Endorsements: Ahhh Nancy's words let me be my imperfect self and still know that there is no wind strong enough to release me from my Father's grip. Karon Phillips Goodman, author of Another Fine Mess, Lord and the Woman's Guide series. Nancy Kennedy writes with amazing humor, heart, and insight. Girl on a Swing soars. Heather Kopp, author of Roar: A Christian Family Guide to the Chronicles of Narnia, Story Behind the Book. The Story Behind the Book. Girl on a Swing came from a greeting card image where a young girl is soaring on a swing. She's free and at peace with herself and her surroundings. As I studied that image, I came to realize that the girl is me because in Christ, I am free and at rest. God smiles on His own and I am at peace. But my experience as a speaker at women's retreats has shown me that many women have difficulty believing that for themselves. This book will help them grasp the truth. Nancy Kennedy. Best known today as the author of War and Peace and Anna Karenina, Count Leo Tolstoy is also acknowledged as a skilled playwright. His five-act drama The Power of Darkness offers a cold and unsparing look at Russian peasant life that illustrates the costs of pursuing personal desires rather than the dictates of morality. The grimly realistic tragedy is based on a real incident centering on a peasant's confession to a party of wedding guests of his participation in a series of horrific crimes that range from adultery and murder to infanticide. Tolstoy's moving portrait of a class enslaved by poverty and ignorance was written in 1886 but its performance was suppressed by Russian authorities until 1902. A 1904 version performed in New York in Yiddish marked the first successful production of a play by Tolstoy in the United States.

stemming from conceptual graphs while focusing on the computational properties of this formalism Knowledge can be symbolically represented in many ways The knowledge representation and reasoning formalism presented here is a graph formalism knowledge is represented by labeled graphs in the graph theory sense and reasoning mechanisms are based on graph operations with graph homomorphism at the core This formalism can thus be considered as related to semantic networks Since their conception semantic networks have faded out several times but have always returned to the limelight They faded mainly due to a lack of formal semantics and the limited reasoning tools proposed They have however always rebounded cause labeled graphs schemas and drawings provide an intuitive and easily understandable support to represent knowledge This formalism has the visual qualities of any graphic model and it is logically founded This is a key feature because logics has been the foundation for knowledge representation and reasoning for millennia The authors also focus substantially on computational facets of the presented formalism as they are interested in knowledge representation and reasoning formalisms upon which knowledge based systems can be built to solve real problems Since object structures are graphs naturally graph homomorphism is the key underlying notion and from a computational viewpoint this moors calculus to combinatorics and to computer science domains in which the algorithmic qualities of graphs have long been studied as in databases and constraint networks *The Church School Journal*, 1910 Drowning Girls in China D. Mungello, 2008-06-27 This groundbreaking book offers the first full analysis of the long neglected and controversial subject of female infanticide in China Although infanticide and child abandonment were worldwide phenomena from antiquity down to the nineteenth century when massive numbers of children were still being abandoned in Europe China was unique in targeting girls almost exclusively Yet despite its persistence for two thousand years little has been published on a practice that is deeply sensitive within China and little understood by outsiders Drawing on little known Chinese documents and illustrations noted historian D E Mungello describes the causes and continuation of female infanticide since 1650 despite efforts by Confucian moralists Buddhist teachings government officials and even imperial edicts to stop the practice The arrival of Christian missionaries led to foreign involvement as well with Catholic priests baptizing abandoned and dying infants in Nanjing and Beijing beginning in the early 1600s Mission efforts peaked in the nineteenth century when the European based Society of the Holy Childhood urged Catholic children to contribute their pennies to help neglected children in China However most of the infant victims were drowned at birth in the privacy of their homes thereby escaping the scrutiny of the law and the public Mungello brings this secretive practice to light with a nuanced and balanced analysis of the cultural economic and social causes of early infanticide and its contemporary manifestation in sex selected abortion as a result of the government's one child policy Presenting female infanticide as a human rather than a distinctly Chinese problem he estimates the tragic loss of girls in the millions
