CONSUMER ACTIVISM

We have, so far, learnt that there are three different Forums, one each at the National, State and District level and these are classified on the basis of territory and pecuniary value of the complaint.

Alia lives in East Delhi and therefore, she can file a complaint in the Delhi Consumer Court situated in East Delhi. If she is not satisfied with the judgement, she can go to the next higher level i.e., State Commission located in Delhi. The next appeal can go to the National Forum. Most of the small cases are decided at the district level itself and, therefore, preferring an appeal may not be required. All the awareness about consumer goods and services creates a check on the unscrupulous tradesmen and the defective products which we do not want and which we never purchased.

OBJECTIVES

After studying this lesson, you will be able to:

- understand the meaning of the term 'Consumer Activism';
- appreciate the significance of Consumer Movement in India;
- define the Objectives, Goals and Tactics of Consumer Movement in India;
- learn how to file a Complaint Petition for defective goods; and
- know how to file a Complaint Petition for deficient services;

31.1 WHAT IS CONSUMER ACTIVISM?

The 'Consumer Movement' in India as a social force originated with the necessity of protecting and promoting the interests of consumers against unethical and 'unfair trade practices'. Rampant food shortages, hoarding and the like gave birth to the 'Consumer Movement' in an organised form in the year 1960.

Nurturing Consumer Activism Sanjay Kaptan,2003 Activism and the Policy Process Anna Yeatman,2020-07-29

Activists protecting rainforests demanding increased childcare developing local community housing campaigning for AIDS funding or protecting consumers are as much part of the political landscape as the media parliament peak industry groups political parties or trade unions This collection explores the idea of policy activism and its relationship to the processes that not only set but implement and deliver the policy agenda Policy activists operate both inside and outside government They include community based organisers activist bureaucrats service providers and professionals Policy activism has been barely explored in existing literature This collection puts the idea on the map It is an innovative contribution to the literature using case studies across a broad range of policy areas This volume opens the window on an aspect of the policy process that rarely receives attention from students of politics or policy anywhere across the globe The framework presented and the cases included in these pages provide a glimpse of the workings of a complex democracy describing a range of actors responding creatively to the dynamics of social political and economic change It is fascinating to see how policy functions and social values appear to be more important to these processes than the formal structures of the government in which they are placed

consumer activists nurses wives and mothers The central themes of *Sisters or Strangers* include discourses of race in the context of nation building encounters with the state and public institutions symbolic and media representations of women familial relations domestic violence and racism and analyses of history and memory In different ways the authors question whether the historical experience of women in Canada represents a sisterhood of challenge and opportunity or if the racial class or marginalized identity of the immigrant and minority women made them in fact strangers in a country where privilege and opportunity fall according to criteria of exclusion Using a variety of theoretical approaches this collaborative work reminds us that victimization and agency are never mutually exclusive and encourages us to reflect critically on the categories of race gender and the nation

broader project of building socialism *Social Innovation in the Service of Social and Ecological Transformation* Olivier De Schutter, Tom Dedeurwaerdere, 2021-10-14 This book explores how the State can play a role as an enabler of citizens led social innovations to accelerate the shift to sustainable and socially just lifestyles To meet the twin challenges of environmental degradation and the rise of inequalities societal transformation is urgent Most theories of social change focus either on the role of the State on the magic of the market or on the power of technological innovation This book explores instead how local communities given the freedom to experiment can design solutions that can have a transformative impact Change cannot rely only on central ordering by government nor on corporations suddenly acting as responsible citizens Societal transformation at the speed and scope required also should be based on the reconstitution of social capital and on new forms of democracy emerging from collective action at the local level The State matters of course for the provision of both public services and of social protection and to discipline the market but it should also act as an enabler of citizen led experimentation and it should set up an institutional apparatus to ensure that collective learning spreads across jurisdictions Corporations themselves can ensure that society taps the full potential of citizens led social innovations they can put their know how their access to finance and their control of logistical chains in the service of such innovations rather than focusing on shaping consumers tastes or even adapting to consumers shifting expectations With this aim in mind this book provides empirical evidence of how social innovations typically developed within niches initially at a relatively small scale can have society wide impacts It also examines the nature of the activism deployed by social innovators and the emergence of a do it yourself form of democracy This book will appeal to all those interested in driving societal change and social innovation to ensure a sustainable and socially just future for all Yearbook of International Organizations 2004/2005 Union of International Associations, 2004 **Sociological Abstracts** Leo P.
