**Renaissance Concepts of Man, and Other Essays** Paul Oskar Kristeller, 1972 *New Worlds and the Italian Renaissance*, 2012-08-17 This volume aims to assess the longstanding debate over the role played by the Italian Renaissance in the history of European intellectual culture The authors engage in an interpretative conversation with thinkers such as Jacob Burckhardt Ernst Cassirer Eugenio Garin Paul Oskar Kristeller whose works have influenced critical discourse on modernity and Renaissance Humanism over the last one hundred and fifty years The studies presented in this collection contribute to this discussion from a variety of perspectives scientific theological political and literary The result is a multifaceted illumination of the intellectual history of the Italian Renaissance **The Human and the Humane** Christian Høgel, 2015-07-15 In times of conflicts and crises an argument insisting on the humane is commonly heard In wars voices demanding a humane treatment of prisoners as decreed by the Geneva Convention will be raised Opposition to social injustice may be framed in a collected call for a humane society Even educational systems may insist on having a humane perspective among its leading causes Words referring to man humane but also humanistic humanitarian even humanity thus take on status of ideals for mankind Man in common and legal speech thus becomes the conceptual marker of his own perfection The subject of this book is the early history of this linguistic feature and in particular its argumentative use from its starting point till early modern times Thomas Aquinas on Human Nature Robert Pasnau, 2002 A major new study of Aquinas and his central project the understanding of human nature Montaigne and the Lives of the Philosophers Alison Calhoun, 2014-12-18 In his *Essais* Montaigne stresses that his theoretical interest in philosophy goes hand in hand with its practicality In fact he makes it clear that there is little reason to live our lives according to doctrine without proof that others have successfully done so Understanding Montaigne's philosophical thought therefore means not only studying the philosophies of the great thinkers but also the characters and ways of life of the philosophers themselves The focus of *Montaigne and the Lives of the Philosophers* Life Writing and Transversality in the *Essais* is how Montaigne assembled the lives of the philosophers on the pages of his *Essais* in order to grapple with two fundamental aims of his project first to transform the teaching of moral philosophy and next to experiment with a transverse construction of his self Both of these objectives grew out of a dialogue with the structure and content in the life writing of Plutarch and Diogenes Laertius authors whose books were bestsellers during the essayist's lifetime Sailing from Byzantium Colin Wells, 2008-12-10 A gripping intellectual adventure story *Sailing from Byzantium* sweeps you from the deserts of Arabia to the dark forests of northern Russia from the colorful towns of Renaissance Italy to the final moments of a millennial city under siege Byzantium the successor of Greece and Rome this magnificent empire bridged the ancient and modern worlds for more than a thousand years Without Byzantium the works of Homer and Herodotus Plato and Aristotle Sophocles and Aeschylus would never have survived Yet very few of us have any idea of the enormous debt we owe them The story of Byzantium is a real life adventure

