Public Funding of Higher Education Edward P. St. John, Michael D. Parsons, 2005-09-23 Much of the twentieth century saw broad political support for public funding of American higher education Liberals supported public investment because it encouraged social equity conservatives because it promoted economic development Recently however the politics of higher education have become more contentious Conservatives advocate deep cuts in public financing liberals want to expand enrollment and increase diversity Some public universities have embraced privatization while federal aid for students increasingly emphasizes middle class affordability over universal access In *Public Funding of Higher Education* scholars and practitioners address the complexities of this new climate and its impact on policy and political advocacy at the federal state and institutional levels Rethinking traditional rationales for public financing contributors to this volume offer alternatives for policymakers administrators faculty students and researchers struggling with this difficult practical dynamic Contributors M Christopher Brown II Pennsylvania State University Jason L Butler University of Illinois Choong Geun Ching Indiana University Clifton F Conrad University of Wisconsin Madison Saran Donahoo University of Illinois James Farmer JA SIG uPortal James C Hearn Vanderbilt University Janet M Holdsworth University of Minnesota Don Hossler Indiana University John R Thelin University of Kentucky Mary Louise Trammell University of Arizona David J Weerts University of Wisconsin Madison William Zumeta University of Washington

Planning and Management in Distance Education Santosh Panda, 2003-12-16 Online distance education and training is being adopted throughout the world as a cost effective flexible answer to widening access for all This enthusiasm has led to many initiatives and policies from governments to encourage online learning at international national regional and institutional levels Also changes in distance learning continue to take place as a result of educational discourse and innovations in ICT Distance learning courses are therefore under pressure to reform and successful management of external policy planning and internal change management is key to the implementation and maintenance of reforms World class leaders researchers and practitioners share their experiences

research and critical reflection in this book providing guidance on how to balance quality management with quality learning Subjects covered include policy and planning institutional management management of processes quality assurance and accreditation and internationalization This book will aid anyone involved in running or wanting to implement distance education to effectively manage an online learning programme

Higher Education Systems Redesigned Jonathan S. Gagliardi, Jason E. Lane, 2022-04-01 Long an afterthought of the American higher education ecosystem multi campus systems have become more important than ever In recent years leading higher education systems have engaged in transforming the way they work scaling best practices leveraging data and analytics and creating platforms to optimize and personalize these systems for increasingly diverse students In *Higher Education Systems Redesigned* leaders of these efforts share their insights into systemness and how to facilitate sustainable change in a system setting while navigating and leveraging tensions between campus and system priorities Highlighting examples of successful realignment of these priorities with a focus on contextualized design and implementation the book charts a shift in the aim of systems Rather than perpetuating existing norms as they have traditionally done systems are taking measures to spark innovation across campuses and use evidence based practices to foster student access and completion rates better serve communities and drive social mobility and economic growth Each chapter concludes with a list of takeaways to guide other system leaders and administrators One of the few recent examinations of higher education systems *Higher Education Systems Redesigned* offers a theoretical and practical framework for how systems can continually evolve

Inside the "Knowledge Factory" Heinke Röbbken, 2013-06-29 Higher education institutions have proven to be one of the most enduring organizations of the last centuries In recent decades however significant changes in their institutional environment have forced universities to rethink their strategies This is particularly true for management higher education institutions How do universities and specifically business schools deal with these various expectations Are there different organizational responses in the American German or Swedish higher education systems These and other important questions of higher education management research are examined in this doctoral thesis Taking neo institutionalism theory as its basis the thesis is convincing both conceptually as well as empirically through its multiple case study design The insights gained are most interesting They reveal how a form of organizational schizophrenia can help institutions comply with external demands without compromising the pursuit of academic reputation which is essential for the inner stability of higher education institutions and their continued existence This book is relevant both for students and researchers in higher education management as well as management practitioners and administrators I can say this with conviction as Heinke Röbbken's doctoral thesis was one of the last that I supervised as a teacher before changing to the president's office of the University of Oldenburg As such I read it both from a theoretical viewpoint as well as that of a practitioner

ManagingNonprofits.org Ben Hecht, Rey Ramsey, 2002-02-26 Nonprofit managers have been slow to embrace the digital age Although technology has transformed the face of the for profit sector and how it operates nonprofit

use of technology to improve internal functioning and to change the way services are delivered is almost nonexistent. These limitations actually have opened the door for for-profit organizations to compete successfully for traditional nonprofit business such as moving people from welfare to work. Managing Nonprofits.org is both a call to action and a roadmap for change. Each chapter defines an element of Dynamic Management and identifies digital hotspots or places within that element and the nonprofit's implementation of that element where digital issues will most likely arise and need to be addressed. In addition, at the end of each chapter, Maxims of Dynamic Management or core truths that the authors have found helpful to follow in their day-to-day experience as nonprofit leaders in bringing Dynamic Management to their organization are provided. Finally, the authors highlight the experience of various nonprofit and for-profit organizations that have successfully made elements of Dynamic Management a reality in their organizations.

Prioritizing Academic Programs and Services Robert C. Dickeson, 2009-12-15

Prioritizing Academic Programs and Services REVISED AND UPDATED Increasing economic concerns make the new edition of this best-selling classic an invaluable resource for those who want and need to implement a proven step-by-step approach to reallocating resources in tough times. Thoroughly revised and updated, Prioritizing Academic Programs and Services includes new recommendations from the field, communication strategies for more successful campus implementation, a new section on the sources of hidden costs, and a Prioritization Process and Implementation workbook designed to help administrators avoid costly mistakes. This book includes access to additional content online, including models for prioritization from a variety of campuses. Based on the author's extensive consulting experience, this necessary and timely resource offers the best advice for addressing the current economic concerns affecting most colleges and universities. Praise for Prioritizing Academic Programs and Services: For more than a decade, higher education leaders have turned to Dickeson's practical guide to academic program assessment. These newly expanded approaches are just in time for today's competitive environment. SUZANNE SHIPLEY, president, Shepherd University. Dickeson provides a compelling rationale for program prioritization as well as a practical planning structure that promotes alignment between programs, resources, and university mission. Presidents and provosts can use his approach to frame campus discussions around the future of the institution and away from legacy programs whose time has passed. KYLE R. CARTER, provost and senior vice chancellor, Western Carolina University. Dickeson's approach ensures that critical decisions regarding academic programs and resource allocation are aligned with strategic goals and institutional mission. As one of the early adopters of the process that he proposes, I am convinced that it is a powerful and practical tool for any college or university committed to remaining focused, resilient, vital, and relevant in a dynamic and increasingly challenging environment. DAVID MAXWELL, president, Drake University.
