Remaking Of The British Working Class 1840 194:

The Remaking of the British Working Class, 1840-1940 Andrew Miles, Mike Savage, 2013-02-01 Mike Savage and Andrew Miles provide a comprehensive introduction to the working class in Britain in the years after 1840 This textbook Includes a provocative timely and clear defence of class analysis Breaks new ground in showing how social mobility and urban change affected working class formation Demonstrates how the history of the working class is politically reconstructed Shows how class and gender interact in mediating social and political change *The British Working Class 1832-1940* Andrew August, 2014-06-11 In this insightful new study Andrew August examines the British working class in the period when Britain became a mature industrial power working men and women dominated massive new urban populations and the extension of suffrage brought them into the political nation for the first time Framing his subject chronologically but treating it thematically August gives a vivid account of working class life between the mid nineteenth and mid twentieth centuries examining the issues and concerns central to working class identity Identifying shared patterns of experience in the lives of workers he avoids the limitations of both traditional historiography dominated by economic determinism and party politics and the revisionism which too readily dismisses the importance of class in British society **Young Women, Work, and Family in England 1918-1950** Selina Todd, 2005-09-22 This fascinating account of young women s lives challenges existing assumptions about working class life and womanhood in England between the end of the First World War and the beginning of the 1950s While contemporaries commonly portrayed young women as pleasure loving leisure consumers this book argues that the world of work was in fact central to their life experiences Social and economic history are woven together to examine the working family and social lives of the maids factory workers shop assistants and clerks who made up the majority of England s young women Selina Todd traces the complex interaction between class gender and locale that shaped young women s roles at work and home indicating that paid work structured people s lives more profoundly than many social histories suggest Rich autobiographical accounts show that while poverty continued to constrain life choices young women also made their own history Far from being apathetic workers or pliant consumers they forged new patterns of occupational and social mobility were important breadwinners in working class homes developed a distinct youth culture and acted as workplace militants In doing so they helped to shape twentieth century society Change, Continuity and Class Neville Kirk, 1998 EU security governance assesses the effectiveness of the EU as a security actor The book has two distinct features Firstly it is the first systematic study of the different economic political and military instruments employed by the EU in the performance of four different security functions The book demonstrates that the EU has emerged as an important security actor not only in the non traditional areas of security but increasingly as an entity with force projection capabilities Secondly the book represents an important step towards redressing conceptual gaps in the study of security governance particularly as it pertains to the European Union The book links the challenges of governing Europe s security to the changing nature of the

state the evolutionary expansion of the security agenda and the growing obsolescence of the traditional forms and concepts of security cooperation Social Class and Marxism Neville Kirk,2017-07-05 In recent years historians and other social scientists have widely questioned the continued relevance of social class as historical relationship as sociological category as philosophical concept and in terms of its enduring political significance The success of the British Conservative Party since 1979 combined with the weaknesses and failures of the Labour movement have led historians and social scientists to reconsider the general nature of connections between the social and the political and the specific relations between the working class and socialist and Labour politics This collection of essays is a multi disciplinary critique of the new revisionism which demonstrates the continued vitality and promise of non reductionist and non determinist modes of class analysis

Hunger Movements in Early Victorian Literature Lesa Scholl,2016-05-05 In *Hunger Movements in Early Victorian Literature* Lesa Scholl explores the ways in which the language of starvation interacts with narratives of emotional and intellectual want to create a dynamic evolving notion of hunger Scholl s interdisciplinary study emphasises literary analysis sensory history and political economy to interrogate the progression of hunger in Britain from the early 1830s to the late 1860s Examining works by Charles Dickens Harriet Martineau George Eliot Elizabeth Gaskell Henry Mayhew and Charlotte Bronte Scholl argues for the centrality of hunger in social development and understanding She shows how the rhetoric of hunger moves beyond critiques of physical starvation to a paradigm in which the dominant narrative of civilisation is predicated on the continual progress and evolution of literal and metaphorical taste Her study makes a persuasive case for how hunger as a signifier of both individual and corporate ambition is a necessarily self interested and increasingly violent agent of progress within the discourse of political economy that emerged in the eighteenth century and subsequently shaped nineteenth century social and political life *Labour History Review* ,2004 Subject Guide to Books in Print ,1975

Canadian society Ferry examines a wide selection of voluntary societies mechanics institutes mutual benefit organizations agricultural associations temperance societies and literary and scientific associations He reinterprets the history of these organizations in terms of their own internal tensions over liberal doctrines and the effect of social cultural and economic change and compares the effects of liberalism on rural and urban associations and on societies in both English and French Canada Anchored with an array of archival documentation minute books lectures associational periodicals personal papers pamphlets and tracts *Uniting in Measures of Common Good* illuminates the experience of ordinary Canadians with the voluntary association movement and as well as the relations of the movement with the larger liberal society

Memories of Dress Alison Slater, Susan Atkin, Elizabeth Kealy-Morris, 2023-04-06 Memories of clothing feature prominently in auto biographies yet traditionally they have not been subjected to the same level of academic scrutiny as other sources *Memories of Dress* redresses this imbalance by bringing auto biographical memories to the centre of a new methodology for understanding fashion history material culture and other disciplines Presenting a comprehensive overview of theoretical and practice based approaches the book invites readers to explore the relations between clothing and memory through diverse examples ranging from oral histories of Madchester men and Hungarian socialist sewing to a quilt making autoethnography into the complexities of American racial heritage and imagined memories within museum collections Chapters by leading and emerging experts consider the ways in which dress is remembered and the ways that memories and nostalgia in turn influence everyday dress practices unpicking the meanings and motivations both collective and public personal and private behind the clothes we wear in different times places and life stages and the impact of class gender ethnicity and disability on material identities Uniquely weaving personal recollection with theory this multidisciplinary book offers new ways of understanding clothing material culture and memory
