

THE STRUCTURE & TIMING OF A PRESENTATION

HOW

The audience decides if they will listen to you within the first 15 seconds. Establish a connection immediately.

At around 1 minute they expect you to be getting to the point. If not, they'll start to pull out their cell phones.

Studies of attention spans show that audiences remember the most information in the first 5 minutes.

At 10-12 minutes, it's time for a change. The audience needs stimulation – give them an activity, an exciting video, or even a good joke.

Starting at 15 minutes, the audience will be getting restless. Make the examples shorter and relevant to them.

At 18 minutes, start wrapping up. Give the audience a picture of what the world will look like when they take action. Then they will remember what you want them to do.
