Some secretly take children on business trips. Others leave their computers on while picking up children from sporting events, hoping that colleagues passing by will think they are in a meeting.

structures while individuals struggle to decide whether and how they ought to become more independent of such structures pursuing what some have called post corporate or boundaryless careers This volume is an integrated survey of some of the best current thinking and research on careers Presented as a series of chapters by an international group of experts and knit together through themes and dialogues it advances our understanding of the deeper meaning of changes in careers and of the interrelationships and longer term consequences of those changes

**Negotiating at Work** Deborah M. Kolb, Jessica L. Porter, 2015-01-27 Understand the context of negotiations to achieve better results Negotiation has always been at the heart of solving problems at work Yet today when people in organizations are asked to do more with less be responsive 24 7 and manage in rapidly changing environments negotiation is more essential than ever What has been missed in much of the literature of the past 30 years is that negotiations in organizations always take place within a context of organizational culture of prior negotiations of power relationships that dictates which issues are negotiable and by whom When we negotiate for new opportunities or increased flexibility we never do it in a vacuum We challenge the status quo and we build out the path for others to negotiate those issues after us In this way negotiating for ourselves at work can create small wins that can grow into something bigger for ourselves and our organizations Seen in this way negotiation becomes a tool for addressing ineffective practices and outdated assumptions and for creating change Negotiating at Work offers practical advice for managing your own workplace negotiations how to get opportunities promotions flexibility buy in support and credit for your work It does so within the context of organizational dynamics recognizing that to negotiate with someone who has more power adds a level of complexity The is true when we negotiate with our superiors and also true for individuals currently under represented in senior leadership roles whose managers may not recognize certain issues as barriers or obstacles Negotiating at Work is rooted in real life cases of professionals from a wide range of industries and organizations both national and international Strategies to get the other person to the table and engage in creative problem solving even when they are reluctant to do so Tips on how to recognize opportunities to negotiate bolster your confidence prior to the negotiation turn asks into a negotiation and advance negotiations that get stuck A rich examination of research on negotiation conflict management and gender By using these strategies you can negotiate successfully for your job and your career in a larger field you can also alter organizational practices and policies that impact others

**Taking Time** Mindy Fried, 1998 There is a growing movement among corporations to provide family benefits in order to attract and retain women workers They recognize that these benefits have become a cost of doing business Many of these benefits like child care and elder care are aimed at supporting employees ability to stay on the job Parental leave policies are an exception because they involve taking time away from the job This timely book provides an inside look at life in a major U S corporation focusing on the impact of workplace culture on the use of parental leave and those who use it Fried begins by describing why parental leave is critical to making parenting the job of both parents in two parent families She examines the varied experiences of

different levels of workers in how parental leave policy is used The author tells a rich and textured tale of day to day life in the skyscraper offices of a large corporation How people dress what their offices look like which cafeteria they eat in how the supervisors and supervised talk all these things are part of the fabric of corporate culture that Fried describes Most of us live in work cultures that value overtime Fried argues that as a time policy parental leave clashes with the powerful norm that corporate employees must work long and hard Taking time for parenting a job that is devalued in our culture may be perceived as taking time away from the company and in particular from the company's productivity

**Competing Devotions** Mary Blair-Loy, 2009-07 The wrenching decision facing successful women who must choose between demanding careers and intensive family lives has been the subject of many articles and books most of which propose strategies for resolving the dilemma Competing Devotions focuses on broader social and cultural forces that create women s identities and shape their understanding of what makes life worth living Mary Blair Loy examines the career paths of women financial executives who have tried various approaches to balancing career and family These mavericks who face great resistance but are aided by new ideological and material resources that come with historical change may eventually redefine both the nuclear family and the capitalist firm in ways that reduce work family conflict Table of Contents Introduction 1 The Devotion to Work Schema 2 The Devotion to Family Schema 3 Reinventing Schemas Creating Part Time Careers 4 Reinventing Schemas Family Life among Full Time Executive Women 5 Turning Points 6 Implications Appendix Methods and Data Notes References Acknowledgments Index Many professional women intuit that male colleagues whose spouse handle for them the details of everyday life are favored in the workplace Blair Loy confirms this intuition and shows us how it happens She captures how the cultural schemas of family devotion and work devotion contribute to the reproduction of gender inequality and how meeting the demands of a husband s job and other people s needs push professional women to progressively abandon their work to take care of others Her analysis also gives us hope by comparing the fate of pre and post baby boomers This is both an important scholarly contribution and a book that will help readers think differently about their lives It should be required reading for professional women who aspire to maintain multidimensional lives Mich le Lamont author of The Dignity of Working Men Morality and the Boundaries of Race Class and Immigration This is a fascinating book with an important message Blair Loy s findings are surprising She challenges conventional viewpoints She is on to something

