Christian-Muslim Exchange: Oxford Bibliographies Online Research Guide Eric Dursteler,2010-06 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit [www.oxfordbibliographies.com](http://www.oxfordbibliographies.com) *Art and its global histories* Diana Newall,2017-07-07 The reader Art and its global histories represents an invaluable teaching tool offering content ranging from academic essays and excerpts new translations interviews with curators and artists to art criticism The introduction sets out the state of art history today as it undergoes the profound shift of a global turn Particular focus is given to British India which represents a shift from the usual attention paid to Orientalism and French art in this period The sources and debates on this topic have never before been brought together in a satisfactory way and this book will represent a particularly significant and valuable contribution for postgraduate and undergraduate art history teaching *Remapping the Humanities* Mary Garrett,Heidi Gottfried,Sandra F. VanBurkleo,2008 An innovative collection demonstrating the rich potential for interdisciplinary learning found within the network of university based humanities centers Remapping the Humanities celebrates the tenth anniversary of the Wayne State University Humanities Center by bringing together essays that illustrate the richness of public conversations developed in interdisciplinary humanities centers The contributors to this collection represent more than a dozen disciplines including philosophy English political science history law comparative literature and Spanish and taken together their essays illustrate an ongoing remapping of the intellectual landscape as

scholars from across university departments engage one another in unpredictable ways This volume is divided into four thematic sections Identity and Community Remembering and Forgetting Nationalism and Globalism and Toward Post Modernity Yet the essays deliberately represent a range of theoretical perspectives that interact synergistically such as feminism and postcolonial studies or literary criticism and art history They also tackle topics as varied as the formation of the modern family in France and the inculcation of civic virtue in American cities and they draw freely from different sources of evidence like newspaper accounts popular literature paintings and diaries Remapping the Humanities includes unique touches such as a portfolio of full color images and an audio CD of Celtic inspired jazz In addition a preface by Walter Edwards academic director of the Humanities Center at Wayne State University gives some background on this institution and the work being done there The importance of Remapping the Humanities ultimately lies in its refusal to say that learning has ended and the example it provides of the value of calculated ferment and intellectual instability Educators involved with or wanting to learn more about interdisciplinary research will appreciate this unique collection

**Marriage, Performance, and Politics at the Jacobean Court** Kevin Curran, 2016-05-06 Marriage Performance and Politics at the Jacobean Court constitutes the first full length study of Jacobean nuptial performance a hitherto unexplored branch of early modern theater consisting of masques and entertainments performed for high profile weddings Scripted by such writers as Ben Jonson Thomas Campion George Chapman and Francis Beaumont these entertainments were mounted for some of the most significant political events of James s English reign Here Kevin Curran analyzes all six of the elite weddings celebrated at the Jacobean court reading the masques and entertainments that headlined these events alongside contemporaneously produced panegyrics festival books sermons parliamentary speeches and other sources The study shows how collectively wedding entertainments turned the idea of union into a politically versatile category of national representation and offered new ways of imagining a specifically Jacobean form of national identity by doing so

**Shakespeare and Hospitality** Julia Reinhard Lupton, David Goldstein, 2016-04-20 This volume focuses on hospitality as a theoretically and historically crucial phenomenon in Shakespeare s work with ramifications for contemporary thought and practice Drawing a multifaceted picture of Shakespeare s scenes of hospitality with their numerous scenes of greeting feeding entertaining and sheltering the collection demonstrates how hospitality provides a compelling frame for the core ethical political theological and ecological questions of Shakespeare s time and our own By reading Shakespeare s plays in conjunction with contemporary theory as well as early modern texts and objects including almanacs recipe books husbandry manuals and religious tracts this book reimagines Shakespeare s playworld as one charged with the risks of hosting rape and seduction war and betrayal enchantment and disenchantment and the limits of generosity how much can or should one give the guest with what attitude or comportment and under what circumstances This substantial volume maps the terrain of Shakespearean hospitality in its rich complexity demonstrating the importance of historical rhetorical and phenomenological approaches to this diverse

