## **Relatively Speaking Language Thought And Kinship Among The Mopan Maya:**

*Relatively Speaking* Eve Danziger, 2001-04-12 Based upon 14 months of ethnographic fieldwork among the Mopan Maya in Belize Eve Danziger examines the semantic complexity of particular kinship terms used among Mopan women and children and shows that a culture specific analysis of their terms is superior to other non ethnographically based methods In doing so she contributes not only to theoretical semantics and the ethnography of that area but to the cross cultural study of child development and language acquisition

**A Vocabulary of Kinship Terms in New West Iranian Dialects** Alireza Korangy, Behrooz Mahmoodi-Bakhtiari, 2024-10-17 This book is the first of its kind in providing a lexicon of kinship terms prevalent in the Western dialects of Iran with a parallel glossary in English It engages the dialects and their terminology in the English language to bring to purview how language imitates life particularly in rural settings Subsequently it gives a glimpse into the irrefutable relation that exists between culture and word usage In doing so it serves as a cultural manifesto as it pertains to Persian language poetics and applied linguistics and is relevant to linguists cultural scholars Anthropologists and students in Persian language literature and culture and certainly all Iranian languages

**The Genius of Kinship** German Valentinovich Dziebel, 2007 Dziebel has doctorates in both history and anthropology and is currently both advisor to the Great Russian Encyclopedia and senior anthropologist at Crispin Porter Bogusky advertising agency His extremely dense work is actually three books in one The first is a history of kinship studies from the early 19th century to the present The second is a comparative study of kinship terminology among non Indo European languages for which he has also prepared a data base published on the internet The third section highly controversial as he admits uses anthropology mitochondrial studies and linguistics to suggest that the out of Africa model of human origins may be in error and that the first humans actually came from the Americas and spread from there to the rest of the world

*Semantics - Typology, Diachrony and Processing* Klaus Heusinger, Claudia Maienborn, Paul Portner, 2019-02-19 Now available in paperback for the first time since its original publication the material in this book provides a broad accessible guide to semantic typology crosslinguistic semantics and diachronic semantics Coming from a world leading team of authors the book also deals with the concept of meaning in psycholinguistics and neurolinguistics and the understanding of semantics in computer science It is packed with highly cited expert guidance on the key topics in the field making it a bookshelf essential for linguists cognitive scientists philosophers and computer scientists working on natural language

*Ecologies of Participation* Zayin Cabot, 2018-04-30 In this daring debut Zayin Cabot challenges the wise homebodies of academia A profoundly interdisciplinary approach to comparative scholarship *Ecologies of Participation* offers a methodology whereby we can face our shared planetary predicament It is grounded in process philosophy and asserts the importance of a new ontology of agency It traces the importance of L vy Bruhl and L vi Strauss s early work while offering new insight into the ontological turn in anthropology This book sets out to destabilize modern reductionist trends toward scientific materialism without falling into postmodern

cultural constructivism It does not assume the givenness of nature or culture By advancing a multi ontology approach this work offers robust interventions into decolonial and critical studies Cabot takes contemporary scholarship in new and exciting directions offering an unstable ground from which to examine our shared worlds both human and other Throughout the last chapters of the book these threads are illuminated through a detailed ethics of comparison and participation

**The Psychology of Cultural Experience** Carmella C. Moore,Holly F. Mathews,2001-09-06 The essays in this volume first published in 2001 focus upon the relationship of individual experience to culture and chart a research agenda for psychological anthropology in the twenty first century Drawing upon fieldwork in diverse cultural settings the authors use a range of contemporary perspectives in the field including person centred ethnography activity theory attachment theory and cultural schema theory to describe the ways in which people think feel remember and solve problems Fascinating insights emerge from these fine grained accounts of personal experience The research demonstrates that it is possible to identify cross cultural universals in psychological development and mental states and that individual psychology is not determined solely by unique cultural patterns

