Religious Freedom In The World A Global Report On Freedom And Persecution:

Religious Freedom in the World Paul A. Marshall, 2008 This survey describes and rates countries using criteria based on international law it parallels the surveys produced for Freedom in the World and Freedom of the Press It profiles countries in short narrative sketches comparatively ranks them according to criteria of religious freedom for all religious groups and features essays by experts explaining current relevant issues and trends *State-Religion Relationships and Human Rights Law* Jeroen Temperman, 2010 This book presents a human rights based assessment of the various modes of state religion identification and of the various forms of state practice that characterize these different state religion models This book makes a case for the recognition of a state duty to remain impartial with respect to religion or belief in all regards so as to comply with people's fundamental right to be governed at all times in a religiously neutral manner As this book demonstrates through the various case studies there is increasing interest and concern at the manner in which questions concerning the enjoyment of the right to the freedom of religion or belief bear upon key questions concerning the governance of democratic society Issues raised involve matters concerning employment education expression association and more generally the interface between religion and political life The existing literature often traces these concerns back to the need to consider the place of religion in contemporary society but leaves matters there Another body of academic literature explores the theoretical dimensions of that relationship but fails to connect it to the practice of states in order to test out the propositions which are the product of these reflections The great virtue of this work is that it seeks to unite these various enterprises and engages head on with the challenges which this produces The aim is to demonstrate and illustrate the key contention that there is an emergent right to religiously neutral governance and that this is incompatible with the continuation of systems which offer preference to particular forms of belief system religious or otherwise A chief virtue of this book is that it works through the consequences of this claim in a fearless fashion posing challenges for those states which continue to use their legal frameworks to offer support directly or indirectly for historical dominant or favoured forms of religion or belief It challenges received assumptions and by driving the logic of contemporary human rights thinking to the foundations of state religion relationships performs a valuable service for those engaging with this most difficult and timely of questions Malcolm D Evans Professor of Public International Law University of Bristol *Sacred and Secular* Pippa Norris, Ronald Inglehart, 2011-10-17 This book develops a theory of existential security It demonstrates that the publics of virtually all advanced industrial societies have been moving toward more secular orientations during the past half century but also that the world as a whole now has more people with traditional religious views than ever before This second edition expands the theory and provides new and updated evidence from a broad perspective and in a wide range of countries This confirms that religiosity persists most strongly among vulnerable populations especially in poorer nations and in failed states Conversely a systematic erosion of religious practices values and beliefs has occurred among the more prosperous strata in

rich nations *Freeing God's Children* Allen D. Hertzke, 2006 With the dawning of the 21st Century a new human rights movement burst unexpectedly onto the global stage Initially motivated by concern for persecuted Christians around the world unlikely alliances emerged and the movement grew to encompass a broader quest for human rights Now American evangelicals provide grassroots muscle for causes joined by a wide array of activists from Jews to Catholics feminists to Pentecostals African American leaders to Tibetan Buddhists in the most important human rights movement since the end of the Cold War Given unprecedented insider access author Allen D Hertzke charts the rise of this faith based movement for global human rights and tells the compelling story of the personalities and forces clashes and compromises strategies and protests that shape it In doing so Hertzke shows that by bringing attention to issues like religious persecution Sudanese atrocities North Korean gulags and sex trafficking the movement is shaping American foreign policy and international relations in ways unimaginable a decade ago **The World's Religions in Figures** Todd M. Johnson, Brian J.

Grim, 2013-03-25 Created by two of the field's leading experts this unique introduction to international religious demography outlines the challenges in interpreting data on religious adherence and presents a contemporary portrait of global religious belief Offers the first comprehensive overview of the field of international religious demography detailing what we know about religious adherents around the world and how we know it Examines religious freedom and diversity including agnostics and atheists on a global scale highlighting trends over the past 100 years and projecting estimates for the year 2050 Outlines the issues and challenges related to definitions taxonomies sources analyses and other techniques in interpreting data on religious adherence Considers data from religious communities censuses surveys and scholarly research along with several in depth case studies on the global Muslim population religion in China and the religious demography of recently created Sudan and South Sudan Argues against the belief that the twentieth century was a secular period by putting forward new evidence to the contrary Provides resources for measuring both qualitatively and quantitatively important data on the world's religious situation in the twenty first century Political Secularism, Religion, and the State Jonathan

Fox, 2015-04-27 This book examines how the competition between religious and secular forces influenced state religion policy between 1990 and 2008 While both sides were active the religious side had considerably more success The book examines how states supported religion as well as how they restricted it **Missions in Context of Violence** Keith E.

Eitel, 2007-09-15 This volume deals with the contexts of violence In an age of increasing concern for this type of missionary work the missions community needs to hear from those that have reflected on the multifaceted elements involved in understanding the phenomenon of martyrdom persecution violence as it relates to telling the age old Gospel story The place to begin is with Biblical and theological analysis followed by the grounding provided by constructing consequent lifestyles strategies and practices in physically risky settings Finally insights from the live settings of violence are warranted

Radical Islam's Rules Paul Marshall, 2005-02-25 A major feature of the rise of Islamism in the Middle East Asia Africa and

parts of the West is the rapid growth of a starkly repressive version of Islamic shari a law often fueled by funds and support from Saudi Arabia The central purpose of Islamists including terrorists is to impose such law in all Muslim lands and then throughout the world in a new Caliphate Despite its importance this worldwide growth of extreme shari a is under documented and little understood By a comparative study over the last twenty five years of Saudi Arabia Iran Pakistan Sudan Nigeria Malaysia and Indonesia this book shows its terrible effects on human rights especially the status of women and religious freedom of Muslims as well as religious minorities and on democracy itself It also shows that such laws are a direct threat to the American interest of advancing democracy and human rights that the United States lacks a policy for dealing with the spread of extreme shari a and concludes with policy recommendations for the United States regarding specific countries confronting extreme shari a
