Reinventing Anarchy Again:

Reinventing Anarchy, Again Howard J. Ehrlich, 1996 This book brings together the major currents of social anarchist theory in a collection of some of the most important writers from the United States Canada England and Australia The book is organized into eight sections What is Anarchism The State and Social Organization Moving Toward Anarchist Society Anarcha feminism Work The Culture of Anarchy The Liberation of Self and finally Reinventing Anarchist Tactics

Reinventing Anarchy Howard J. Ehrlich, 1979-01-01 **Anarchism in Local Governance** Stephen Condit, 2019-06-28 Through accounts of his experience as a local politician and elected once holder Stephen Condit examines in *Anarchism in Local Governance* how his anarchist convictions may have contributed to the administration of his community in a way that empowers citizens towards self governance and prefiguration of communal anarchist ideals The hypothesis is that municipal governance and anarchist thought and praxis can both benefit by this kind of encounter Condit also investigates the emergence of anarchism through citizen participation in civil society as a reality to which the municipality is accountable

Associational anarchism Chris Wyatt, 2023-11-28 Associational anarchism presents a ground breaking alternative to both liberal democracy and state socialism derived from the ideas of Karl Marx and G D H Cole Uniting the public sphere of citizenship with the private sphere of production in a system of communal ownership the book proposes a scheme of horizontal networks held together through libertarian politics With no role for a centralised state the functions of coordination and administration are fulfilled through pluralist self governance Political intermediation proceeds via a web of functional associations which operate within a system of revitalised communities while management is carried out through modes of self regulation that embody the key anarchist values of equality solidarity and mutual aid **Anarchism Today** Randall Amster, 2012-03-09 With all of the provocative sometimes highly destructive acts committed in the name of anarchy this enlightening volume invites readers to discover the true meaning of anarchism exploring its vivid history and its resurgent relevance for addressing today s most vexing social problems In *Anarchism Today* an acclaimed scholar and one of the world s foremost advocates for the anarchistic tradition cuts through common misconceptions and caricatures to explore what is perhaps the most poorly understood of all political theories As author Randall Amster explains rather than being an anti everything rationale for defiance and destruction anarchism is in fact a coherent set of values and practices with a rich history and contemporary relevance Passionate and provocative Amster s book offers readers an expert s perspective on what anarchism really means including its relationship to other political approaches its careful balancing of individual liberty and a functioning society and its controversial image as a wellspring of violence Along the way Amster addresses a number of current issues from the perspective of anarchism including corporate globalization environmentalism warfare nationalism education technology alternative economics criminal justice and even spirituality He concludes with a frank assessment of anarchism s impact and the role it can play in building a more just peaceful and sustainable world *Anarchist Critique of*

Radical Democracy Markus Lundström, 2023-01-24 In the spring of 2013 a wave of urban riots swept across Sweden after police shot an elderly man in his own home When community residents from his marginalized city district demanded an official apology they were ignored The anti police insurgences that followed addressed deep problems of the Swedish welfare state and the official responses revealed glitches built into democracy itself In this updated edition of *Anarchist Critique of Radical Democracy The Impossible Argument* sociologist and historian Markus Lundström explores the boundaries of Swedish democracy He probes in depth interviews with community residents to explain how the 2013 riots intensified a profound democratic conflict the social divide between the governors and the governed Resistance to this divide is then traced through the defiance of governance and approaches to democracy in the history of anarchist thought This book offers an original introduction to anarchism It relates the diversity of anarchist thought to anti police riots and the radicalization of democracy

Anarchism and Animal Liberation Anthony J. Nocella II, Richard J. White, Erika Cudworth, 2015-07-11 Building upon anarchist critiques of racism sexism ableism and classism this collection of new essays melds anarchism with animal advocacy in arguing that speciesism is an ideological and social norm rooted in hierarchy and inequality Rising from the anarchist influenced Occupy Movement this book brings together international scholars and activists who challenge us all to look more critically into the causes of speciesism and to take a broader view of peace social justice and the nature of oppression Animal advocates have long argued that speciesism will end if the humanity adopts a vegan ethic This concept is developed into the argument that the vegan ethic has the most promise if it is also anti capitalist and against all forms of domination

Stop the Machines Mauro Lubrano, 2025-07-11 As we stand on the cusp of an AI revolution will we see the rise of a new anti technology extremism that threatens to dismantle the gains of modern civilization In the first exploration of this phenomenon Mauro Lubrano traces the origins and evolution of anti technology violence across the globe He identifies three main groups fuelling such resistance insurrectionary anarchists eco extremists and eco fascists Exploring the justifications that underlie the opposition to technology and the strategies employed to stop the machines he shows how anti tech extremism has emerged as a reaction to the Anthropocene an attempt to undo the epoch of human domination The intellectual flexibility of this ideology lends itself to different causes from the class struggle against the techno elites to the defence of nature and white supremacy With fears about the risks of artificial intelligence mounting and the world beset by serious polycrises what is currently a fragmented fringe phenomenon holds the potential for dramatic escalation

Film and the Anarchist Imagination Richard Porton, 1999 Bearded bomb throwers self indulgent nihilists dangerous subversives these characteristic clichés of anarchists in the popular imagination are often reproduced in the cinema In *Film and the Anarchist Imagination* the first comprehensive survey of anarchism in film Richard Porton deconstructs such stereotypes while offering an authoritative account of films featuring anarchist characters and motifs From the early cinema of Griffith and Ren Clair to the work of Godard Lina Wertmüller Lizzie Borden and Ken Loach Porton analyzes portrayals of

anarchism in film presenting commentaries and critiques of such classics as *Zéro de Conduite* *Tout Va Bien* and *Love and Anarchy* In addition he provides an excellent guide to the complex traditions of anarchist thought from Bakunin and Kropotkin to Emma Goldman and Murray Bookchin disclosing a rich historical legacy that encompasses the Paris Commune the Haymarket martyrs the anarcho syndicalists of the Spanish Civil War as well as more familiar contemporary avatars like the Situationists and the enragés of May 1968

Anarchism and Education Judith Suissa, 2006-09-27 This book explores the neglected tradition of anarchist education showing how the ideas associated with this tradition can lend a valuable depth to philosophical debates on education and a motivating vision for teachers and educational policy makers
