Charles John Samuel Thompson

Magicians Magic:

Here Is Real Magic Nate Staniforth, 2018-01-16 An extraordinary memoir about finding wonder in everyday life from magician Nate Staniforth. Nate Staniforth has spent most of his life and all of his professional career trying to understand wonder: what it is, where to find it, and how to share it with others. He became a magician because he learned at a young age that magic tricks don't have to be frivolous. Magic doesn't have to be about sequins and smoke machines; rather, it can create a moment of genuine astonishment. But after years on the road as a professional magician crisscrossing the country and performing four or five nights a week every week, Nate was disillusioned, burned out, and ready to quit. Instead, he went to India in search of magic. Here Is Real Magic follows Nate Staniforth's evolution from an obsessed young magician to a broken wanderer and back again. It tells the story of his rediscovery of astonishment and the importance of wonder in everyday life during his trip to the slums of India, where he infiltrated a three thousand year old clan of street magicians. Here Is Real Magic is a call to all of us to welcome awe back into our lives, to marvel in the everyday, and to seek magic all around us.

Chicago Magic David Witter, 2013-11-05 By the end of America's Golden Age of Magic, Chicago had taken center stage in front of an American audience drawn to the craft by the likes of Harry Houdini and Howard Thurston. Cashing in on a craze that rivaled big band mania, magic shops and clubs sprang up everywhere across the Windy City, packed in customers and put down roots. Over the last century, for example, Magic Inc. has outfitted magicians from Harry Blackstone Sr. to Penn and Teller to David Copperfield. Magic was an integral part of Chicago's culture, from its earliest venture into live television to the card sharps and hucksters lurking in its amusement parks and pool halls. David Witter keeps track of the shell game of Chicago's fascinating magic history, from its vaudeville circuit to its contemporary resurgence. **Magic**, 1908 *How Magicians Think* Joshua Jay, 2021-09-28 The door to magic is closed, but it's not locked. And now Joshua Jay, one of the world's most accomplished magicians, not only opens that door but brings us inside to reveal the artistry and obsessiveness, esoteric history, and long whispered-about traditions of a subject shrouded in mystery. And he goes one step further: Joshua Jay brings us right into the mind of a magician, how they develop their otherworldly skills, conjure up illusions, and leave the rest of us slack-jawed with delight, time after time. Along the way, Jay reveals another kind of secret: one all readers will find meaningful, even if they never aspire to perform sleight of hand. What does it take to follow your heart and achieve excellence? In 52 short, compulsively readable essays, Jay describes how he does it, whether it's through the making of illusions, the psychology behind them, or the way technology influences the world of magic. He considers the aesthetics of performance, discusses contemporary masters including David Copperfield, Penn Teller, and David Blaine, and details how magicians hone their craft. And answers questions like: Can a magic trick be too good? How do you saw a person in half? Is there real magic in the universe? The answers, like so much in magic and life, depend on you.
