Joachim Raff Helene Raff, 2012 Joachim Raff 1822 1882 a protégé of both Mendelssohn and Liszt was one of the most popular composers in the second half of the nineteenth century This book the only biography of him ever published is an essential source for anyone interested in his fascinating life and times and Alan Howe's splendid idiomatic and extremely readable translation makes it available in English for the first time Helene Raff's distinctively brisk voice objective and unsentimental in her judgement of her father is masterfully brought to life for today's readers This modern edition significantly enhances the original 1925 book with many illustrations extensively researched footnotes a complete work list and an index **Schubert Studies** Eva Badura-Skoda, Peter Branscombe, 2008-10-30 This collection of articles clarifies problems of style and chronology in the music Schubert composed during the last decade of his life *Zoltan Kodaly's World of Music* Anna Dalos, 2020-09-08 Hungarian composer and musician Zoltán Kodály 1882 1967 is best known for his pedagogical system the Kodály Method which has been influential in the development of music education around the world

Author Anna Dalos considers for the first time in publication Kodály's career beyond the classroom and provides a comprehensive assessment of his works as a composer. A noted collector of Hungarian folk music, Kodály adapted the traditional heritage musics in his own compositions, greatly influencing the work of his contemporary Béla Bartók. Highlighting Kodály's major music experiences, Dalos shows how his musical works were also inspired by Brahms, Wagner, Debussy, Palestrina, and Bach. Set against the backdrop of various oppressive regimes of twentieth-century Europe, this study of Kodály's career also explores decisive extramusical impulses such as his bitter experiences of World War I, Kodály's reception of classical antiquity, and his interpretation of the male and female roles in his music. Written by the leading Kodály expert, this impressive work of historical and musical insight provides a timely and much-needed English language treatment of the twentieth-century composer.

The Three Apostles of Russian Music Gregor Tassie, 2021-11-11. *The Three Apostles of Russian Music* looks at three figures in the Soviet avant-garde who led modernist music in the 1920s: Mosolov, Popov, and Roslavets. These remarkable musicians produced compositions like the sensational machine music *Foundry* by Mosolov. The first symphony by Popov attracted musicians in Europe and America but was banned after the premiere, while Roslavets discovered serialism before Schoenberg, opening up a new trend in modernism. This book is the first study in English of the work, lives, and legacies of these apostles of the Russian avant-garde.

Henry Holden Huss Gary A. Greene, 1995. Contains an annotated worklist with suggestions of Huss pieces for further exploration by performers, a list of his writings on musical topics, and numerous illustrations.

Weinzweig Brian Cherney, 2018-03-31. John Weinzweig (1913–2006) was the pre-eminent Canadian composer of his generation. Influenced by European modernists such as Stravinsky, Berg, and Webern, he was the first Canadian composer to employ serialism, thereby bringing a spirit of innovation to mid-twentieth-century Canadian music. A forceful advocate for modern Canadian composition, Weinzweig played a key role in the founding of the Canadian League of Composers and the Canadian Music Centre during a buoyant and expansive period for the arts in Canada. He was an influential force as a teacher of composition, first with the Royal Conservatory of Music and later with the University of Toronto's music faculty. This first comprehensive study of Weinzweig since his death consists of new essays by composers, theorists, and musicologists. It deals with biographical aspects, the social context of early twentieth-century Toronto, his activism, his teaching, his early scores for CBC Radio dramas, analyzes his compositional processes and his output, his approach to serialism, his instrumental practice, the presence of jazz elements, the vocal works, the divertimenti, and examines various evaluations of his music, his own in letters, interviews, talks, and writings, plus those of critics and scholars, of listeners, and of performers. The essays are framed by the co-editors' portrait, assessment of Weinzweig, and a brief personal memoir. Much of the content draws on new research in the extensive Weinzweig Fonds at Library and Archives Canada in Ottawa. Included at the end of the book are a <http://www.wlupress.wlu.ca> General Beckwith Cherney list of works discography pdf, List of Works by John Weinzweig by Kathleen

McMorrow and a Discography by David Olds both available here as pdfs Supplementing the volume is an audio CD of extracts some in their first public release ranging from a 1937 student work to a song cycle of 1994 Read the <http://www.wlupress.wlu.ca/Generalbeckwithcherneycdnotespdf> Notes and Texts for the CD *Catalogs* Harold Reeves (Firm),1926

