Second Grave A Case For The Abolition Of The Death Penalty:

The Second Grave Carl Wedekind,1999 *Capital Punishment* C. Cliff,2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes **The Irish Student Law Review** ,2006

Abolition of Capital Punishment United States. Congress. House. Committee on the Judiciary. Subcommittee No. 2,1960 Committee Serial No 21 Includes Man s Right To Life by Ruth Leigh Commission on Social Action of Reform Judaism 1959 p 57 120 **To Abolish the Death Penalty** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Criminal Laws and Procedures,1970

The Death Penalty Roger Hood,Carolyn Hoyle,2015-01-08 The fifth edition of this highly praised study charts and explains the progress that continues to be made towards the goal of worldwide abolition of the death penalty The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place Emphasising the impact of international human rights principles and evidence of abuse the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles political and cultural to further abolition They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness discrimination and conviction of the innocent all violations of the right to life They provide further evidence of the lack of a general deterrent effect shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel inhuman and degrading Widely relied upon and fully updated to reflect the current state of affairs worldwide this is an invaluable resource for all those who study

the death penalty and work towards its removal as an international goal Abolition of Capital Punishment United States. Congress. House. Committee on the Judiciary,1960 The Barbaric Punishment Hans Göran Franck,2021-09-13 In this volume Swedish human rights activist and political figure Hans G ran Franck examines the administration of the death penalty from a historical perspective The author s opinions are based on his lifelong work and devotion to abolishing the barbaric punishment Building upon previously unpublished material and considerable detail drawn from Franck s personal experiences it focuses on both the progressive developments within European countries and institutions over several decades and the frustratingly retrograde situation that prevails in the United States The author dedicated this book to those facing a sentence of death During the course of his work the author traveled to numerous countries and met many condemned men and women Publication of this important volume which comes a few years after Hans G ran Franck s untimely passing coincides with a major development to which he contributed the adoption of Protocol No 13 to the European Convention on Human Rights which abolishes capital punishment in both wartime and peacetime William A Schabas a law professor who specializes in the subject of capital punishment has ensured that the manuscript is up to date and contributed the introductory chapter *Reflections on Hanging* Arthur Koestler,2019 *Reflections on Hanging* is a searing indictment of capital punishment inspired by its author s own time in the shadow of a firing squad During the Spanish Civil War Arthur Koestler was held by the Franco regime as a political prisoner and condemned to death He was freed but only after months of witnessing the fates of less fortunate inmates That experience informs every page of the book which was first published in England in 1956 and followed in 1957 by this American edition As Koestler ranges across the history of capital punishment in Britain with a focus on hanging he looks at notable cases and rulings and portrays politicians judges lawyers scholars clergymen doctors police jailers prisoners and others involved in the long debate over the justness and effectiveness of the death penalty In Britain *Reflections on Hanging* was part of a concerted ultimately successful effort to abolish the death penalty At that time in the forty eight United States capital punishment was sanctioned in forty two of them with hanging still practiced in five This edition includes a preface and afterword written especially for the 1957 American edition The preface makes the book relevant to readers in the U S the afterword overviews the modern day history of abolitionist legislation in the British Parliament *Reflections on Hanging* is relentless biting and unsparing in its details of botched and unjust executions It is a classic work of advocacy for some of society s most defenseless members a critique of capital punishment that is still widely cited and an enduring work that presaged such contemporary problems as the sensationalism of crime the wrongful condemnation of the innocent and mentally ill the callousness of penal systems and the use of fear to control a citizenry Facets and Practices of State-Building Julia Raue,Patrick Sutter,2009-03-25 Drawing on a mix of international academic and field expert work this book presents and analyses contemporary state building efforts It offers studies on the theoretical and practical foundations and causes of state building identifies the role and responsibilities of key actors and

points to vital issues which merit specific attention in state building undertakings The book offers lessons for the future of state building relevant to both practitioners and the academic community