subject     **Human Dignity in the Judaeo-Christian Tradition** John Loughlin, 2019-07-11 Dignity is a fundamental aspect of our lives yet one we rarely pause to consider our understandings of dignity on individual collective and philosophical perspectives shape how we think act and relate to others This book offers an historical survey of how dignity has been understood and explores the concept in the Judaeo Christian tradition World renowned contributors examine the roots of human dignity in classical Greece and Rome and the Scriptures as well as in the work of theologians such as St Thomas Aquinas and St John Paul II Further chapters consider dignity within Renaissance art and sacred music The volume shows that dignity is also a contemporary issue by analysing situations where the traditional understanding has been challenged by philosophical and policy developments To this end further essays look at the role of dignity in discussions about transhumanism religious freedom robotics and medicine Grounded in the principal Christian traditions of Catholicism Orthodoxy Anglicanism and Protestantism this book offers an interdisciplinary and cross period approach to a timely topic It validates the notion of human dignity and offers an introduction to the field while also challenging it     **The Thinking Past** Adrian Cole, Stephen Ortega, 2014-08-26 This book takes an analytical approach to world history Instead of proceeding through history descriptively it looks at several major questions and ideas such as the role of technology the development of universal religions global trade or participatory politics If this sounds thematic it is But it also progresses chronologically analyzing these themes as they apply in certain eras We use both primary sources in text and the latest scholarship as secondary source These we use frequently in each chapter both to employ the voices of scholars where they say things better than we could and footnote them for students reference We also hope to convey the sense that all this content is part of an ongoing debate amongst historians and scholars from different disciplines Finally we attempt to keep the text accessible by focusing on narrative elements of history and keeping in mind that the readers are undergraduates often with little exposure to the subject matter However the level of ideas remains high Provided by publisher     *A World Art History and Its Objects* David Carrier, 2008-11-28 Is writing a world art history possible Does the history of art as such even exist outside the Western tradition Is it possible to consider the history of art in a way that is not fundamentally Eurocentric In this highly readable and provocative book David Carrier a philosopher and art historian does not attempt to write a world art history himself Rather he asks the question of how an art history of all cultures could be written or whether it is even possible to do so He also engages the political and moral issues raised by the idea of a multicultural art history Focusing on a consideration of intersecting artistic traditions Carrier negotiates the way meaning and understanding shift or are altered when a visual object from one culture for example is inserted into the visual tradition of another culture *A World Art History and Its Objects* proposes the use of temporal narrative as a way to begin to understand a multicultural art history     *The Birth of Territory* Stuart Elden, 2013-09-09 Political theory professor Stuart Elden explores the history of land ownership and control from the ancient to the modern world in *The Birth of Territory* Territory is one of the central political concepts of the modern world

and indeed functions as the primary way the world is divided and controlled politically. Yet territory has not received the critical attention afforded to other crucial concepts such as sovereignty rights and justice. While territory continues to matter politically and territorial disputes and arrangements are studied in detail, the concept of territory itself is often neglected today. Where did the idea of exclusive ownership of a portion of the earth's surface come from and what kinds of complexities are hidden behind that seemingly straightforward definition? *The Birth of Territory* provides a detailed account of the emergence of territory within Western political thought. Looking at ancient, medieval, Renaissance, and early modern thought, Stuart Elden examines the evolution of the concept of territory from ancient Greece to the seventeenth century to determine how we arrived at our contemporary understanding. Elden addresses a range of historical, political, and literary texts and practices as well as a number of key players: historians, poets, philosophers, theologians, and secular political theorists, and in doing so sheds new light on the way the world came to be ordered and how the earth's surface is divided, controlled, and administered. *The Birth of Territory* is an outstanding scholarly achievement, a book that already promises to become a classic in geography, together with very few others published in the past decades.

**Political Geography: An impressive feat of erudition.** *American Historical Review*

**Orientalism Revisited** Ian Richard Netton, 2012. The publication of Edward Said's *Orientalism* in 1978 marks the inception of orientalism as a discourse. Since then, Orientalism has remained highly polemical and has become a widely employed epistemological tool. Three decades on, this volume sets out to survey, analyse, and revisit the state of the Orientalist debate, both past and present. The leitmotiv of this book is its emphasis on an intimate connection between art, land, and voyage. Orientalist art of all kinds frequently derives from a consideration of the land which is encountered on a voyage or pilgrimage, a relationship which until now has received little attention. Through adopting a thematic and prosopographical approach and attempting to locate the fundamentals of the debate in the historical and cultural contexts in which they arose, this book brings together a diversity of opinions, analyses, and arguments.