of electrifying ideas high drama colorful characters and inspiring feats of daring In *Sailing from Byzantium* Colin Wells tells of the missionaries mystics philosophers and artists who against great odds and often at peril of their own lives spread Greek ideas to the Italians the Arabs and the Slavs Their heroic efforts inspired the Renaissance the golden age of Islamic learning and Russian Orthodox Christianity which came complete with a new alphabet architecture and one of the world's greatest artistic traditions The story's central reference point is an arcane squabble called the Hesychast controversy that pitted humanist scholars led by the brilliant acerbic intellectual Barlaam against the powerful monks of Mount Athos led by the stern Gregory Palamas who denounced pagan rationalism in favor of Christian mysticism Within a few decades the light of Byzantium would be extinguished forever by the invading Turks but not before the humanists found a safe haven for Greek literature The controversy of rationalism versus faith would continue to be argued by some of history's greatest minds Fast paced compulsively readable and filled with fascinating insights *Sailing from Byzantium* is one of the great historical dramas the gripping story of how the flame of civilization was saved and passed on Being-Moved Daniel M. Gross, 2020-03-03 If rhetoric is the art of speaking who is listening In *Being Moved* Daniel M Gross provides an answer showing when and where the art of speaking parted ways with the art of listening and what happens when they intersect once again Much in the history of rhetoric must be rethought along the way And much of this rethinking pivots around Martin Heidegger's early lectures on Aristotle's Rhetoric where his famous topic Being gives way to being moved The results Gross goes on to show are profound Listening to the gods listening to the world around us and even listening to one another in the classroom all of these experiences become different when rhetoric is reoriented from the voice to the ear *The Enchantress of Florence* Salman Rushdie, 2009-02-24 A tall yellow haired young European traveller calling himself Mogor dell Amore the Mughal of Love arrives at the court of the real Grand Mughal the Emperor Akbar with a tale to tell that begins to obsess the whole imperial capital The stranger claims to be the child of a lost Mughal princess the youngest sister of Akbar's grandfather Babar Qara K z Lady Black Eyes a great beauty believed to possess powers of enchantment and sorcery who is taken captive first by an Uzbek warlord then by the Shah of Persia and finally becomes the lover of a certain Argalia a Florentine soldier of fortune commander of the armies of the Ottoman Sultan When Argalia returns home with his Mughal mistress the city is mesmerised by her presence and much trouble ensues *The Enchantress of Florence* is a love story and a mystery the story of a woman attempting to command her own destiny in a man's world It brings together two cities that barely know each other the hedonistic Mughal capital in which the brilliant emperor wrestles daily with questions of belief desire and the treachery of sons and the equally sensual Florentine world of powerful courtesans humanist philosophy and inhuman torture where Argalia's boyhood friend il Machia Niccol Machiavelli is learning the hard way about the true brutality of power These two worlds so far apart turn out to be uncannily alike and the enchantments of women hold sway over them both But is Mogor's story true And if so then what happened to the lost princess And if he's a liar must he die *The In-Between World of*

*Vikram Lall* M.G. Vassanji, 2009-02-24 Giller Prize winner M G Vassanji's *The In Between World of Vikram Lall* is a haunting novel of corruption and regret that brings to life the complexity and turbulence of Kenyan society in the last five decades. Rich in sensuous detail and historical insight, this is a powerful story of passionate betrayals and political violence, racial tension, and the strictures of tradition told in elegant, assured prose. The novel begins in 1953 with eight-year-old Vikram Lall, a witness to the celebrations around the coronation of Queen Elizabeth II, just as the Mau Mau guerilla war for independence from Britain begins to gain strength. In a land torn apart by idealism, doubt, political upheaval, and terrible acts of violence, Vic and his sister Deepa must find their place among a new generation. Neither colonists nor African, neither white nor black, the Indian brother and sister find themselves somewhere in between, in their band of playmates Bill and Annie, British children, and Njoroge, an African boy. These are the relationships that will shape the rest of their lives. We follow Vikram through the changes in East African society, the immense promise of the fifties and sixties. But when that hope is betrayed by the corruption and violence of the following decades, Vic is drawn into the Kenyatta government's orbit of graft and power, broking Njoroge, his childhood friend, can abandon neither the idealism of his youth nor his love for Vic's sister Deepa. But neither the idealism of the one nor the passive cynicism of the other can avert the tragedies that await them. *The In Between World of Vikram Lall* is a profound and careful examination of one man's search for his place in the world, with themes that have run through Vassanji's work: the nature of community in a volatile society, the relations between colony and colonizer, and the inescapable presence of the past. It is also finally a deeply personal book, speaking to the people who are in the in between.

**Persons** Antonia LoLordo, 2019-08-06 What is a person? Why do we count certain beings as persons and others not? How is the concept of a person distinct from the concept of a human being or from the concept of the self? When and why did the concept of a person come into existence? What is the relationship between moral personhood and metaphysical personhood? How has their relationship changed over the last two millennia? This volume presents a genealogy of the concept of a person. It demonstrates how personhood, like the other central concepts of philosophy, law, and everyday life, has gained its significance not through definition but through the accretion of layers of meaning over centuries. We can only fully understand the concept by knowing its history. Essays show further how the concept of a person has five main strands: persons are particulars, roles, entities with special moral significance, rational beings, and selves. Thus, to count someone or something as a person is simultaneously to describe it as a particular, a role, a rational being, and a self, and to prescribe certain norms concerning how it may act and how others may act towards it. A group of distinguished thinkers and philosophers here untangle these and other insights about personhood, asking us to reconsider our most fundamental assumptions of the self.

*The Science of Pleasure* Harvie Ferguson, 2005-09-29 In this rich and original work, the author argues that science is the highest expression of bourgeois thought, and whilst it may have liberated mankind, it has also devised new forms of repression, discipline, and control.
