Africanizing Knowledge Toyin Falola, Christian Jennings, Nearly four decades ago Terence Ranger questioned to what extent African history was actually African and whether methods and concerns derived from Western historiography were really sufficient tools for researching and narrating African history Despite a blossoming and branching out of Africanist scholarship in the last twenty years that question is still haunting The most prestigious locations for production of African studies are outside Africa itself and scholars still seek a solution to this paradox They agree that the ideal solution would be a flowering of institutions of higher learning within Africa which would draw not only Africanist scholars but also financial resources to the continent While the focus of this volume is on historical knowledge the effort to make African scholarship more African is fundamentally interdisciplinary The essays in this volume employ several innovative methods in an effort to study Africa on its own terms The book is divided into four parts Part 1 Africanizing African History offers several diverse methods for bringing distinctly African modes of historical discourse to the foreground in academic historical research Part 2 African Creative Expression in Context presents case studies of African art literature music and poetry It attempts to strip away the exotic or primitivist aura such topics often accumulate when presented in a foreign setting in order to illuminate the social historical and aesthetic contexts in which these works of art were originally produced Part 3 Writing about Colonialism demonstrates that the study of imperialism in Africa remains a springboard for innovative work which takes familiar ideas about Africa and considers them within new contexts Part 4 Scholars and Their Work critically examines the process of African studies itself including the roles of scholars in the production of knowledge about Africa This timely and thoughtful volume will be of interest to African studies scholars and students who are concerned about the ways in which Africanist scholarship might become more African Toyin Falola a leading historian of Nigeria and a distinguished Africanist is the Frances Higginbotham Nalle Centennial Professor of History at the University of Texas at Austin His numerous publications include *Yoruba Historiography* *African Historiography and Nationalism* and *African Intellectuals* Christian Jennings is completing his Ph D at the University of Texas at Austin He has contributed chapters on environmental history to the five volume series on Africa published by Carolina Academic Press and is co editing a forthcoming book on historical methods

[Historical Studies of Changing Fertility](#) Charles Tilly, 2015-03-08 The nine papers in this volume examine the historical experience of particular populations in Western Europe and North America in a search for the processes that change fertility patterns The contributors findings enable them to reevaluate some of the conflicting hypotheses that have been advanced for these

changes The authors stress the effects on fertility of changing mortality Several theoretical discussions emphasize the importance both of the turnover in adult positions due to mortality and of the highly variable life expectancy of children The empirical analyses consistently reveal strong associations between levels of fertility and mortality On the other hand some essays question whether variations in opportunities to marry acted as quite the regulator that Malthus and many after him have thought In both preindustrial and industrial populations fertility regulation within marriage emerges as the primary mechanism by which adjustment occurred Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
