Second Of History Including The Mod:

The Secondary Mod Dick Stroud,2021-04-21 This is the story of secondary modern schools based on facts not prejudice It is an alternative to the popular narrative that these schools were a scar on the country s educational history The Secondary Mod is a journey perhaps more a voyage of discovery Along the way you will discover that the accepted stories about the tripartite system and comprehensive schools are a simplistic distortion of the truth Worse still the mistakes the education establishment made in the past still determine how children are educated today Researched using the National Archives this book explores the evolution of secondary education in England and Wales from the end of WWI to the early 2000s It s a tale of bureaucratic reports well meaning ideas badly implemented and the harsh realities of life after WWII What we learn enables us to answer the question were secondary moderns a monstrous mistake or much maligned You may be surprised

Creating a Curriculum for Adolescent Youth National Education Association of the United States. Research Division,1928 **The Social Studies** ,1910 *NEA Research Bulletin* ,1928 **Beowulf and the Illusion of History** John F. Vickrey,2009 Most Beowulf scholars have held either that the poems minor episodes are more or less based on incidents in Scandinavian history or at least that they entail nothing of the fabulous or monstrous Beowulf and the Illusion of History contends that like the poem s Grendelkin episodes certain minor episodes involve monsters and contain motifs of the Bear s Son folktale In the Finn Episode the monsters are to be taken as physically present in the story as we have it while in the mention of the hero s fight with Daeghrefn and perhaps in the accounts of the fight with Ongenbeow the principal foes

though originally monsters appear now more like ordinary humans The inference permits the elucidation of passages hitherto obscure and indicates that the capability of the Beowulf poet as a maker is greater than has been thought John F Vickrey is Professor of English Emeritus at Lehigh University
