Manifesto For A Black Revolutionary Part:

Manifesto for a Black Revolutionary Party James Boggs, 1969 **Revolutionaries to Race Leaders** Cedric Johnson, 2019

The Black Power movement represented a key turning point in American politics. Disenchanted by the hollow progress of federal desegregation during the 1960s, many black citizens and leaders across the United States demanded meaningful self-determination. The popular movement they created was marked by a vigorous artistic renaissance, militant political action, and fierce ideological debate. Exploring the major political and intellectual currents from the Black Power era to the present, Cedric Johnson reveals how black political life gradually conformed to liberal democratic capitalism and how the movement's most radical aims—the rejection of white aesthetic standards, redefinition of black identity, solidarity with the Third World, and anticapitalist revolution—were gradually eclipsed by more moderate aspirations. Although Black Power activists transformed the face of American government, Johnson contends that the evolution of the movement as a form of ethnic politics restricted the struggle for social justice to the world of formal politics. Johnson offers a compelling and theoretically sophisticated critique of the rhetoric and strategies that emerged in this period. Drawing on extensive archival research, he reinterprets the place of key intellectual figures such as Harold Cruse and Amiri Baraka and influential organizations including the African Liberation Support Committee, the National Black Political Assembly, and the National Black Independent Political Party in postsegregation black politics while at the same time identifying the contradictions of Black Power radicalism itself. Documenting the historical retreat from radical democratic struggle, *Revolutionaries to Race Leaders* ultimately calls for the renewal of popular struggle and class-conscious politics. Cedric Johnson is assistant professor of political science at Hobart and William Smith Colleges.

The Revolution Will Not Be Theorized Errol A. Henderson, 2019-01-01

Studies the revolutionary theory of the Black Power Movement in the 1960s through 70s, placing it within the broader social theory of black revolution in the United States since the nineteenth century. The study of the impact of the Black Power Movement (BPM) activists and organizations in the 1960s through 70s has largely been confined to their role as proponents of social change, but they were also theorists of the change they sought. In *The Revolution Will Not Be Theorized*, Errol A. Henderson explains this theoretical contribution and places it within a broader social theory of black revolution in the United States dating back to nineteenth-century black intellectuals. These include black nationalists, feminists, and anti-imperialists, activists, and artists of the Harlem Renaissance and early Cold War era, black revolutionists. The book first elaborates W. E. B. Du Bois's thesis of the General Strike during the Civil War, Alain Locke's thesis relating black culture to political and economic change, Harold Cruse's work on black cultural revolution, and Malcolm X's advocacy of black cultural and political revolution in the United States. Henderson then critically examines BPM revolutionists theorizing regarding cultural and political revolution and the relationship between them in order to realize their revolutionary objectives. Focused more on importing theory from third-world contexts that were dramatically different from the United States, BPM revolutionists largely ignored the theoretical

template for black revolution most salient to their case which undermined their ability to theorize a successful black revolution in the United States This book is not only one of the most intellectually ambitious works but also the most comprehensive examination of revolutionary theory in the Black Power Era A monumental accomplishment Bravo Komozi Woodard author of *A Nation within a Nation* Amiri Baraka LeRoi Jones and *Black Power Politics* **Pages from a Black Radical's Notebook** James Boggs, 2011 Stephen M Ward is assistant professor at the University of Michigan in the Center for Afroamerican and African Studies and the Residential College Book Jacket *Chinese Americans* Jonathan H. the digital humanities and Black intellectual history The essays draw from diverse methodologies and fields to examine the ideas and actions of Black thinkers from the eighteenth century to the present offering fresh insights while creating space for even more creative approaches within the field Timely and incisive *Ideas in Unexpected Places* encourages scholars to ask new questions through innovative interpretive lenses and invites students scholars and other practitioners to push the boundaries of Black intellectual history even further

Democracy and Empire Inés Valdez, 2023-09-07 *Democracy and Empire* theorizes the material basis of popular sovereignty via the Black radical tradition Popular sovereignty contains an affective attachment to wealth secured through collective agreements to dominate others i e self and other determination In s Valdez expands on racial capitalism by theorizing its Anglo European based popular politics which authorize capital accumulation enabled by empire and legitimated by racial ideologies This stunts political projects in the Global South Valdez masterfully outlines how social reproduction is provided by racialized others who sacrifice families and communities and how the political alienation from nature in wealthy polities is mediated by technology and enabled by a joint devaluation of nature and manual labor performed by racialized others The book concludes with a theorization of anti imperial popular sovereignty based on political relations that encompass nature This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details

Fifty-Year Rebellion Scott Kurashige, 2017-07-04 On July 23 1967 the eyes of the nation fixed on Detroit as thousands took to the streets to vent their frustrations with white racism police brutality and vanishing job prospects in the place that gave rise to the American Dream For mainstream observers the riot brought about the ruin of a once great city and then in 2013 the city's municipal bankruptcy served as a bailout that paved the way for Detroit to finally be rebuilt Challenging this prevailing view Scott Kurashige portrays the past half century as a long rebellion the underlying tensions of which continue to haunt the city and the U S nation state Michigan's scandal ridden emergency management regime represents the most concerted effort to quell this rebellion by disenfranchising the majority black citizenry and neutralizing the power of unions The corporate architects of Detroit's restructuring have championed the creation of a business friendly city where billionaire developers are subsidized to privatize and gentrify downtown while working class residents are squeezed out by rampant housing evictions school closures water shutoffs toxic pollution and militarized policing From the grassroots however Detroit has emerged as an international model for survival resistance and solidarity through the creation of urban farms freedom schools and self governing communities A quintessential American story of tragedy and hope The Fifty Year Rebellion forces us to look in the mirror and ask Are we succumbing to authoritarian plutocracy or can we create a new society rooted in social justice and participatory democracy Provided by publisher
