The Secrets of a Professional Futures Trader Henry K. Clasing, 1987

Simple & Easy Futures Trading Strategies Josef Fluse, I have seen brand new futures investors and traders around the world waste a serious amount of valuable education and training time on learning information that will not do them any good and can even cause them to lose some of their hard earned money right away in the live markets No one wants that however it is a huge mistake that virtually all brand new futures traders make because they don't know any better after reading this book you will I don't care where you trade from or what you trade Dubai to Detroit or Mumbai to Manhattan doesn't matter because a chart is a chart and supply and demand is supply and demand period live markets don't work any other way no matter where in the world you are or what your trading even camels or goats New futures traders all around the world spend waaaay too much time on looking for the magical combination of indicators settings and colors they think will show them something that is going to help them make more money There are no shortcuts or bells that go ding to tell you to enter the right position so stop looking right now and if you are using something like that and you're losing money that is why All you need to see is right in front of you on the price chart and that is price and time Those are the only things that professional futures traders care about and nothing else You can certainly use your chart like a crystal ball to tell you where price will go with a high degree of certainty When you are done reading this book you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education The information in this book will put you on the fast track to becoming a successful self directed futures investor and trader no matter where you trade from in the world or what you trade with very little money invested This book gives you the brutal and harsh truth of what happens in real life in real time and in real money in the world's live markets every day There are no short cuts and you must do the time if you want to drive your own money train to the bank

The good news is that we are here to help point you to valid resources through providing real information. Happy Trading. *The Option Secret*, 1993. Open Secret. Erin Arvedlund, 2014-09-25. Gaming the LIBOR that is fixing the price of money had become just that, a game. Playing it was the price of admission to a club of men who socialized together, skied in Europe, courtesy of brokers and expense.

accounts and reaped million dollar bonuses In the midst of the financial crisis of 2008 rumors swirled that a sinister scandal was brewing deep in the heart of London Some suspected that behind closed doors a group of chummy young bankers had been cheating the system through interest rate machinations But with most eyes focused on the crisis rippling through Wall Street and the rest of the world the story remained an open secret among competitors Soon enough the scandal became public and dozens of bankers and their bosses were caught red handed Several major banks and hedge funds were manipulating and misreporting their daily submission of the London Interbank Offered Rate better known as the LIBOR As the main interest rate that pulses through the banking community the LIBOR was supposed to represent the average rate banks charge each other for loans effectively setting short term interest rates around the world for trillions of dollars in financial contracts But the LIBOR wasn't an average it was a combination of guesswork and outright lies told by scheming bankers who didn't want to signal to the rest of the market that they were in trouble The manipulation of the world's most important number was even greater than many realized The bankers kept things looking good for themselves and their pals while the financial crisis raged on Now Erin Arvedlund the bestselling author of *Too Good to Be True* reveals how this global network created and perpetuated a multiyear scam against the financial system She uncovers how the corrupt practice of altering the key interest rate occurred through an unregulated and informal honor system in which young masters of the universe played fast and loose while their more seasoned bosses looked the other way and would later escape much of the blame It was a classic private understanding among a small group of competitors you scratch my back today I'll scratch yours tomorrow Arvedlund takes us behind the scenes of elite firms like Barclays Capital UBS Rabobank and Citigroup and shows how they hurt ordinary investors from students taking out loans to homeowners paying mortgages to cities like Philadelphia and Oakland The cost to the victims as much as 1 trillion She also examines the laxity of prominent regulators and central bankers and exposes the role of key figures such as Tom Hayes A senior trader for the Swiss financial giant UBS who worked with traders across eight other banks to influence the yen LIBOR Bob Diamond The shrewd multimillionaire American CEO of Barclays Capital the British bank whose traders have been implicated in the manipulation of the LIBOR Mervyn King The governor of the Bank of England who ignored U.S. Treasury secretary Tim Geithner's repeated recommendations to establish stricter regulations over the interest rate Arvedlund pulls back the curtain on one of the great financial scandals of our time uncovering how millions of ordinary investors around the globe were swindled by the corruption and greed of a few men
