychologists and examines the significance of metaphors symbols myths irony paradoxes parables and anecdotes *Holy Tears* Kimberley Christine Patton, John Stratton Hawley, 2005-07-25 What religion does not serve as a theater of tears Holy Tears addresses this all but universal phenomenon with passion and precision ranging from Mycenaean Greece up through the tragedy of 9 11 Sixteen authors including many leading voices in the study of religion offer essays on specific topics in religious weeping while also considering broader issues such as gender memory physiology and spontaneity A comprehensive elegantly written introduction offers a key to these topics Given the pervasiveness of its theme it is remarkable that this book is the first of its kind and it is long overdue The essays ask such questions as Is religious weeping primal or culturally constructed Is it universal Is it spontaneous Does God ever cry Is religious weeping altered by sexual or social roles Is it perhaps at once scripted and spontaneous private and communal Is it indeed divine The grief occasioned by 9 11 and violence in Afghanistan Iraq Israel and elsewhere offers a poignant context for this fascinating and richly detailed book Holy Tears concludes with a compelling meditation on the theology of weeping that emerged from pastoral responses to 9 11 as described in the editors interview with Reverend Betsee Parker who became head chaplain for the Office of the Chief Medical Examiner of New York City and leader of the multifaith chaplaincy team at Ground Zero The contributors are Diane Apostolos Cappelletti Amy Bard Herbert Basser Santha Bhattacharji William Chittick Gary Ebersole M David Eckel John Hawley Gay Lynch Jacob Ol pgn with Sol Aj b d Betsee Parker Kimberley Patton Nehemia Polen Kay Read and Kallistos Ware **Tradition and Imagination** David Brown, 1999 Tradition and revelation are often seen as opposites tradition is viewed as being secondary and reactionary to revelation which is a one off gift from God Drawing on examples from Christian history Judaism Islam and the classical world this book challenges these definitions and presents a controversial examination of the effect history and cultural development has on religious belief its narratives and art David Brown pays close attention to the nature of the

relationship between historical and imaginative truth and focuses on the way stories from the Bible have not stood still but are subject to imaginative rewriting This rewriting is explained as a natural consequence of the interaction between religion and history God speaks to humanity through the imagination and human imagination is influenced by historical context It is the imagination that ensures that religion continues to develop in new and challenging ways *Religious Imaginations* James Walters, 2018-12-15 Market globalization technology climate change and postcolonial political forces are together forging a new more modern world However caught up in the mix are some powerful religious narratives that are galvanizing peoples and reimagining and sometimes stifling the political and social order Some are repressive fundamentalist imaginations such as the so called Islamic Caliphate Others could be described as post religious such as the evolution of universal human rights out of the European Christian tradition But the question of the compatibility of these religious worldviews particularly those that have emerged out of the Abrahamic faith traditions is perhaps the most pressing issue in global stability today What scope for dialogue is there between the Jewish Muslim and Christian ways of imagining the future How can we engage with these multiple imaginations to create a shared and peaceful global society *Religious Imaginations* is an interdisciplinary volume of both new and well known scholars exploring how religious narratives interact with the contemporary geopolitical climate *Politics and the Religious Imagination* John H.A. Dyck, Paul S. Rowe, Jens Zimmermann, 2010-06-10 *Politics and the Religious Imagination* is the product of a group of interdisciplinary scholars each analyzing the connections between religious narratives and the construction of regional and global politics combining a set of theoretical and philosophic insights with several case studies that represent varied geographies and religious customs The past decade has seen increasing interest in the links between religion and politics and this edited volume seeks to take religion seriously as a motivator of action Few studies have attempted to bring together the multi disciplinary work in this burgeoning field of study and this work takes a global perspective using a variety of contexts including East West relations to analyze the following key themes the constructive and destructive hermeneutics of religious stories the relevance and importance of religion as a dominant political narrative the rise of new stories among groups as agents of change the way that religious narratives help to define and constrain the Other the manipulation of religious stories for political benefit This work argues that it is insufficient to judge the relationship of religion and politics through mere institutional or quantitative lenses and this collection proves that while this promise of the narrative part of the social imaginary has been recognized in political theory to a certain extent its influence in the realm of empirical political science has yet to be fully considered Combining the work of a wide range of experts this collection will be of great interests to scholars of politics philosophy religious studies and the literary influence of religion