***A New Antiquity*** Alessandra Russo, 2024-02-22. We tend to think of sixteenth-century European artistic theory as separate from the artworks displayed in the non-European sections of museums. Alessandra Russo argues otherwise. Instead of considering the European experience of New World artifacts and materials through the lenses of curiosity and exoticism, Russo asks a different question: What impact have these works had on the way we currently think about and theorize the arts? Centering her study on a vast corpus of early modern textual and visual sources, Russo contends that the subtlety and inventiveness of the myriad of American, Asian, and African creations that were pillaged, exchanged, and often eventually destroyed in the context of Iberian colonization, including sculpture, painting, metalwork, mosaic, carving, architecture, and masonry, actually challenged and revolutionized sixteenth-century European definitions of what art is and what it means to be human. In this way, artifacts coming from outside Europe between 1400 and 1600 played a definitive role in what are considered distinctively European transformations: the redefinition of the frontier between the mechanical and the liberal arts and a new

conception of the figure of the artist Original and convincing A New Antiquity is a pathbreaking study that disrupts existing conceptions of Renaissance art and early modern humanity It will be required reading for art historians specializing in the Renaissance scholars of Iberian and Latin American cultures and global studies and anyone interested in anthropology and aesthetics

**East Meets West in the Middle Ages and Early Modern Times** Albrecht Classen, 2013-09-03 This new volume explores the surprisingly intense and complex relationships between East and West during the Middle Ages and the early modern world combining a large number of critical studies representing such diverse fields as literary German French Italian English Spanish and Arabic and other subdisciplines of history religion anthropology and linguistics The differences between Islam and Christianity erected strong barriers separating two global cultures but as this volume indicates despite many attempts to Other the opposing side the premodern world experienced an astonishing degree of contacts meetings exchanges and influences Scientists travelers authors medical researchers chroniclers diplomats and merchants criss crossed the East and the West or studied the sources produced by the other culture for many different reasons As much as the theoretical concept of Orientalism has been useful in sensitizing us to the fundamental tensions and conflicts separating both worlds at least since the eighteenth century the premodern world did not quite yet operate in such an ideological framework Even though the Crusades had violently pitted Christians against Muslims there were countless contacts and a palpable curiosity on both sides both before during and after those religious warfares

**New Horizons for Early Modern European Scholarship** Ann Blair, Nicholas Popper, 2021-08-10 An illuminating exploration of the new frontiers and unsettled geographical temporal and thematic borders of early modern European history The study of early modern Europe has long been the source of some of the most creative and influential movements in historical scholarship New Horizons for Early Modern European Scholarship explores recent developments in historiography both to exhibit the field s continuing vibrancy and to highlight emerging challenges to long assumed truths Essays examine how key ideas and intellectual practices arose circulated through scholarly culture and gave way to subsequent forms Europe s transforming relationship with Asia the Americas Africa and the rest of the world how overlooked evidence illuminates vital but obscured people practices and objects connections between disciplines types of sources time periods and places Opening up emerging possibilities this book demonstrates that early modern European scholarship remains a source for groundbreaking historical insights and methodologies that would benefit the study of any time and place Contributors Alexander Bevilacqua Ann Blair Daniela Bleichmar William J Bulman Frederic Clark Anthony Grafton Jill Kraye Yuen Gen Liang Elizabeth McCahill Nicholas Popper Amanda Wunder

**William Percy's Mahomet and His Heaven** Matthew Dimmock, 2017-05-15 William Percy s Mahomet and His Heaven 1601 is extraordinary Not only is it the only early modern play purportedly based upon the Qur an but it is also the first to place the Prophet Muhammad on the stage While there existed a remarkable range of texts concerning Islamic characters and themes in Renaissance England from chronicles and pamphlets to popular drama the publication of this

edition of *Mahomet and His Heaven* represents a major step forward in the study of Islam on the early modern stage. Roughly contemporary with Shakespeare's *Othello*, William Percy makes the remarkable and potentially highly provocative gesture of locating the Prophet as its central character presiding over an apocalyptic drought to chastise the sins of mankind. The play takes place in around the mosques of Medina and the action mirrors early Christian translations of the Qur'an, the Islamic holy text that was rarely available in England at the time. Furthermore, the play provides a fascinating insight into the way that Islamic characters were portrayed on the early modern stage, containing as it does remarkably detailed stage directions stipulating, for example, that the Prophet wears all green and green his Turban and that his Angels are rainbow powdered. Such details offer an entirely new perspective upon this aspect of early modern stagecraft. Matthew Dimmock presents here the play in its entirety with a critical introduction which introduces some of its key themes and places it in a textual and social context. A section of detailed explanatory scholarly notes follows the play, containing a full translation of the short Latin sections and references to the many political and literary parallels. This book should be required reading for historians, literary scholars and students dealing with notions of race, religion, magic, astrology and stagecraft in early modern England.
