Jeremy Clarke, 2013-08-01 The Chinese Catholic Church traces its living roots back to the late sixteenth century and its historical roots back even further to the Yuan dynasty This book explores paintings and sculptures of the Virgin Mary and the communities that produced them over several centuries It argues for the emergence of distinctly Chinese Catholic identities as artistic representations of the Virgin Mary at different times and in different places absorbed and in turn influenced representations of Chinese figures from Guanyin to the Empress Dowager At other times indigenous styles have been diluted

by Western influences following the influx of European missionaries in the nineteenth century for example or with globalization in recent years The book engages with history theology and art and draws on imagery and archival photographs that have been largely neglected As a study of the social and cultural histories of communities that have survived over many centuries this book offers a new view of Catholicism in China one that sees its history as more than simply a cycle of persecution and resistance Fr Jeremy Clarke SJ is an Australian Province Jesuit teaching as an assistant professor in the History Department of Boston College He is also a school visitor in the Australian Center for China in the World at the Australian National University Canberra

The Politics of Protestant Churches and the Party-State in China Carsten Vala, 2017-09-06 Among China's restive religious and social groups Protestants have arguably created the most sustained structural challenges to the Chinese Communist Party's ordering of society By drawing on grassroots fieldwork conducted across the country this book therefore charts the ambition of the government to restrain Protestant population growth and direct it towards regime purposes In particular interviews with key church leaders who founded illegal Protestant congregations with hundreds of participants reveal how officials and illegal congregational leaders have developed ties of trust and information that have permitted church growth even as they preserve a public image of Party domination Thus by tracing the rise of large illegal Protestant congregations apart from Party state structures this book highlights the importance of the public behaviour of religious actors and regime officials in understanding the dynamics of negotiation domination and resistance in 21st century China Ultimately The Politics of Protestant Churches and the Party State in China paradoxically demonstrates that societal actors can alter the boundaries set by the Chinese Communist Party and the ways in which the Party is both more adaptive and resilient in its relations with society than first imagined Offering the first book length analysis of how ambitious Protestants have founded large unregistered churches despite regime pressure this book will be useful for students and scholars of Chinese Politics Chinese Religion and Sociology

Plantinga, 2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of faiths and religious practices from all continents are present in Europe and North America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today's radically context sensitive world
