Second Language Classroom Interaction:

Classroom Second Language Development Rod Ellis, 1984 *Second-language Classroom Interaction* Ann C. Wintergerst, 1994 This book analyzes teacher and student interaction in the context of twelve ESL lessons with the purpose of exploring the extent of student language output Research has confirmed that teacher speech dominates the second language classroom Not surprisingly teacher talk has been investigated in numerous studies but student talk has been largely overlooked this study addresses that imbalance Questions are one means of engaging student attention promoting verbal responses and evaluating student progress They facilitate interaction by establishing the topic the speaker and the respondent However as the author shows some teacher questions encourage communication while others inhibit it In this analysis of teacher and student questions and answers Professor Wintergerst offers new perspective on second language development and classroom learning in general BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Second and Foreign Language Learning Through Classroom Interaction Joan Kelly Hall, Lorrie Stoops Verplaetse, 2000-06 Brings together a set of papers that share the current theoretical interest in re conceptualizing second foreign language learning from a sociocultural perspective with practical concerns about second foreign language pedagogy

Understanding Interaction in the Second Language Classroom Context Noriko Iwashita, Phung Dao, Mai Xuan Nhat Chi Nguyen, 2025-03-07 This book provides an overview and analysis of the role that classroom interaction plays in instructed second language acquisition The authors synthesise current state of the art research on how classroom interaction benefits L2 learning through the lens of three theoretical perspectives cognitive interactionist with a focus on how conversational interaction may promote L2 processing and learning sociocultural which assumes that cognitive advances are located within social interaction and language socialisation which examines how learners position themselves and are positioned in social interaction and how they establish their membership in the target language community They go on to critically examine how findings from this research can be applied to classroom practice in diverse L2 settings they then provide pedagogical implications and suggested teaching activities to support L2 teachers and teacher educators in harnessing the benefits of classroom interaction for L2 learning **Interaction, Language Use, and Second Language Teaching** Thorsten Huth, 2020-09-01 This book presents a view of human language as social interaction illustrating its implications for language learning and second language teaching The volume advocates for researchers practitioners and administrators to rethink and reconceptualize an understanding of language beyond that of the written word to one encompassing social and interactional activity built on co construction collaboration and negotiation The book emphasizes the ways in which this view of language can shed light on the language learning process as one which draws on discrete linguistic units and constructions in conjunction with a range of temporal sequential and embodied resources across a variety of social contexts In turn these insights prompt further reflection and discussion on their implications for advancing second language teaching practice This

The Interactional Architecture of the Language Classroom Paul Seedhouse, 2004-10-01 Winner of the MLA Kenneth W. Mildenberger Prize 2005. This monograph provides a model of the organisation of L2 classroom interaction and a practical methodology for its analysis. The main thesis is that there is a reflexive relationship between pedagogy and interaction in the L2 classroom; this relationship is the foundation of its context-free architecture. Explains the basic principles of Conversation Analysis and reviews the literature on L2 classroom interaction. Portrays the reflexive relationship between the pedagogical focus of the interaction and the organisation of turn-taking sequence and repair. Describes the overall organisation of L2 classroom interaction and illustrates the use of the analytical methodology. Considers how Conversation Analysis can contribute to the research agendas of Applied Linguistics and Second Language Acquisition.