**The Mayan Languages** Judith Aissen,Nora C. England,Roberto Zavala Maldonado,2017-05-12 The Mayan Languages presents a comprehensive survey of the language family associated with the Classic Mayan civilization AD 200 900 a family whose individual languages are still spoken today by at least six million indigenous Maya in Mexico Guatemala Belize and Honduras This unique resource is an ideal reference for advanced undergraduate and postgraduate students of Mayan languages and linguistics Written by a team of experts in the field The Mayan Languages presents in depth accounts of the linguistic features that characterize the thirty one languages of the family their historical evolution and the social context in which they are spoken The Mayan Languages provides detailed grammatical sketches of approximately a third of the Mayan languages representing most of the branches of the family includes a section on the historical development of the family as well as an entirely new sketch of the grammar of Classic Maya as represented in the hieroglyphic script provides detailed state of the art discussions of the principal advances in grammatical analysis of Mayan languages includes ample discussion of the use of the languages in social conversational and poetic contexts Consisting of topical chapters on the history sociolinguistics phonology morphology syntax semantics discourse structure and acquisition of the Mayan languages this book will be a resource for researchers and other readers with an interest in historical linguistics linguistic anthropology language acquisition and linguistic typology

**Society of Others** Rupert Stasch,2009 In this timely commentary on the ideas of difference strangeness and Western contact Stasch weaves ethnographic materials together with theoretical framing in an exceptionally clear and compelling way A highly original important and in fact astonishing piece of scholarship Bambi Schieffelin author of The Give and Take of Everyday Life In this remarkable ethnography Rupert Stasch takes us to the lowlands of West Papua and into the lives of people who have built a social world out of their relationships with strange and potentially dangerous others The Korowai are classic

inhabitants of the savage slot still dogged by their designation as Stone Age primitives Instead of flipping the script and arguing that the Korowai are just like everyone else Stasch draws far reaching lessons from the particularities of Korowai life Stasch writes with grace and clarity on the ambivalent ways in which the Korowai confront evade and embrace an otherness that resides not just in words food places and human bodies but also in the pasts and futures brought to mind by these material signs Analyzing Korowai sign use as a concrete historical process he charts the passage between intimacy and alterity that Korowai undergo in their encounters not only with spirits and Indonesian soldiers but also with children husbands and wives Some of what Stasch describes may seem strange and even disturbing But in pondering Stasch s findings one gradually comes to see the making of persons and relationships in an entirely new light Gone is the old debate between biological determination and cultural freedom in its place is an approach that affirms the multiple histories that converge in and flow from a life Erudite empathetic and unremittingly smart Society of Others recasts the very meaning of kinship and makes a case for the power of what anthropologists do Danilyn Rutherford author of Raiding the Land of the Foreigners The Limits of the Nation on an Indonesian Frontier

**Roots of Human Sociality** Stephen C. Levinson, Nicholas J. Enfield, 2020-08-21 This book marks an exciting convergence towards the idea that human culture and cognition are rooted in the character of human social interaction which is unique in the animal kingdom Roots of Human Sociality attempts for the first time to explore the underlying properties of social interaction viewed from across many disciplines and examines their origins in infant development and in human evolution Are interaction patterns in adulthood affected by cultural differences in childhood upbringing Apes unlike human infants of only 12 months fail to understand pointing and the intention behind it Nevertheless apes can imitate and analyze complex behavior how do they do it Deaf children brought up by speaking parents invent their own languages How might adults deprived of a fully organized language communicate This book makes the case that the study of these sorts of phenomenon holds the key to understanding the foundations of human social life The conclusion our unique brand of social interaction is at the root of what makes us human

**Words and Processes in Mambila Kinship** David Zeitlyn, 2005-01-01 Words and Processes in Mambila Kinship presents a set of studies of the way that Mambila speakers in Cameroon talk about themselves and their kin Author David Zeitlyn employs conversational analytic methods to further the study of kinship terminologies This book takes an important step toward a new synthesis between the practice of ethnography and the study of language while presenting African natural language data still rare in mainstream linguistics in an accessible format
