Transport Projects, Programmes and Policies

John Nellthorp, Peter Mackie, 2017-11-30 This title was first published in 2003 The European Union is constantly struggling to find effective ways to plan major transport infrastructure developments at a European level This is a critical factor in the emerging debates surrounding the absorption of the accession states into the EU but it is essential for these states that their economic competitiveness is supported by appropriate and effective transport infrastructure It is therefore crucial to find innovative approaches to the infrastructure itself how it is financed and the ways in which proper evaluation procedures are implemented to select which policies programmes and projects should be supported This informative volume brings together leading international specialists in economic evaluation applied within the transport sector Their contributions encompass all the main levels at which transport planning is typically conceptualized strategic regional policy programme and project planning It therefore examines how coherent economic evaluation practice can be developed and applied not only across different physical scales but also across national borders

Reviewing European Union Accession Tom

Hashimoto, Michael Rhimes, 2017-09-25 The year 2017 has been an uneasy one for the EU with so called Brexit on the horizon and the rise of populist euroskepticism in a number of Member States This year with the tenth anniversary of the Romanian and Bulgarian accession to the Union is a good year to pause and reflect over the life and future of the Union In this work we envision the next decade with Europe 2020 strategy and review the fruits of the 2004 accession in Central and Eastern Europe What has the Union achieved Which policy areas are likely to change and how How successful and by what measure has the accession of the 10 Member States in 2004 been Reviewing European Union Accession addresses a wide range of issues deliberately without any thematic constraints in order to explore EU enlargement from a variety of perspectives both scientific and geographical internal and external In contrast to the major works in this field we highlight the interrelated and often unexpected nature of the integration process hence the subtitle unexpected results spillover effects and externalities

Fiscal Federalism and European Economic Integration Mark Baimbridge, Philip Whyman, 2005-06-28 The pace of economic integration amongst European Union EU member states has accelerated considerably during the past decade highlighted by the process of Economic and Monetary Union EMU Many aspects of the EU's apparatus however have failed to evolve in order to meet these new challenges This book explores the issue of fiscal federalism within the context of EU integration from theoretical historical policy and global perspectives It contrasts the pace of integration amongst EU member states with the failure of financial and administrative apparatus to evolve to encompass fiscal federalism i.e. the development

of a centralised budgetary system This impressive collection with contributions from a range of internationally respected authors shall interest students and researchers involved with European economics and economic integration Its accessible style will also make it extremely useful to policy makers and professionals for whom European economic integration is a daily topic of conversation **Environment and Planning.
