about their work for both students and teachers *The Odyssey Experience* Neil J. Smelser, 2009-03-05 The Odyssey Experience puts forward the view that a journey as encapsulated by the journey of Odysseus provides a fundamental and archetypal human experience and develops a theory of this experience through personal experiences and a wide range of salient phenomena There is a vast literature inspired by The Odyssey but the way that Smelser approaches the subject is entirely unique Yiannis Gabriel University of London Smelser draws together studies of an astonishing range of diverse topics and subsumes them under a single coherent powerful overarching concept the odyssey experience I believe his book will lead to the establishment of an entirely new field of study in the social and behavioral sciences that will open up new and promising lines of theory and research that until now have not been possible Robert Scott Associate Director emeritus Center for Advanced Study in the Behavioral Sciences *Karen Blixen's Existentialism* Lars Kaaber, 2023-10-11 This book investigates the writings of Karen Blixen Isak Dinesen from an existentialist angle Although it has not been subject to much study Blixen's writing elegantly and subtly integrates the ideas of Kierkegaard Nietzsche and Sartre in a way that makes the philosophers more accessible to a wider audience However Blixen also offers her own ideas of the fundamental problem in existentialism how to arrive at an authentic identity through free individual choices or as Nietzsche put it how to become who you are On the whole Blixen's authorship can be seen as an existential study of the 20th century and the ways by which Western culture came to be what it is now In agreement with Nietzsche's statement that all philosophy is an involuntary autobiography this book also contains accounts of the lives of the three philosophers chiefly involved in this study