really new when she writes about not only the interplay between cultural norms and individual actions and institutional structures but on the cultural schemas that evoke deep emotional resonances An outstanding book Cynthia Fuchs Epstein author of *Deceptive Distinctions Sex Gender and the Social Order* Mary Blair Loy s book transcends old debates about work and family by examining the women who have beaten the odds and risen to the top Her detailed examination of careers and strategies perfectly complements her subtle analysis of the schemas and visions these women have for their lives Blair Loy has given us not only a splendid view into a little known world but also a new way of understanding the dynamic interplay of work and family Looking beyond the static conflict we have studied so much she shows how creative women put traditional schemas of family and work into a mutual transformation to build for themselves a new and more livable world Andrew Abbott author of *Time Matters*     *The Shadow Negotiation* Deborah Kolb, Judith Williams, 2001-02-13 At last here is a book that shows women how to recognize the Shadow Negotiation in which the unspoken attitudes hidden assumptions and conflicting agendas that drive the bargaining process play out and how to use that knowledge to their advantage Each time people bargain over issues a promotion a contract with a new client a bigger role in decision making a parallel negotiation unfolds beneath the surface of the formal discussion Bargainers constantly maneuver to determine whose interests and needs will hold sway whose opinions will matter and how cooperative each person will be in reaching an agreement How the issues are resolved hangs on the actions people take in the shadow negotiation yet it is in this shadow negotiation that women most often run into trouble The most productive negotiations take place when strong advocates can connect with each other Good results depend equally on a bargainer s positioning her ideas for a fair hearing and on being open to the other side s point of view But traditionally women have not fared well on either front Often they let negotiable moments slip by and take the first no as a final answer or their efforts to be responsive to the other side s position are interpreted as accommodation As a result women can come away from negotiations with fewer dollars perks plum assignments or less say in decision making than men To negotiate effectively women must pay attention to acts of self sabotage as well as to the moves others make in the shadow negotiation By bargaining more strategically women can establish the terms of their advocacy their voice and at the same time encourage the open communication essential to a collaborative discussion in which not only acceptable but creative agreements can be worked out Written by Deborah M Kolb and Judith Williams two authorities in the field *The Shadow Negotiation* shows women a whole new way to think about the negotiation process Kolb and Williams identify the common stumbling blocks that women encounter and present a game plan for turning their particular strengths to their advantage Based on extensive interviews with hundreds of business women *The Shadow Negotiation* provides women with a clear insightful guide to the hidden machinations that are at work in every bargaining situation     Critical Management Studies at Work Julie Wolfram Cox, Tony G. LeTrent-Jones, Maxim Voronov, David Weir, 2009-01-01 This is an excellent text It covers an impressive range of salient topics Moreover it provides a nuanced considered and balanced treatment of both conceptual

and practical aspects of critical management studies Cliff Oswick Queen Mary University of London UK This book is the first of its kind to reflect on what it means to actually perform critical management studies CMS how consultants researchers teachers and managers negotiate the tensions they experience in their everyday practice Critical management studies seeks to expose the hidden workings of power as well as to identify and reform the mundane and frequently unnoticed practices that privilege some groups and individuals at the expense of others creating injustices in organizations and in the society at large The authors show how CMS draws on a variety of approaches to translate its insights into practice Combining rich theoretical and empirical contributions with reflections on CMS practice in various forms this unique book is essential reading for critical researchers educators and graduate students in business and management fields **Joined at the Heart** Albert Gore, Al Gore, Tipper Gore, 2003-11 In this moving exploration of the contemporary family landscape the Gores share stories drawn from their own experiences as well as introduce readers to a dozen other families they have come to know over the years *The Dance of Change* Peter M. Senge, 2014-05-14 Since Peter Senge published his groundbreaking book *The Fifth Discipline* he and his associates have frequently been asked by the business community How do we go beyond the first steps of corporate change How do we sustain momentum They know that companies and organizations cannot thrive today without learning to adapt their attitudes and practices But companies that establish change initiatives discover after initial success that even the most promising efforts to transform or revitalize organizations despite interest resources and compelling business results can fail to sustain themselves over time That's because organizations have complex well developed immune systems aimed at preserving the status quo Now drawing upon new theories about leadership and the long term success of change initiatives and based upon twenty five years of experience building learning organizations the authors of *The Fifth Discipline* Fieldbook show how to accelerate success and avoid the obstacles that can stall momentum *The Dance of Change* written for managers and executives at every level of an organization reveals how business leaders can work together to anticipate the challenges that profound change will ultimately force the organization to face Then in a down to earth and compellingly clear format readers will learn how to build the personal and organizational capabilities needed to meet those challenges These challenges are not imposed from the outside they are the product of assumptions and practices that people take for granted an inherent natural part of the processes of change And they can stop innovation cold unless managers at all levels learn to anticipate them and recognize the hidden rewards in each challenge and the potential to spur further growth Within the frequently encountered challenge of Not Enough Time for example the lack of control over time available for innovation and learning initiatives lies a valuable opportunity to reframe the way people organize their workplaces This book identifies universal challenges that organizations ultimately find themselves confronting including the challenge of Fear and Anxiety the need to diffuse learning across organizational boundaries the ways in which assumptions built in to corporate measurement systems can handcuff learning initiatives and the almost unavoidable misunderstandings

between true believers and nonbelievers in a company Filled with individual and team exercises in depth accounts of sustaining learning initiatives by managers and leaders in the field and well tested practical advice The Dance of Change provides an insider s perspective on implementing learning and change initiatives at such corporations as British Petroleum Chrysler Dupont Ford General Electric Harley Davidson Hewlett Packard Mitsubishi Electric Royal DutchShell Shell Oil Company Toyota the United States Army and Xerox It offers crucial advice for line level managers executive leaders internal networkers educators and others who are struggling to put change initiatives into practice      **Communication Yearbook 27** Pamela J.
