A Rising Tide Susan Coleman,Alicia Robb,2012-05-30 Women owned firms represent an increasingly important segment of the small business sector According to the most recent data from the U S Census Bureau there were 7 8 million women owned firms in the United States in 2007 generating 1 2 trillion in revenues and providing employment for 7 6 million people

A Rising Tide presents the financial strategies that have helped today's bold and creative women entrepreneurs to succeed. The authors take a lifecycle approach in discussing the issues and strategies for different types of women-owned firms from nascent and home-based firms to growth-oriented and technology-based enterprises. Each chapter includes real-world cases studies featuring women entrepreneurs as a way to bring the book's lessons to life. Uniquely, this book ties together the latest research on financing women-owned businesses and its implications for actual or potential entrepreneurs. Drawing on the Kauffman Firm Survey, a longitudinal survey of over 4,000 new firms, the authors are able to provide particularly useful conclusions, making this a must-read for the thousands of women who are starting or may start businesses in the next few years. The Entrepreneur's Guide to Writing Business Plans and Proposals K. Dennis Chambers, 2007-12-30. Entrepreneurs and entrepreneurial companies live or die by the quality of their plans and proposals. Whether it's to get funding for a new product line or business from a client, writing hard-hitting prose that answers essential questions and makes specific requests is an indispensable skill. Entrepreneur, ad man, and writing teacher Dennis Chambers shows how entrepreneurs can persuade people through skillful writing to pony up capital or contracts. This ability, which can be learned, is rare in today's media-saturated world. But it counts more than ever if an entrepreneur wants to make it over the magical five-year hump and on into lasting business success. Numerous examples and exercises ensure that entrepreneurs understand how the writing game is played and that they play it well. Unfortunately, most don't play this game well. Most business writers mistakenly believe their task is to inform. They write to fill an information gap or to update the reader on a particular project. Or they write about what's important to them. What these writers do not take into account is that the speed of today's work world has reached overdrive. The typical reader simply doesn't have time to ponder dense, poorly organized information and intuit the appropriate action. And readers don't give a hoot about what's important to the writer; they want to know what's in it for themselves. Business writers need to use all the tools at their command to persuade, inspire action, and in general, move a project forward. This book is about how to be persuasive in two key skills in business writing: proposals and writing business plans. Step by step, Dennis Chambers illustrates the techniques of effective business writing with numerous examples throughout. Whether the objective is to secure financing from an investor, lay out a marketing strategy, or secure a large contract, getting results requires crafting an effective structure for the proposal and using words that sell. Chambers is an able guide in saving entrepreneurs time and undue effort while reaching the goal of long-term business success.

Notable American Women Susan Ware, 2004. This latest volume brings the project up to date with entries on almost 500 women whose death dates fall between 1976 and 1999. You will find here stars of the golden ages of radio, film, dance, and television; scientists and scholars; civil rights activists and religious leaders; Native American craftspeople and world-renowned artists. For each subject, the volume offers a biographical essay by a distinguished authority that integrates the woman's personal life

with her professional achievements set in the context of larger historical developments