The Oxford Magazine ,1913 **Art Music** Matthew Del Nevo,2017-07-28 Listening to music is not merely something one does but something central to a way of living Listening has the power to transport one into another way of being It is a mode of feeling and forms the bedrock of deep emotion Written from the viewpoint of a philosophy of sensibility Matthew Del Nevo notes that this perspective may not be in fashion but it follows a long tradition Del Nevo emphasizes the aesthetic experience of listening to art music as it has developed and disintegrated in Western civilization He recognizes a deep psychological element to what he calls soul or more accurately sensibility He addresses music in a non technical way taking up the powerful art theory of Charles Baudelaire the music philosophy of Schopenhauer and Richard Wagner and takes a strong critical stand against modernist intellectual art music The importance of this book for the musically literate reader is its insight into the metaphysics of nostalgia This comprehension is missing from nearly all musical instruction because we have lost sight of it Del Nevo asserts that this understanding must be brought back into our culture And since this is a book about listening to art music it is no less about sensibility and its cultivation which in its object form we call culture An engaging book Art Music will appeal to those interested in music culture and philosophy *Franz Schubert: A Biography* Henry Frost,2019-02-01 Clarity of outline conciseness and formal beauty are excellent things in musical works but an exquisite fancy a noble imagination and a lofty poetic spirit are of infinitely greater account and no one ever possessed these inestimable gifts in richer profusion than Franz Schubert This new edition of Henry Frost s 1892 biography of Franz Schubert has been edited and revised The original references to pieces by Opus number have been replaced with the more commonly used D numbers Many illustrations of places and people have been added throughout the text and a complete catalog of Schubert s works has been included With faith man steps forth into the world Faith is far ahead of understanding and knowledge for to understand anything I must first of all believe something Faith is the higher basis on which weak understanding rears its first columns of proof reason is nothing but faith analysed Franz Schubert *Sonic Transformations of Literary Texts* Siglind Bruhn,2008 Among the possible relationships between art forms that express themselves in different sign systems the pairing of words and images is the one that is most thoroughly explored And in fact the most securely established terminology is found in a field that has experienced a significant revival in recent years ekphrasis The literary topos through which a poem or any other text addresses itself to the visual arts has received much attention in recent years and been subjected to intense scrutiny **BOOK JACKET** Twenty-Six Composers Teach the Violinist William Starr,1995-11-16 An invaluable collection of excerpts from solo chamber and orchestral literature Covers a wide range of technical problems The Shaping Forces in Music Ernst Toch,1977-01-01 A masterful and original classical composer as

well as a renowned composer of film scores Ernst Toch 1887 1964 made a permanent contribution to music in this important and widely praised book Based on a series of lectures given at Harvard in 1944 and first published in 1948 this book is a brilliant examination of the materials and concepts that are the basic building blocks of music harmony melody counterpoint and form An admirable reconciliation of traditional and modern mainly 12 tone trends in composition this book shows all types of writing must respond to psychological wants of the listener and how similar goals may be achieved in seemingly opposed styles Illustrating his discussion with 390 musical examples Toch not only introduces new ideas and approaches but examines many age old problems with clarity and precision consonance and dissonance form versus number and more His analysis of the expanding harmonic universe the wave line of melody and the formative influence of movement are particularly penetrating New to this edition are a biological introduction by Toch s grandson Lawrence Weschler a previously unpublished letter from Thomas Mann to Toch about this book in English translation and a complete checklist of Toch s compositions Intended for all those who have a minimum understanding of musical notation and theory this book will appeal to music lovers practical musicians and amateurs and incipient composers Haydn, Mozart, and the Viennese School, 1740-1780 Daniel Hertz, 1995 Historians have long tried to place the music of Haydn and Mozart in the lineage of German Lutheran music In this book Daniel Hertz shows that the first Viennese school grew from a Catholic inheritance in Italian music and from local tradition with an admixture of French currents The generation of composers led by Haydn no longer trained in Italy By the time young Mozart joined the ranks of the Viennese school its accomplishments towered above all others of the time The author s approach can be compared to viewing a majestic mountain range in its totality the highest peaks take on even greater majesty when seen in their natural context of foothills and lesser peaks This is how Haydn and Mozart were viewed by their contemporaries whose world of perception Hertz recreates using among other things the visual art of the period His focus is on music as a part of cultural history at a particular time and place Stylistic terms and a priori periods matter less to him than the common denominators of geography culture and political history Book jacket

The Music of Herbert Howells Phillip A. Cooke, David Nicholas Maw, 2013 Herbert Howells 1892 1983 was a prodigiously gifted musician and the favourite student of the notoriously hard to please Sir Charles Villiers Stanford Throughout his long life he was one of the country s most prominent composers writing extensively in all genres except the symphony and opera Yet today he is known mostly for his church music and there is as yet relatively little serious study of his work This book is the first large scale study of Howells s music affording both detailed consideration of individual works and a broad survey of general characteristics and issues Its coverage is wide ranging addressing all aspects of the composer s prolific output and probing many of the issues that it raises The essays are gathered in five sections Howells the Stylist examines one of the most striking aspect of the composer s music its strongly characterised personal voice Howells the Vocal Composer addresses both his well known contribution to church music and his less familiar but also important contribution to the genre

of solo song Howells the Instrumental Composer shows that he was no less accomplished for his work in genres without words for which in fact he first made his name Howells the Modern considers the composer's rather overlooked contribution to the development of a modern voice for British music and Howells in Mourning explores the important impact of his son's death on his life and work The composer that emerges from these studies is a complex figure technically fluent but prone to revision and self doubt innovative but also conservative a composer with an improvisational sense of flow who had a firm grasp of musical form an exponent of British musical style who owed as much to continental influence as to his national heritage This volume comprising a collection of outstanding essays by established writers and emergent scholars opens up the range of Howells's achievement to a wider audience both professional and amateur PHILLIP COOKE is Lecturer in Composition at the University of Aberdeen DAVID MAW is Tutor and Research Fellow in Music at Oriel College Oxford holding Lectureships also at Christ Church The Queen's and Trinity Colleges CONTRIBUTORS Byron Adams Paul Andrews Graham Barber Jonathan Clinch Phillip A Cooke Jeremy Dibble Lewis Foreman Fabian Huss David Maw Diane Nolan Cooke Lionel Pike Paul Spicer Jonathan White Foreword by John Rutter
